Since the permissible exposures under the proposed revised criteria are based in part on the probability of the accident in question, would the Minister table in the Legislature the assumptions and calculations used to determine the probability of each of these types of accident for the purpose of calculating permissible exposures. *Tabled April 5th, 1979.††*
107. *Mr. Cassidy*—Enquiry of the Ministry—Would the Minister table in the Legislature all studies and evaluations done by or for Ontario Hydro on the potential environmental effects, specifically the possibility of widespread radio-active contamination of lake waters, in the event of a major nuclear reactor accident in any generating plant located on the shores of Lake Huron or Lake Ontario. *Tabled April 5th, 1979.††*

114. *Mr. Bounsall*—Enquiry of the Ministry—As the provisions in the 1979 General Legislative Grants will generate a significantly reduced amount of provincial funding per classroom hour of instruction in Heritage Language Programs, is it the intention of the Ministry that local school boards pay their increased share of the costs by raising property taxes. If this was not the intent of the Ministry, outline other specific courses of action open to school boards. *Tabled April 5th, 1979. Interim Answer April 19th, 1979. 126. *Mr. Cassidy*—Enquiry of the Ministry—Would the Minister table in the Legislature all technical documents and calculations produced or used by Ontario Hydro in assessing the probability of fuel melting in a CANDU nuclear reactor in the event of loss of regular cooling accompanied by failure of the emergency core cooling system (ECCS). What is the probability of fuel melting in the event of such an accident. *Tabled April 6th, 1979. Interim Answer April 19th, 1979. Approximate date information available May 17th, 1979.*
127. *Mr. Cassidy*—Enquiry of the Ministry—Since the vacuum building is an essential part of the containment system at the Bruce and Pickering nuclear generating stations, will the Minister tell the Legislature for how long negative pressure can be maintained in the vacuum buildings at those generating stations without having to pump any air out of the vacuum building. If air had to be pumped out of the vacuum building how could it be purified to remove all radioactive contamination. Would the Minister table in the Legislature all technical documents and reports produced by and for Ontario Hydro when he answers these first two questions. *Tabled April 6th, 1979. 128. *Mr. Cassidy*—Enquiry of the Ministry—Would the Minister of Health table the legal opinion which substantiates his contention on March 27th, that it would be a violation of Section 44 of the Ontario Health Insurance Act for the Ministry of Health to publish simply the names of those Ontario physicians who are enrolled in OHIP and those who have withdrawn from OHIP. Furthermore, would the Minister indicate on what date he communicated with the Ministry's solicitors regarding this matter, and would he table any correspondence pertaining to this question. *Tabled April 9th, 1979. Interim Answer Tabled April 23rd, 1979. Approximate date information available May 29th, 1979.*
- 129 to 136 inclusive. *Answered April 23rd, 1979.*

Would the Ministry list the names and locations of these exploration ventures. *Tabled April 10th, 1979. Interim Answer Tabled April 24th, 1979. Approximate date information available April 30th, 1979.*
138. *Mr. Grande*—Enquiry of the Ministry—Will the Ministry now expand the answer given by the Minister of Culture and Recreation to Question #96 on the Order Paper 10. Since the question quoted 2 sections of page 14 of the Ministry's 1977-8 Annual Report, will the Ministry explain why the Minister of Culture and Recreation found it "impossible to identify programs intended to promote and advance what is already present", i.e. multiculturalism, when his annual report states the Multicultural Development Branch is "responsible for the promotion and advancement of multicultural development". To that end, will the Ministry provide a 3 column table in column one place names of the groups to whom financial and consultative assistance was offered, in column two place a description of the assistance and in column three, an explanation of how this achieves the Ministry's stated purpose of the promotion and advancement of multiculturalism. *Tabled April 12th, 1979. Interim Answer Tabled April 26th, 1979. Approximate date information available May 2nd, 1979.*

Will the Minister indicate on an individual basis, the cost and the amount of property obtained. Does the Minister anticipate any additional expenditure, except regular maintenance on this section of highway, within the next 5 years. *Tabled April 17th, 1979.*
140. *Mr. Reid (Rainy River)*—Enquiry of the Ministry—Would the Ministry provide the budget for the last fiscal year of the Cecil Facer Facility in Sudbury, the number on staff, the number of children in residence and the per diem cost per child in the Facility. *Tabled April 19th, 1979.*
141. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not know or does he not agree that general hospitals cannot provide the specific kind of care or services that psychiatric hospitals can and do. That they attend upon and to different and distinct groups of patients in terms of length of care and the seriousness of the emotional disability. *Tabled April 19th, 1979.*

142. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister seriously contend that the Queen Street facility can or will into the future meet the projected increasing demands for hospitalization for the mentally ill as is documented in the McKinsey Report and as set out in the OPSEU brief which points out a deficiency of beds almost before you begin. *Tabled April 19th, 1979.*
143. *Mr. Lawlor*—Enquiry of the Ministry—What about the Day Care and particularly the out-patients services at Lakeshore. Does the Ministry seriously pretend that the present needs, much more the future requirements, of these people will begin to be met. *Tabled April 19th, 1979.*
144. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister not recognize on the basis of your own statistics that a new hospital will be necessary, no matter what, within a foreseeable time; and at a very much greater capital cost (including the acquirement of land) than as recommended in the Role Study. *Tabled April 19th, 1979.*
145. *Mr. Lawlor*—Enquiry of the Ministry—How can the Ministry possibly close the Special Observation Unit which attends to patients under Lieutenant-Governor's warrants. *Tabled April 19th, 1979.*
146. *Mr. Lawlor*—Enquiry of the Ministry—What is the Ministry thinking about in removing the Dialysis Unit to Whitby when the patients are located at the other end of the world. *Tabled April 19th, 1979.*
147. *Mr. Lawlor*—Enquiry of the Ministry—Since it was found impossible over a two-year or greater period to find a location for the Child and Adolescent Care Unit and that institution will remain on the grounds, what basis is there for a belief that the numerous other units can be accommodated elsewhere in the Lakeshore area. Where. And, in particular, the present valued and necessary Alcoholic program. *Tabled April 19th, 1979.*
148. *Mr. Lawlor*—Enquiry of the Ministry—What disposition does the Minister intend to make of that building which was financed and constructed by the volunteers, who have been such a valuable asset to this hospital. *Tabled April 19th, 1979.*
149. *Mr. Lawlor*—Enquiry of the Ministry—Cannot some use be found for the workshops and rehabilitation equipment and facilities fairly recently erected on the premises at considerable cost. *Tabled April 19th, 1979.*
150. *Mr. Lawlor*—Enquiry of the Ministry—In short, and as constantly new questions arise, does the Minister not realize or even acknowledge that he is in the process of making a gross and irreparable blunder which his Government will soon learn to regret, in his unplanned and ill-considered move to close this facility against the best advice of his own hired consultants (\$120,000 worth) and the numerous, most directly involved social agencies and individuals. *Tabled April 19th, 1979.*
151. *Mr. Lawlor*—Enquiry of the Ministry—Is the Minister not now prepared to reconsider the closing of Lakeshore Psychiatric Hospital on the basis of the numerous observations and comments made at public meetings, by way of correspondence, and by briefs submitted particularly by the Ontario Public Service Employees Union. *Tabled April 19th, 1979.*

152. *Mr. Lawlor*—Enquiry of the Ministry—Since I am often awakened at 3.00 a.m. in the morning by someone calling about a problem, and this has been known to happen to many other Members of the Ontario Legislature, does the Minister really feel that such a disturbance of his sleep constitutes adequate grounds for closing the institution, as he intimates by his repeated, soulful reference to this matter. And in particular, does a fire arising out of actions of a patient in the Special Observation Unit so constitute any or adequate grounds. *Tabled April 19th, 1979.*
153. *Mr. Lawlor*—Enquiry of the Ministry—Will the Minister not give good consideration to the perfectly reasonable suggestion made by the Member from Lakeshore that a planned, phased approach to this whole problem would be the best solution for all concerned. That is to say, that a new psychiatric hospital having, say, about 150 beds at its completion, be gradually constructed over a period of five to ten years and that at each stage of completion, the more serious patients be moved from the older quarters into the new thereby retaining the full complement of present in- and out-patient services without disruption and located on such portion of these extensive grounds as would free the balance for such approved community purposes as would meet the needs of the area. *Tabled April 19th, 1979.*
154. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry table the figures for all the allowable and actual cuts since 1970, by licences granted to timber companies in the province. *Tabled April 19th, 1979.*

Will the Ministry further detail its estimate of the amount by which demand exceeds supply for the above-mentioned minerals. *Tabled April 20th, 1979.*
156. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry detail the uses to which the aggregate materials considered to be in short supply within the Pits and Quarries Restrictive Zone, are to be put. *Tabled April 20th, 1979.*
157. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry provide figures on the export of aggregate materials considered to be in short supply within the Pits and Quarries Restrictive Zone. Will the Ministry detail this information by specific material, giving its source and ultimate destination. *Tabled April 20th, 1979.*

159. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry detail the expected lifespan of licenced operations outside the Pits and Quarries Restrictive Zone containing the specific materials deemed to be in short supply within the Pits and Quarries Restrictive Zone. *Tabled April 20th, 1979.*

160. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry provide a detailed estimate of the expected lifespan of existing licenced pits and quarries, within the Pits and Quarries Restrictive Zone, containing the aggregate materials deemed to be in short supply. *Tabled April 20th, 1979.*

162. *Mr. Foulds*—Enquiry of the Ministry—will the Ministry provide an estimate of the number of licenced acres and volume of reserves of aggregate minerals to be found in Ontario, of the type considered to be in short supply within the Pits and Quarries Restrictive Zone. Will the Ministry also provide the above estimates for each MNR district in Ontario. *Tabled April 20th, 1979.*
163. *Mr. Cassidy*—Enquiry of the Ministry—1. Will the Ministry name the firms which have utilized the Selective Placement Service in order to find foreign workers to fill employment vacancies in Ontario, for each of the years 1975, 1976, 1977, 1978 and 1979. 2. Will the Ministry indicate the number of foreign workers which each of the above firms was authorized to hire, and the number which each actually did hire, in the above years. 3. Will the Ministry provide, for each of the above years, a breakdown by skilled trade category of the number of foreign workers brought into Ontario through the Selective Placement Service. 4. Will the Ministry provide, for each of the years 1971, 1972, 1973, 1974, 1975, 1976, 1977, 1978 and 1979, the number of active apprentices by skilled trade category. 5. Will the Ministry table its policy governing access to the facilities offered by the Selective Placement Service of firms in Ontario. *Tabled April 20th, 1979.*
164. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education table data from the September board report for each school board where September 1978 enrolment exceeded 2,000 pupils; the total number of full time equivalent teachers who spend the majority of their time as regular classroom teachers and secondly, for each of these school boards, will the Ministry state the ratio of pupils to full time equivalent regular classroom teachers; that is, the number of class room teachers, plus the number of full time equivalent part time teachers. For the 20 largest school boards, will the Ministry also table comparable figures from September 1975. *Tabled April 26th, 1979.*
165. *Mr. Cassidy*—Enquiry of the Ministry—Will the Ministry provide figures, by skilled trade category, for each of the years 1971, 1972, 1973, 1974, 1975, 1976, 1977, 1978 and 1979, giving: (i) the numbers of apprentices who completed their training, (ii) the number of these apprentices who received compulsory certificates, and (iii) the numbers of these apprentices who received voluntary certificates. *Tabled April 26th, 1979.*
166. *Mr. Van Horne*—Enquiry of the Ministry—Will the Minister please indicate which Cabinet ministers and parliamentary assistants travelled outside of Ontario on government business in 1978-79. Please indicate the name of the province or other country visited, the length of the visit, the purpose of the visit, the number of civil servants (if any) accompanying the Cabinet minister

Would the Minister table in the Legislature all technical documents and reports produced by and for Ontario Hydro when he answers these first two questions. *Tabled April 6th, 1979. Interim Answer April 19th, 1979. Approximate date information available May 17th, 1979.*

128. *Mr. Cassidy*—Enquiry of the Ministry—Would the Minister of Health table the legal opinion which substantiates his contention on March 27th, that it would be a violation of Section 44 of the Ontario Health Insurance Act for the Ministry of Health to publish simply the names of those Ontario physicians who are enrolled in OHIP and those who have withdrawn from OHIP. Furthermore, would the Minister indicate on what date he communicated with the Ministry's solicitors regarding this matter, and would he table any correspondence pertaining to this question. *Tabled April 9th, 1979. Interim Answer Tabled April 23rd, 1979. Approximate date information available May 29th, 1979.*
- 129 to 136 inclusive. *Answered April 23rd, 1979.*
137. *Mr. Foulds*—Enquiry of the Ministry—How many mining exploration ventures were in progress in Ontario on March 31st, 1976; March 31, 1977; March 31, 1978; and March 31, 1979. Would the Ministry list the names and locations of these exploration ventures. *Tabled April 10th, 1979. Interim Answer Tabled April 24th, 1979. Approximate date information available April 30th, 1979.*
138. *Mr. Grande*—Enquiry of the Ministry—Will the Ministry now expand the answer given by the Minister of Culture and Recreation to Question #96 on the Order Paper 10. Since the question quoted 2 sections of page 14 of the Ministry's 1977-8 Annual Report, will the Ministry explain why the Minister of Culture and Recreation found it "impossible to identify programs intended to promote and advance what is already present", i.e. multiculturalism, when his annual report states the Multicultural Development Branch is "responsible for the promotion and advancement of multicultural development". To that end, will the Ministry provide a 3 column table in column one place names of the groups to whom financial and consultative assistance was offered, in column two place a description of the assistance and in column three, an explanation of how this achieves the Ministry's stated purpose of the promotion and advancement of multiculturalism. *Tabled April 12th, 1979. Interim Answer Tabled April 26th, 1979. Approximate date information available May 2nd, 1979.*
139. *Mr. Epp*—Enquiry of the Ministry—Will the Minister of Transportation and Communications indicate the total cost of construction and purchase of property of the stretch of 9 miles of highway from Smiths Falls to Merrickville. Will the Minister indicate on an individual basis, the cost and the amount of property obtained. Does the Minister anticipate any additional expenditure, except regular maintenance on this section of highway, within the next 5 years. *Tabled April 17th, 1979.*
140. *Mr. Reid (Rainy River)*—Enquiry of the Ministry—Would the Ministry provide the budget for the last fiscal year of the Cecil Facer Facility in Sudbury, the number on staff, the number of children in residence and the per diem cost per child in the Facility. *Tabled April 19th, 1979.*
141. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not know or does he not agree that general hospitals cannot provide the specific kind of care or services that psychiatric hospitals can and do. That they attend upon and to different and distinct groups of patients in terms of length of care and the seriousness of the emotional disability. *Tabled April 19th, 1979.*

142. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister seriously contend that the Queen Street facility can or will in the future meet the projected increasing demands for hospitalization for the mentally ill as is documented in the McKinsey Report and as set out in the OPSEU brief which points out a deficiency of beds almost before you begin. *Tabled April 19th, 1979.*
143. *Mr. Lawlor*—Enquiry of the Ministry—What about the Day Care and particularly the out-patients services at Lakeshore. Does the Ministry seriously pretend that the present needs, much more the future requirements, of these people will begin to be met. *Tabled April 19th, 1979.*
144. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister not recognize on the basis of your own statistics that a new hospital will be necessary, no matter what, within a foreseeable time; and at a very much greater capital cost (including the acquirement of land) than as recommended in the Role Study. *Tabled April 19th, 1979.*
145. *Mr. Lawlor*—Enquiry of the Ministry—How can the Ministry possibly close the Special Observation Unit which attends to patients under Lieutenant-Governor's warrants. *Tabled April 19th, 1979.*
146. *Mr. Lawlor*—Enquiry of the Ministry—What is the Ministry thinking about in removing the Dialysis Unit to Whitby when the patients are located at the other end of the world. *Tabled April 19th, 1979.*
147. *Mr. Lawlor*—Enquiry of the Ministry—Since it was found impossible over a two-year or greater period to find a location for the Child and Adolescent Care Unit and that institution will remain on the grounds, what basis is there for a belief that the numerous other units can be accommodated elsewhere in the Lakeshore area. Where. And, in particular, the present valued and necessary Alcoholic program. *Tabled April 19th, 1979.*
148. *Mr. Lawlor*—Enquiry of the Ministry—What disposition does the Minister intend to make of that building which was financed and constructed by the volunteers, who have been such a valuable asset to this hospital. *Tabled April 19th, 1979.*
149. *Mr. Lawlor*—Enquiry of the Ministry—Cannot some use be found for the workshops and rehabilitation equipment and facilities fairly recently erected on the premises at considerable cost. *Tabled April 19th, 1979.*
150. *Mr. Lawlor*—Enquiry of the Ministry—In short, and as constantly new questions arise, does the Minister not realize or even acknowledge that he is in the process of making a gross and irreparable blunder which his Government will soon learn to regret, in his unplanned and ill-considered move to close this facility against the best advice of his own hired consultants (\$120,000 worth) and the numerous, most directly involved social agencies and individuals. *Tabled April 19th, 1979.*
151. *Mr. Lawlor*—Enquiry of the Ministry—Is the Minister not now prepared to reconsider the closing of Lakeshore Psychiatric Hospital on the basis of the numerous observations and comments made at public meetings, by way of correspondence, and by briefs submitted particularly by the Ontario Public Service Employees Union. *Tabled April 19th, 1979.*

152. *Mr. Lawlor*—Enquiry of the Ministry—Since I am often awakened at 3.00 a.m. in the morning by someone calling about a problem, and this has been known to happen to many other Members of the Ontario Legislature, does the Minister really feel that such a disturbance of his sleep constitutes adequate grounds for closing the institution, as he intimates by his repeated, soulful reference to this matter. And in particular, does a fire arising out of actions of a patient in the Special Observation Unit so constitute any or adequate grounds. *Tabled April 19th, 1979.*
153. *Mr. Lawlor*—Enquiry of the Ministry—Will the Minister not give good consideration to the perfectly reasonable suggestion made by the Member from Lakeshore that a planned, phased approach to this whole problem would be the best solution for all concerned. That is to say, that a new psychiatric hospital having, say, about 150 beds at its completion, be gradually constructed over a period of five to ten years and that at each stage of completion, the more serious patients be moved from the older quarters into the new thereby retaining the full complement of present in- and out-patient services without disruption and located on such portion of these extensive grounds as would free the balance for such approved community purposes as would meet the needs of the area. *Tabled April 19th, 1979.*
154. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry table the figures for all the allowable and actual cuts since 1970, by licences granted to timber companies in the province. *Tabled April 19th, 1979.*
155. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry detail the types of mineral aggregate stone or other construction materials that the Ministry believes to be in short supply as indicated in the Provincial Secretary for Resources Development's statement on Pits and Quarries in the Niagara Escarpment, dated April 12, 1979. Will the Ministry further detail its estimate of the amount by which demand exceeds supply for the above-mentioned minerals. *Tabled April 20th, 1979.*
156. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry detail the uses to which the aggregate materials considered to be in short supply within the Pits and Quarries Restrictive Zone, are to be put. *Tabled April 20th, 1979.*
157. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry provide figures on the export of aggregate materials considered to be in short supply within the Pits and Quarries Restrictive Zone. Will the Ministry detail this information by specific material, giving its source and ultimate destination. *Tabled April 20th, 1979.*
158. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry provide a detailed summary of its demand forecasts for the aggregate materials considered to be in short supply within the Pits and Quarries Restrictive Zone. Will the Ministry further provide this information by MNR district. *Tabled April 20th, 1979.*
159. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry detail the expected lifespan of licenced operations outside the Pits and Quarries Restrictive Zone containing the specific materials deemed to be in short supply within the Pits and Quarries Restrictive Zone. *Tabled April 20th, 1979.*

160. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry provide a detailed estimate of the expected lifespan of existing licenced pits and quarries, within the Pits and Quarries Restrictive Zone, containing the aggregate materials deemed to be in short supply. *Tabled April 20th, 1979.*
161. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry provide an estimate of the number of licenced acres and reserve volumes of aggregate minerals to be found within the Pits and Quarries Restrictive Zone, of the type considered to be in short supply. *Tabled April 20th, 1979.*
162. *Mr. Foulds*—Enquiry of the Ministry—will the Ministry provide an estimate of the number of licenced acres and volume of reserves of aggregate minerals to be found in Ontario, of the type considered to be in short supply within the Pits and Quarries Restrictive Zone. Will the Ministry also provide the above estimates for each MNR district in Ontario. *Tabled April 20th, 1979.*
163. *Mr. Cassidy*—Enquiry of the Ministry—1. Will the Ministry name the firms which have utilized the Selective Placement Service in order to find foreign workers to fill employment vacancies in Ontario, for each of the years 1975, 1976, 1977, 1978 and 1979. 2. Will the Ministry indicate the number of foreign workers which each of the above firms was authorized to hire, and the number which each actually did hire, in the above years. 3. Will the Ministry provide, for each of the above years, a breakdown by skilled trade category of the number of foreign workers brought into Ontario through the Selective Placement Service. 4. Will the Ministry provide, for each of the years 1971, 1972, 1973, 1974, 1975, 1976, 1977, 1978 and 1979, the number of active apprentices by skilled trade category. 5. Will the Ministry table its policy governing access to the facilities offered by the Selective Placement Service of firms in Ontario. *Tabled April 20th, 1979.*
164. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education table data from the September board report for each school board where September 1978 enrolment exceeded 2,000 pupils; the total number of full time equivalent teachers who spend the majority of their time as regular classroom teachers and secondly, for each of these school boards, will the Ministry state the ratio of pupils to full time equivalent regular classroom teachers; that is, the number of class room teachers, plus the number of full time equivalent part time teachers. For the 20 largest school boards, will the Ministry also table comparable figures from September 1975. *Tabled April 26th, 1979.*
165. *Mr. Cassidy*—Enquiry of the Ministry—Will the Ministry provide figures, by skilled trade category, for each of the years 1971, 1972, 1973, 1974, 1975, 1976, 1977, 1978 and 1979, giving: (i) the numbers of apprentices who completed their training, (ii) the number of these apprentices who received compulsory certificates, and (iii) the numbers of these apprentices who received voluntary certificates. *Tabled April 26th, 1979.*
166. *Mr. Van Horne*—Enquiry of the Ministry—Will the Minister please indicate which Cabinet ministers and parliamentary assistants travelled outside of Ontario on government business in 1978-79. Please indicate the name of the province or other country visited, the length of the visit, the purpose of the visit, the number of civil servants (if any) accompanying the Cabinet minister

or parliamentary assistant, the accommodation cost and travel cost for the Cabinet minister or parliamentary assistant and the accommodation cost and travel cost for the civil servants (if any) who accompanied the Cabinet minister or parliamentary assistant. *Tabled April 26th, 1979.*

141. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not know or does he not agree that general hospitals cannot provide the specific kind of care or services that psychiatric hospitals can and do. 142. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister seriously contend that the Queen Street facility can or will into the future meet the projected increasing demands for hospitalization for the mentally ill as is documented in the McKinsey Report and as set out in the OPSEU brief which points out a deficiency of beds almost before you begin. *Tabled April 19th, 1979.*
143. *Mr. Lawlor*—Enquiry of the Ministry—What about the Day Care and particularly the out-patients services at Lakeshore. Does the Ministry seriously pretend that the present needs, much more the future requirements, of these people will begin to be met. *Tabled April 19th, 1979.*
144. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister not recognize on the basis of your own statistics that a new hospital will be necessary, no matter what, within a foreseeable time; and at a very much greater capital cost (including the acquirement of land) than as recommended in the Role Study. *Tabled April 19th, 1979.*

147. *Mr. Lawlor*—Enquiry of the Ministry—Since it was found impossible over a two-year or greater period to find a location for the Child and Adolescent Care Unit and that institution will remain on the grounds, what basis is there

150. *Mr. Lawlor*—Enquiry of the Ministry—In short, and as constantly new questions arise, does the Minister not realize or even acknowledge that he is in the process of making a gross and irreparable blunder which his Government will soon learn to regret, in his unplanned and ill-considered move to close this facility against the best advice of his own hired consultants (\$120,000 worth) and the numerous, most directly involved social agencies and individuals. *Tabled April 19th, 1979.*
151. *Mr. Lawlor*—Enquiry of the Ministry—Is the Minister not now prepared to reconsider the closing of Lakeshore Psychiatric Hospital on the basis of the numerous observations and comments made at public meetings, by way of correspondence, and by briefs submitted particularly by the Ontario Public Service Employees Union. *Tabled April 19th, 1979.*
152. *Mr. Lawlor*—Enquiry of the Ministry—Since I am often awakened at 3.00 a.m. in the morning by someone calling about a problem, and this has been known to happen to many other Members of the Ontario Legislature, does the Minister really feel that such a disturbance of his sleep constitutes adequate grounds for closing the institution, as he intimates by his repeated, soulful reference to this matter. And in particular, does a fire arising out of actions of a patient in the Special Observation Unit so constitute any or adequate grounds. *Tabled April 19th, 1979.*
153. *Mr. Lawlor*—Enquiry of the Ministry—Will the Minister not give good consideration to the perfectly reasonable suggestion made by the Member from Lakeshore that a planned, phased approach to this whole problem would be the best solution for all concerned. That is to say, that a new psychiatric hospital having, say, about 150 beds at its completion, be gradually constructed over a period of five to ten years and that at each stage of completion, the more serious patients be moved from the older quarters into the new thereby retaining the full complement of present in- and out-patient services without disruption and located on such portion of these extensive grounds as would free the balance for such approved community purposes as would meet the needs of the area. *Tabled April 19th, 1979.*

Since the permissible exposures under the proposed revised criteria are based in part on the probability of the accident in question, would the Minister table in the Legislature the assumptions and calculations used to determine the probability of each of these types of accident for the purpose of calculating permissible exposures. *Tabled April 5th, 1979.††*

114. *Mr. Bounsall*—Enquiry of the Ministry—As the provisions in the 1979 General Legislative Grants will generate a significantly reduced amount of provincial funding per classroom hour of instruction in Heritage Language Programs, is it the intention of the Ministry that local school boards pay their increased share of the costs by raising property taxes. If this was not the intent of the Ministry, outline other specific courses of action open to school boards. *Tabled April 5th, 1979. Interim Answer April 19th, 1979. 127. *Mr. Cassidy*—Enquiry of the Ministry—Since the vacuum building is an essential part of the containment system at the Bruce and Pickering nuclear generating stations, will the Minister tell the Legislature for how long negative pressure can be maintained in the vacuum buildings at those generating stations without having to pump any air out of the vacuum building. If air had to be pumped out of the vacuum building how could it be purified to remove all radioactive contamination. Since the question quoted 2 sections of page 14 of the Ministry's 1977-8 Annual Report, will the Ministry explain why the Minister of Culture and Recreation found it "impossible to identify programs intended to promote and advance what is already present", i.e. multiculturalism, when his annual report states the Multicultural Development Branch is "responsible for the promotion and advancement of multicultural development". To that end, will the Ministry provide a 3 column table in column one place names of the groups to whom financial and consultative assistance was offered, in column two place a description of the assistance and in column three, an explanation of how this achieves the Ministry's stated purpose of the promotion and advancement of multiculturalism. *Tabled April 12th, 1979. Interim Answer Tabled April 26th, 1979. Approximate date information available May 2nd, 1979.*
139. and 140. *Answered May 1st, 1979.*
141. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not know or does he not agree that general hospitals cannot provide the specific kind of care or services that psychiatric hospitals can and do. That they attend upon

and to different and distinct groups of patients in terms of length of care and the seriousness of the emotional disability. *Tabled April 19th, 1979.*

142. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister seriously contend that the Queen Street facility can or will into the future meet the projected increasing demands for hospitalization for the mentally ill as is documented in the McKinsey Report and as set out in the OPSEU brief which points out a deficiency of beds almost before you begin. *Tabled April 19th, 1979.*
143. *Mr. Lawlor*—Enquiry of the Ministry—What about the Day Care and particularly the out-patients services at Lakeshore. Does the Ministry seriously pretend that the present needs, much more the future requirements, of these people will begin to be met. *Tabled April 19th, 1979.*
144. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister not recognize on the basis of your own statistics that a new hospital will be necessary, no matter what, within a foreseeable time; and at a very much greater capital cost (including the acquirement of land) than as recommended in the Role Study. *Tabled April 19th, 1979.*
145. *Mr. Lawlor*—Enquiry of the Ministry—How can the Ministry possibly close the Special Observation Unit which attends to patients under Lieutenant-Governor's warrants. *Tabled April 19th, 1979.*
146. *Mr. Lawlor*—Enquiry of the Ministry—What is the Ministry thinking about in removing the Dialysis Unit to Whitby when the patients are located at the other end of the world. *Tabled April 19th, 1979.*
147. *Mr. Lawlor*—Enquiry of the Ministry—Since it was found impossible over a two-year or greater period to find a location for the Child and Adolescent Care Unit and that institution will remain on the grounds, what basis is there for a belief that the numerous other units can be accommodated elsewhere in the Lakeshore area. Where. And, in particular, the present valued and necessary Alcoholic program. *Tabled April 19th, 1979.*
148. *Mr. Lawlor*—Enquiry of the Ministry—What disposition does the Minister intend to make of that building which was financed and constructed by the volunteers, who have been such a valuable asset to this hospital. *Tabled April 19th, 1979.*
149. *Mr. Lawlor*—Enquiry of the Ministry—Cannot some use be found for the workshops and rehabilitation equipment and facilities fairly recently erected on the premises at considerable cost. *Tabled April 19th, 1979.*
150. *Mr. Lawlor*—Enquiry of the Ministry—In short, and as constantly new questions arise, does the Minister not realize or even acknowledge that he is in the process of making a gross and irreparable blunder which his Government will soon learn to regret, in his unplanned and ill-considered move to close this facility against the best advice of his own hired consultants (\$120,000 worth) and the numerous, most directly involved social agencies and individuals. *Tabled April 19th, 1979.*
151. *Mr. Lawlor*—Enquiry of the Ministry—Is the Minister not now prepared to reconsider the closing of Lakeshore Psychiatric Hospital on the basis of the

numerous observations and comments made at public meetings, by was of correspondence, and by briefs submitted particularly by the Ontario Public Service Employees Union. *Tabled April 19th, 1979.*

152. *Mr. Lawlor*—Enquiry of the Ministry—Since I am often awakened at 3.00 a.m. in the morning by someone calling about a problem, and this has been known to happen to many other Members of the Ontario Legislature, does the Minister really feel that such a disturbance of his sleep constitutes adequate grounds for closing the institution, as he intimates by his repeated, soulful reference to this matter. And in particular, does a fire arising out of actions of a patient in the Special Observation Unit so constitute any or adequate grounds. *Tabled April 19th, 1979.*
153. *Mr. Lawlor*—Enquiry of the Ministry—Will the Minister not give good consideration to the perfectly reasonable suggestion made by the Member from Lakeshore that a planned, phased approach to this whole problem would be the best solution for all concerned. That is to say, that a new psychiatric hospital having, say, about 150 beds at its completion, be gradually constructed over a period of five to ten years and that at each stage of completion, the more serious patients be moved from the older quarters into the new thereby retaining the full complement of present in- and out-patient services without disruption and located on such portion of these extensive grounds as would free the balance for such approved community purposes as would meet the needs of the area. *Tabled April 19th, 1979.*
154. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry table the figures for all the allowable and actual cuts since 1970, by licences granted to timber companies in the province. *Tabled April 19th, 1979.*
155. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry detail the types of mineral aggregate stone or other construction materials that the Ministry believes to be in short supply as indicated in the Provincial Secretary for Resources Development's statement on Pits and Quarries in the Niagara Escarpment, dated April 12, 1979. Will the Ministry further detail its estimate of the amount by which demand exceeds supply for the above-mentioned minerals. *Tabled April 20th, 1979.*
156. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry detail the uses to which the aggregate materials considered to be in short supply within the Pits and Quarries Restrictive Zone, are to be put. *Tabled April 20th, 1979.*
157. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry provide figures on the export of aggregate materials considered to be in short supply within the Pits and Quarries Restrictive Zone. Will the Ministry detail this information by specific material, giving its source and ultimate destination. *Tabled April 20th, 1979.*
158. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry provide a detailed summary of its demand forecasts for the aggregate materials considered to be in short supply within the Pits and Quarries Restrictive Zone. Will the Ministry further provide this information by MNR district. *Tabled April 20th, 1979.*

159. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry detail the expected lifespan of licenced operations outside the Pits and Quarries Restrictive Zone containing the specific materials deemed to be in short supply within the Pits and Quarries Restrictive Zone. *Tabled April 20th, 1979.*
160. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry provide a detailed estimate of the expected lifespan of existing licenced pits and quarries, within the Pits and Quarries Restrictive Zone, containing the aggregate materials deemed to be in short supply. *Tabled April 20th, 1979.*
161. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry provide an estimate of the number of licenced acres and reserve volumes of aggregate minerals to be found within the Pits and Quarries Restrictive Zone, of the type considered to be in short supply. *Tabled April 20th, 1979.*
162. *Mr. Foulds*—Enquiry of the Ministry—will the Ministry provide an estimate of the number of licenced acres and volume of reserves of aggregate minerals to be found in Ontario, of the type considered to be in short supply within the Pits and Quarries Restrictive Zone. Will the Ministry also provide the above estimates for each MNR district in Ontario. *Tabled April 20th, 1979.*
163. *Mr. Cassidy*—Enquiry of the Ministry—1. Will the Ministry name the firms which have utilized the Selective Placement Service in order to find foreign workers to fill employment vacancies in Ontario, for each of the years 1975, 1976, 1977, 1978 and 1979. 2. Will the Ministry indicate the number of foreign workers which each of the above firms was authorized to hire, and the number which each actually did hire, in the above years. 3. Will the Ministry provide, for each of the above years, a breakdown by skilled trade category of the number of foreign workers brought into Ontario through the Selective Placement Service. 4. Will the Ministry provide, for each of the years 1971, 1972, 1973, 1974, 1975, 1976, 1977, 1978 and 1979, the number of active apprentices by skilled trade category. 5. Will the Ministry table its policy governing access to the facilities offered by the Selective Placement Service of firms in Ontario. *Tabled April 20th, 1979.*

increasing demands for hospitalization for the mentally ill as is documented in the McKinsey Report and as set out in the OPSEU brief which points out a deficiency of beds almost before you begin. *Tabled April 19th, 1979.*†††

143. *Mr. Lawlor*—Enquiry of the Ministry—What about the Day Care and particularly the out-patients services at Lakeshore. Does the Ministry seriously pretend that the present needs, much more the future requirements, of these people will begin to be met. *Tabled April 19th, 1979.*†††
144. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister not recognize on the basis of your own statistics that a new hospital will be necessary, no matter what, within a foreseeable time; and at a very much greater capital cost (including the acquirement of land) than as recommended in the Role Study. *Tabled April 19th, 1979.*†††
145. *Mr. Lawlor*—Enquiry of the Ministry—How can the Ministry possibly close the Special Observation Unit which attends to patients under Lieutenant-Governor's warrants. *Tabled April 19th, 1979.*†††
146. *Mr. Lawlor*—Enquiry of the Ministry—What is the Ministry thinking about in removing the Dialysis Unit to Whitby when the patients are located at the other end of the world. *Tabled April 19th, 1979.*†††
147. *Mr. Lawlor*—Enquiry of the Ministry—Since it was found impossible over a two-year or greater period to find a location for the Child and Adolescent Care Unit and that institution will remain on the grounds, what basis is there for a belief that the numerous other units can be accommodated elsewhere in the Lakeshore area. Where. And, in particular, the present valued and necessary Alcoholic program. *Tabled April 19th, 1979.*†††
148. *Mr. Lawlor*—Enquiry of the Ministry—What disposition does the Minister intend to make of that building which was financed and constructed by the volunteers, who have been such a valuable asset to this hospital. *Tabled April 19th, 1979.*†††
149. *Mr. Lawlor*—Enquiry of the Ministry—Cannot some use be found for the workshops and rehabilitation equipment and facilities fairly recently erected on the premises at considerable cost. *Tabled April 19th, 1979.*†††
150. *Mr. Lawlor*—Enquiry of the Ministry—In short, and as constantly new questions arise, does the Minister not realize or even acknowledge that he is in the process of making a gross and irreparable blunder which his Government will soon learn to regret, in his unplanned and ill-considered move to close this facility against the best advice of his own hired consultants (\$120,000 worth) and the numerous, most directly involved social agencies and individuals. *Tabled April 19th, 1979.*†††
151. *Mr. Lawlor*—Enquiry of the Ministry—Is the Minister not now prepared to reconsider the closing of Lakeshore Psychiatric Hospital on the basis of the

numerous observations and comments made at public meetings, by was of correspondence, and by briefs submitted particularly by the Ontario Public Service Employees Union. *Tabled April 19th, 1979.*†††

152. *Mr. Lawlor*—Enquiry of the Ministry—Since I am often awakened at 3.00 a.m. in the morning by someone calling about a problem, and this has been known to happen to many other Members of the Ontario Legislature, does the Minister really feel that such a disturbance of his sleep constitutes adequate grounds for closing the institution, as he intimates by his repeated, soulful reference to this matter. And in particular, does a fire arising out of actions of a patient in the Special Observation Unit so constitute any or adequate grounds. *Tabled April 19th, 1979.*†††
153. *Mr. Lawlor*—Enquiry of the Ministry—Will the Minister not give good consideration to the perfectly reasonable suggestion made by the Member from Lakeshore that a planned, phased approach to this whole problem would be the best solution for all concerned. That is to say, that a new psychiatric hospital having, say, about 150 beds at its completion, be gradually constructed over a period of five to ten years and that at each stage of completion, the more serious patients be moved from the older quarters into the new thereby retaining the full complement of present in- and out-patient services without disruption and located on such portion of these extensive grounds as would free the balance for such approved community purposes as would meet the needs of the area. *Tabled April 19th, 1979.*†††
- 154 to 163 inclusive. *Answered May 3rd, 1979.*
164. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education table data from the September board report for each school board where September 1978 enrolment exceeded 2,000 pupils; the total number of full time equivalent teachers who spend the majority of their time as regular classroom teachers and secondly, for each of these school boards, will the Ministry state the ratio of pupils to full time equivalent regular classroom teachers; that is, the number of class room teachers, plus the number of full time equivalent part time teachers. For the 20 largest school boards, will the Ministry also table comparable figures from September 1975. *Tabled April 26th, 1979.*
165. *Mr. Cassidy*—Enquiry of the Ministry—Will the Ministry provide figures, by skilled trade category, for each of the years 1971, 1972, 1973, 1974, 1975, 1976, 1977, 1978 and 1979, giving: (i) the numbers of apprentices who completed their training, (ii) the number of these apprentices who received compulsory certificates, and (iii) the numbers of these apprentices who received voluntary certificates. *Tabled April 26th, 1979.*
166. *Mr. Van Horne*—Enquiry of the Ministry—Will the Minister please indicate which Cabinet ministers and parliamentary assistants travelled outside of Ontario on government business in 1978-79. Please indicate the name of the province or other country visited, the length of the visit, the purpose of the

visit, the number of civil servants (if any) accompanying the Cabinet minister or parliamentary assistant, the accommodation cost and travel cost for the Cabinet minister or parliamentary assistant and the accommodation cost and travel cost for the civil servants (if any) who accompanied the Cabinet minister or parliamentary assistant. *Tabled April 26th, 1979.*

167. *Mrs. Campbell*—Enquiry of the Ministry—Will the Minister advise the House as to: 1. the number of charges laid in the last year under section 170 of the Criminal Code against, (a) burlesque entertainers, and (b) clubowners who employ burlesque entertainers; 2. the number of charges laid in the last year under sections 21 and 22 of the Criminal Code against clubowners who have encouraged burlesque entertainers to perform nude contrary to section 170 of the Criminal Code; 3. the number of convictions obtained for each of the above charges; 4. whether direction has been given to the police and Crown attorneys regarding the laying of charges and the prosecution of charges of “nudity” under section 170 of the Criminal Code; 5. the nature of the Attorney General’s consent to proceedings under section 170(3) of the Criminal Code. *Tabled April 27th, 1979.*
168. *Mr. Laughren*—Enquiry of the Ministry—Would the Ministry of Industry and Tourism table the criteria on which it makes its recommendations to the Foreign Investment Review Agency on foreign takeovers of business and new foreign business in Ontario. *Tabled April 27th, 1979.*
169. *Mr. Ziembra*—Enquiry of the Ministry—How many wiretaps were installed each and every year for the past five years. How many subjects of a wiretap were so advised, when the wiretap was removed, during this same period. *Tabled April 30th, 1979.*
170. *Mr. Blundy*—Enquiry of the Ministry—Would the Minister of Community and Social Services list the names and locations of provincially approved day care centers that are currently operating with conditional licences. Would the Minister give reasons in each case for withholding full licence approval. For each of the above, would the Minister also note the number of times the conditional licences have been renewed or extended and for what duration in the history of the center as a licenced facility of the Ministry. *Tabled May 1st, 1979.*
171. *Mr. Isaacs*—Enquiry of the Minister—Will the Ministry provide figures on the cost of programme administration for OHIP for 1975/76, 1976/77, 1977/78. *Tabled May 1st, 1979.*
172. *Mr. Foulds*—Enquiry of the Ministry—Will the Minister of Energy now, in view of the petition he has received signed by 1700 residents of the Atikokan area, insist on public hearings before test drilling by A.E.C.L. takes place in the Atikokan area for a possible nuclear waste disposal site. *Tabled May 3rd, 1979.*
173. *Mr. Cassidy*—Enquiry of the Ministry—Would the Minister of Health table information on the number of medical specialists by county across Ontario. Would the Minister state the total number of specialists practising in each county, and would the Minister indicate how many of these specialists are still

in OHIP. Would the Minister further indicate how many anaesthetists, obstetricians and gynecologists, surgeons, psychiatrists, and paediatricians there are in total in each county, and how many are still practising within OHIP. Would the Minister provide this information as of March 31 1979, December 31 1978, September 30 1978, June 30 1978, March 31 1978. Would the Minister also state the total number of general practitioners in each county and the number still within OHIP as of the same dates as noted above.

114. *Mr. Bounsall*—Enquiry of the Ministry—As the provisions in the 1979 General Legislative Grants will generate a significantly reduced amount of provincial funding per classroom hour of instruction in Heritage Language Programs, is it the intention of the Ministry that local school boards pay their increased share of the costs by raising property taxes. If this was not the intent of the Ministry, outline other specific courses of action open to school boards. *Tabled April 5th, 1979. Interim Answer April 19th, 1979. 141. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not know or does he not agree that general hospitals cannot provide the specific kind of care or services that psychiatric hospitals can and do. That they attend upon and to different and distinct groups of patients in terms of length of care and the seriousness of the emotional disability. *Tabled April 19th, 1979.†††*

142. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister seriously contend that the Queen Street facility can or will into the future meet the projected increasing demands for hospitalization for the mentally ill as is documented in the McKinsey Report and as set out in the OPSEU brief which points out a deficiency of beds almost before you begin. *Tabled April 19th, 1979.†††*

143. *Mr. Lawlor*—Enquiry of the Ministry—What about the Day Care and particularly the out-patients services at Lakeshore. Does the Ministry seriously pretend that the present needs, much more the future requirements, of these people will begin to be met. *Tabled April 19th, 1979.†††*

144. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister not recognize on the basis of your own statistics that a new hospital will be necessary, no matter what, within a foreseeable time; and at a very much greater capital cost (including the acquirement of land) than as recommended in the Role Study. *Tabled April 19th, 1979.†††*

145. *Mr. Lawlor*—Enquiry of the Ministry—How can the Ministry possibly close the Special Observation Unit which attends to patients under Lieutenant-Governor's warrants. *Tabled April 19th, 1979.†††*

146. *Mr. Lawlor*—Enquiry of the Ministry—What is the Ministry thinking about in removing the Dialysis Unit to Whitby when the patients are located at the other end of the world. *Tabled April 19th, 1979.*†††
147. *Mr. Lawlor*—Enquiry of the Ministry—Since it was found impossible over a two-year or greater period to find a location for the Child and Adolescent Care Unit and that institution will remain on the grounds, what basis is there for a belief that the numerous other units can be accommodated elsewhere in the Lakeshore area. Where. And, in particular, the present valued and necessary Alcoholic program. *Tabled April 19th, 1979.*†††
148. *Mr. Lawlor*—Enquiry of the Ministry—What disposition does the Minister intend to make of that building which was financed and constructed by the volunteers, who have been such a valuable asset to this hospital. *Tabled April 19th, 1979.*†††
149. *Mr. Lawlor*—Enquiry of the Ministry—Cannot some use be found for the workshops and rehabilitation equipment and facilities fairly recently erected on the premises at considerable cost. *Tabled April 19th, 1979.*†††
150. *Mr. Lawlor*—Enquiry of the Ministry—In short, and as constantly new questions arise, does the Minister not realize or even acknowledge that he is in the process of making a gross and irreparable blunder which his Government will soon learn to regret, in his unplanned and ill-considered move to close this facility against the best advice of his own hired consultants (\$120,000 worth) and the numerous, most directly involved social agencies and individuals. *Tabled April 19th, 1979.*†††
151. *Mr. Lawlor*—Enquiry of the Ministry—Is the Minister not now prepared to reconsider the closing of Lakeshore Psychiatric Hospital on the basis of the numerous observations and comments made at public meetings, by way of correspondence, and by briefs submitted particularly by the Ontario Public Service Employees Union. *Tabled April 19th, 1979.*†††
152. *Mr. Lawlor*—Enquiry of the Ministry—Since I am often awakened at 3.00 a.m. in the morning by someone calling about a problem, and this has been known to happen to many other Members of the Ontario Legislature, does the Minister really feel that such a disturbance of his sleep constitutes adequate grounds for closing the institution, as he intimates by his repeated, soulful reference to this matter. And in particular, does a fire arising out of actions of a patient in the Special Observation Unit so constitute any or adequate grounds. *Tabled April 19th, 1979.*†††
153. *Mr. Lawlor*—Enquiry of the Ministry—Will the Minister not give good consideration to the perfectly reasonable suggestion made by the Member from Lakeshore that a planned, phased approach to this whole problem would be the best solution for all concerned. That is to say, that a new psychiatric hospital having, say, about 150 beds at its completion, be gradually constructed over a period of five to ten years and that at each stage of completion,

the more serious patients be moved from the older quarters into the new thereby retaining the full complement of present in- and out-patient services without disruption and located on such portion of these extensive grounds as would free the balance for such approved community purposes as would meet the needs of the area. *Tabled April 19th, 1979.*†††

164. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education table data from the September board report for each school board where September 1978 enrolment exceeded 2,000 pupils; the total number of full time equivalent teachers who spend the majority of their time as regular classroom teachers and secondly, for each of these school boards, will the Ministry state the ratio of pupils to full time equivalent regular classroom teachers; that is, the number of class room teachers, plus the number of full time equivalent part time teachers. For the 20 largest school boards, will the Ministry also table comparable figures from September 1975. *Tabled April 26th, 1979.*
165. *Mr. Cassidy*—Enquiry of the Ministry—Will the Ministry provide figures, by skilled trade category, for each of the years 1971, 1972, 1973, 1974, 1975, 1976, 1977, 1978 and 1979, giving: (i) the numbers of apprentices who completed their training, (ii) the number of these apprentices who received compulsory certificates, and (iii) the numbers of these apprentices who received voluntary certificates. *Tabled April 26th, 1979.*
166. *Mr. Van Horne*—Enquiry of the Ministry—Will the Minister please indicate which Cabinet ministers and parliamentary assistants travelled outside of Ontario on government business in 1978-79. Please indicate the name of the province or other country visited, the length of the visit, the purpose of the visit, the number of civil servants (if any) accompanying the Cabinet minister or parliamentary assistant, the accommodation cost and travel cost for the Cabinet minister or parliamentary assistant and the accommodation cost and travel cost for the civil servants (if any) who accompanied the Cabinet minister or parliamentary assistant. *Tabled April 26th, 1979.*
167. *Mrs. Campbell*—Enquiry of the Ministry—Will the Minister advise the House as to: 1. the number of charges laid in the last year under section 170 of the Criminal Code against, (a) burlesque entertainers, and (b) clubowners who employ burlesque entertainers; 2. the number of charges laid in the last year under sections 21 and 22 of the Criminal Code against clubowners who have encouraged burlesque entertainers to perform nude contrary to section 170 of the Criminal Code; 3. the number of convictions obtained for each of the above charges; 4. whether direction has been given to the police and Crown attorneys regarding the laying of charges and the prosecution of charges of “nudity” under section 170 of the Criminal Code; 5. the nature of the Attorney General’s consent to proceedings under section 170(3) of the Criminal Code. *Tabled April 27th, 1979.*
168. *Mr. Laughren*—Enquiry of the Ministry—Would the Ministry of Industry and Tourism table the criteria on which it makes its recommendations to the

169. *Mr. Ziembra*—Enquiry of the Ministry—How many wiretaps were installed each and every year for the past five years. How many subjects of a wiretap were so advised, when the wiretap was removed, during this same period. *Tabled April 30th, 1979.*
  170. *Mr. Blundy*—Enquiry of the Ministry—Would the Minister of Community and Social Services list the names and locations of provincially approved day care centers that are currently operating with conditional licences. Would the Minister give reasons in each case for withholding full licence approval. For each of the above, would the Minister also note the number of times the conditional licences have been renewed or extended and for what duration in the history of the center as a licenced facility of the Ministry. *Tabled May 1st, 1979.*
  171. *Mr. Isaacs*—Enquiry of the Minister—Will the Ministry provide figures on the cost of programme administration for OHIP for 1975/76, 1976/77, 1977/78. *Tabled May 1st, 1979.*
  172. *Mr. Foulds*—Enquiry of the Ministry—Will the Minister of Energy now, in view of the petition he has received signed by 1700 residents of the Atikokan area, insist on public hearings before test drilling by A.E.C.L. takes place in the Atikokan area for a possible nuclear waste disposal site. *Tabled May 3rd, 1979.*
  173. *Mr. Cassidy*—Enquiry of the Ministry—Would the Minister of Health table information on the number of medical specialists by county across Ontario. Would the Minister state the total number of specialists practising in each county, and would the Minister indicate how many of these specialists are still in OHIP. Would the Minister further indicate how many anaesthetists, obstetricians and gynecologists, surgeons, psychiatrists, and paediatricians there are in total in each county, and how many are still practising within OHIP. Would the Minister provide this information as of March 31 1979, December 31 1978, September 30 1978, June 30 1978, March 31 1978. 114. *Mr. Bounsall*—Enquiry of the Ministry—As the provisions in the 1979 General Legislative Grants will generate a significantly reduced amount of provincial funding per classroom hour of instruction in Heritage Language Programs, is it the intention of the Ministry that local school boards pay their increased share of the costs by raising property taxes. If this was not the intent of the Ministry, outline other specific courses of action open to school boards. *Tabled April 5th, 1979. Interim Answer April 19th, 1979. 141. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not know or does he not agree that general hospitals cannot provide the specific kind of care or services that psychiatric hospitals can and do. That they attend upon and to different and distinct groups of patients in terms of length of care and the seriousness of the emotional disability. *Tabled April 19th, 1979. †††*
142. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister seriously contend that the Queen Street facility can or will into the future meet the projected increasing demands for hospitalization for the mentally ill as is documented in the McKinsey Report and as set out in the OPSEU brief which points out a deficiency of beds almost before you begin. *Tabled April 19th, 1979. †††*
143. *Mr. Lawlor*—Enquiry of the Ministry—What about the Day Care and particularly the out-patients services at Lakeshore. Does the Ministry seriously pretend that the present needs, much more the future requirements, of these people will begin to be met. *Tabled April 19th, 1979. †††*
144. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister not recognize on the basis of your own statistics that a new hospital will be necessary, no matter what, within a foreseeable time; and at a very much greater capital cost (including the acquirement of land) than as recommended in the Role Study. *Tabled April 19th, 1979. †††*
145. *Mr. Lawlor*—Enquiry of the Ministry—How can the Ministry possibly close the Special Observation Unit which attends to patients under Lieutenant-Governor's warrants. *Tabled April 19th, 1979. †††*

146. *Mr. Lawlor*—Enquiry of the Ministry—What is the Ministry thinking about in removing the Dialysis Unit to Whitby when the patients are located at the other end of the world. *Tabled April 19th, 1979.*†††
147. *Mr. Lawlor*—Enquiry of the Ministry—Since it was found impossible over a two-year or greater period to find a location for the Child and Adolescent Care Unit and that institution will remain on the grounds, what basis is there for a belief that the numerous other units can be accommodated elsewhere in the Lakeshore area. Where. And, in particular, the present valued and necessary Alcoholic program. *Tabled April 19th, 1979.*†††
148. *Mr. Lawlor*—Enquiry of the Ministry—What disposition does the Minister intend to make of that building which was financed and constructed by the volunteers, who have been such a valuable asset to this hospital. *Tabled April 19th, 1979.*†††
149. *Mr. Lawlor*—Enquiry of the Ministry—Cannot some use be found for the workshops and rehabilitation equipment and facilities fairly recently erected on the premises at considerable cost. *Tabled April 19th, 1979.*†††
150. *Mr. Lawlor*—Enquiry of the Ministry—In short, and as constantly new questions arise, does the Minister not realize or even acknowledge that he is in the process of making a gross and irreparable blunder which his Government will soon learn to regret, in his unplanned and ill-considered move to close this facility against the best advice of his own hired consultants (\$120,000 worth) and the numerous, most directly involved social agencies and individuals. *Tabled April 19th, 1979.*†††
151. *Mr. Lawlor*—Enquiry of the Ministry—Is the Minister not now prepared to reconsider the closing of Lakeshore Psychiatric Hospital on the basis of the numerous observations and comments made at public meetings, by way of correspondence, and by briefs submitted particularly by the Ontario Public Service Employees Union. *Tabled April 19th, 1979.*†††
152. *Mr. Lawlor*—Enquiry of the Ministry—Since I am often awakened at 3.00 a.m. in the morning by someone calling about a problem, and this has been known to happen to many other Members of the Ontario Legislature, does the Minister really feel that such a disturbance of his sleep constitutes adequate grounds for closing the institution, as he intimates by his repeated, soulful reference to this matter. And in particular, does a fire arising out of actions of a patient in the Special Observation Unit so constitute any or adequate grounds. *Tabled April 19th, 1979.*†††
153. *Mr. Lawlor*—Enquiry of the Ministry—Will the Minister not give good consideration to the perfectly reasonable suggestion made by the Member from Lakeshore that a planned, phased approach to this whole problem would be the best solution for all concerned. That is to say, that a new psychiatric hospital having, say, about 150 beds at its completion, be gradually constructed over a period of five to ten years and that at each stage of completion,

164. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education table data from the September board report for each school board where September 1978 enrolment exceeded 2,000 pupils; the total number of full time equivalent teachers who spend the majority of their time as regular classroom teachers and secondly, for each of these school boards, will the Ministry state the ratio of pupils to full time equivalent regular classroom teachers; that is, the number of class room teachers, plus the number of full time equivalent part time teachers. 166. *Mr. Van Horne*—Enquiry of the Ministry—Will the Minister please indicate which Cabinet ministers and parliamentary assistants travelled outside of Ontario on government business in 1978-79. Please indicate the name of the province or other country visited, the length of the visit, the purpose of the visit, the number of civil servants (if any) accompanying the Cabinet minister or parliamentary assistant, the accommodation cost and travel cost for the Cabinet minister or parliamentary assistant and the accommodation cost and travel cost for the civil servants (if any) who accompanied the Cabinet minister or parliamentary assistant. *Tabled April 26th, 1979. 169. *Mr. Ziemba*—Enquiry of the Ministry—How many wiretaps were installed each and every year for the past five years. How many subjects of a wiretap were so advised, when the wiretap was removed, during this same period. *Tabled April 30th, 1979.*
  170. *Mr. Blundy*—Enquiry of the Ministry—Would the Minister of Community and Social Services list the names and locations of provincially approved day care centers that are currently operating with conditional licences. Would the Minister give reasons in each case for withholding full licence approval. For each of the above, would the Minister also note the number of times the conditional licences have been renewed or extended and for what duration in the history of the center as a licenced facility of the Ministry. *Tabled May 1st, 1979.*
  171. *Mr. Isaacs*—Enquiry of the Minister—Will the Ministry provide figures on the cost of programme administration for OHIP for 1975/76, 1976/77, 1977/78. *Tabled May 1st, 1979.*
  172. *Mr. Foulds*—Enquiry of the Ministry—Will the Minister of Energy now, in view of the petition he has received signed by 1700 residents of the Atikokan area, insist on public hearings before test drilling by A.E.C.L. takes place in the Atikokan area for a possible nuclear waste disposal site. *Tabled May 3rd, 1979.*
  173. *Mr. Cassidy*—Enquiry of the Ministry—Would the Minister of Health table information on the number of medical specialists by county across Ontario. Would the Minister state the total number of specialists practising in each county, and would the Minister indicate how many of these specialists are still in OHIP. Would the Minister further indicate how many anaesthetists, obstetricians and gynecologists, surgeons, psychiatrists, and paediatricians there are in total in each county, and how many are still practising within OHIP. 139. and 140. *Answered May 1st, 1979.*
141. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not know or does he not agree that general hospitals cannot provide the specific kind of care or services that psychiatric hospitals can and do. That they attend upon and to different and distinct groups of patients in terms of length of care and the seriousness of the emotional disability. *Tabled April 19th, 1979.†††*
142. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister seriously contend that the Queen Street facility can or will into the future meet the projected increasing demands for hospitalization for the mentally ill as is documented in the McKinsey Report and as set out in the OPSEU brief which points out a deficiency of beds almost before you begin. *Tabled April 19th, 1979.†††*
143. *Mr. Lawlor*—Enquiry of the Ministry—What about the Day Care and particularly the out-patients services at Lakeshore. Does the Ministry seriously pretend that the present needs, much more the future requirements, of these people will begin to be met. *Tabled April 19th, 1979.†††*
144. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister not recognize on the basis of your own statistics that a new hospital will be necessary, no matter what, within a foreseeable time; and at a very much greater capital cost (including the acquirement of land) than as recommended in the Role Study. *Tabled April 19th, 1979.†††*
145. *Mr. Lawlor*—Enquiry of the Ministry—How can the Ministry possibly close the Special Observation Unit which attends to patients under Lieutenant-Governor's warrants. *Tabled April 19th, 1979.†††*

---

†††Interim Answer May 3rd, 1979. Approximate date information available June 7th, 1979.

146. *Mr. Lawlor*—Enquiry of the Ministry—What is the Ministry thinking about in removing the Dialysis Unit to Whitby when the patients are located at the other end of the world. *Tabled April 19th, 1979.*†††
147. *Mr. Lawlor*—Enquiry of the Ministry—Since it was found impossible over a two-year or greater period to find a location for the Child and Adolescent Care Unit and that institution will remain on the grounds, what basis is there for a belief that the numerous other units can be accommodated elsewhere in the Lakeshore area. Where. And, in particular, the present valued and necessary Alcoholic program. *Tabled April 19th, 1979.*†††
148. *Mr. Lawlor*—Enquiry of the Ministry—What disposition does the Minister intend to make of that building which was financed and constructed by the volunteers, who have been such a valuable asset to this hospital. *Tabled April 19th, 1979.*†††
149. *Mr. Lawlor*—Enquiry of the Ministry—Cannot some use be found for the workshops and rehabilitation equipment and facilities fairly recently erected on the premises at considerable cost. *Tabled April 19th, 1979.*†††
150. *Mr. Lawlor*—Enquiry of the Ministry—In short, and as constantly new questions arise, does the Minister not realize or even acknowledge that he is in the process of making a gross and irreparable blunder which his Government will soon learn to regret, in his unplanned and ill-considered move to close this facility against the best advice of his own hired consultants (\$120,000 worth) and the numerous, most directly involved social agencies and individuals. *Tabled April 19th, 1979.*†††
151. *Mr. Lawlor*—Enquiry of the Ministry—Is the Minister not now prepared to reconsider the closing of Lakeshore Psychiatric Hospital on the basis of the numerous observations and comments made at public meetings, by way of correspondence, and by briefs submitted particularly by the Ontario Public Service Employees Union. *Tabled April 19th, 1979.*†††
152. *Mr. Lawlor*—Enquiry of the Ministry—Since I am often awakened at 3.00 a.m. in the morning by someone calling about a problem, and this has been known to happen to many other Members of the Ontario Legislature, does the Minister really feel that such a disturbance of his sleep constitutes adequate grounds for closing the institution, as he intimates by his repeated, soulful reference to this matter. And in particular, does a fire arising out of actions of a patient in the Special Observation Unit so constitute any or adequate grounds. *Tabled April 19th, 1979.*†††
153. *Mr. Lawlor*—Enquiry of the Ministry—Will the Minister not give good consideration to the perfectly reasonable suggestion made by the Member from Lakeshore that a planned, phased approach to this whole problem would be the best solution for all concerned. 114. *Mr. Bounsall*—Enquiry of the Ministry—As the provisions in the 1979 General Legislative Grants will generate a significantly reduced amount of provincial funding per classroom hour of instruction in Heritage Language Programs, is it the intention of the Ministry that local school boards pay their increased share of the costs by raising property taxes. If this was not the intent of the Ministry, outline other specific courses of action open to school boards. *Tabled April 5th, 1979. Interim Answer April 19th, 1979. 139. and 140. *Answered May 1st, 1979.*

141. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not know or does he not agree that general hospitals cannot provide the specific kind of care or services that psychiatric hospitals can and do. That they attend upon and to different and distinct groups of patients in terms of length of care and the seriousness of the emotional disability. *Tabled April 19th, 1979.†††*

142. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister seriously contend that the Queen Street facility can or will into the future meet the projected increasing demands for hospitalization for the mentally ill as is documented in the McKinsey Report and as set out in the OPSEU brief which points out a deficiency of beds almost before you begin. *Tabled April 19th, 1979.†††*

143. *Mr. Lawlor*—Enquiry of the Ministry—What about the Day Care and particularly the out-patients services at Lakeshore. Does the Ministry seriously pretend that the present needs, much more the future requirements, of these people will begin to be met. *Tabled April 19th, 1979.†††*

144. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister not recognize on the basis of your own statistics that a new hospital will be necessary, no matter what, within a foreseeable time; and at a very much greater capital cost (including the acquirement of land) than as recommended in the Role Study. *Tabled April 19th, 1979.†††*

145. *Mr. Lawlor*—Enquiry of the Ministry—How can the Ministry possibly close the Special Observation Unit which attends to patients under Lieutenant-Governor's warrants. *Tabled April 19th, 1979.†††*

---

†††Interim Answer May 3rd, 1979. Approximate date information available June 7th, 1979.

146. *Mr. Lawlor*—Enquiry of the Ministry—What is the Ministry thinking about in removing the Dialysis Unit to Whitby when the patients are located at the other end of the world. *Tabled April 19th, 1979.* †††
147. *Mr. Lawlor*—Enquiry of the Ministry—Since it was found impossible over a two-year or greater period to find a location for the Child and Adolescent Care Unit and that institution will remain on the grounds, what basis is there for a belief that the numerous other units can be accommodated elsewhere in the Lakeshore area. Where. And, in particular, the present valued and necessary Alcoholic program. *Tabled April 19th, 1979.* †††
148. *Mr. Lawlor*—Enquiry of the Ministry—What disposition does the Minister intend to make of that building which was financed and constructed by the volunteers, who have been such a valuable asset to this hospital. *Tabled April 19th, 1979.* †††
149. *Mr. Lawlor*—Enquiry of the Ministry—Cannot some use be found for the workshops and rehabilitation equipment and facilities fairly recently erected on the premises at considerable cost. *Tabled April 19th, 1979.* †††
150. *Mr. Lawlor*—Enquiry of the Ministry—In short, and as constantly new questions arise, does the Minister not realize or even acknowledge that he is in the process of making a gross and irreparable blunder which his Government will soon learn to regret, in his unplanned and ill-considered move to close this facility against the best advice of his own hired consultants (\$120,000 worth) and the numerous, most directly involved social agencies and individuals. *Tabled April 19th, 1979.* †††
151. *Mr. Lawlor*—Enquiry of the Ministry—Is the Minister not now prepared to reconsider the closing of Lakeshore Psychiatric Hospital on the basis of the numerous observations and comments made at public meetings, by way of correspondence, and by briefs submitted particularly by the Ontario Public Service Employees Union. *Tabled April 19th, 1979.* †††
152. *Mr. Lawlor*—Enquiry of the Ministry—Since I am often awakened at 3.00 a.m. in the morning by someone calling about a problem, and this has been known to happen to many other Members of the Ontario Legislature, does the Minister really feel that such a disturbance of his sleep constitutes adequate grounds for closing the institution, as he intimates by his repeated, soulful reference to this matter. And in particular, does a fire arising out of actions of a patient in the Special Observation Unit so constitute any or adequate grounds. *Tabled April 19th, 1979.* †††
153. *Mr. Lawlor*—Enquiry of the Ministry—Will the Minister not give good consideration to the perfectly reasonable suggestion made by the Member from Lakeshore that a planned, phased approach to this whole problem would be the best solution for all concerned. That is to say, that a new psychiatric hospital having, say, about 150 beds at its completion, be gradually constructed over a period of five to ten years and that at each stage of completion,

the more serious patients be moved from the older quarters into the new thereby retaining the full complement of present in- and out-patient services without disruption and located on such portion of these extensive grounds as would free the balance for such approved community purposes as would meet the needs of the area. *Tabled April 19th, 1979.*†††

167. and 168. *Answered May 10th, 1979.*

169. *Mr. Ziemba*—Enquiry of the Ministry—How many wiretaps were installed each and every year for the past five years. How many subjects of a wiretap were so advised, when the wiretap was removed, during this same period. *Tabled April 30th, 1979.*

170. *Mr. Blundy*—Enquiry of the Ministry—Would the Minister of Community and Social Services list the names and locations of provincially approved day care centers that are currently operating with conditional licences. Would the Minister give reasons in each case for withholding full licence approval. For each of the above, would the Minister also note the number of times the conditional licences have been renewed or extended and for what duration in the history of the center as a licenced facility of the Ministry. *Tabled May 1st, 1979.*

171. *Mr. Isaacs*—Enquiry of the Minister—Will the Ministry provide figures on the cost of programme administration for OHIP for 1975/76, 1976/77, 1977/78. *Tabled May 1st, 1979.*

172. *Mr. Foulds*—Enquiry of the Ministry—Will the Minister of Energy now, in view of the petition he has received signed by 1700 residents of the Atikokan area, insist on public hearings before test drilling by A.E.C.L. takes place in the Atikokan area for a possible nuclear waste disposal site. *Tabled May 3rd, 1979.*

Would the Minister state the total number of specialists practising in each county, and would the Minister indicate how many of these specialists are still in OHIP. Would the Minister further indicate how many anaesthetists, obstetricians and gynecologists, surgeons, psychiatrists, and paediatricians there are in total in each county, and how many are still practising within OHIP. Would the Minister provide this information as of March 31 1979, December 31 1978, September 30 1978, June 30 1978, March 31 1978. Would the Minister also state the total number of general practitioners in each county and the number still within OHIP as of the same dates as noted above. *Tabled May 3rd, 1979.*
174. *Mr. Wildman*—Enquiry of the Ministry—Will the Minister inform the Legislature of: (1) how many dams are under the jurisdiction of the Ministry of Natural Resources in the Blind River MNR district, giving their locations and ages; (2) the total amounts of funds spent by MNR on maintenance and/or reconstruction of each of these dams in the past ten years; (3) how many feet of water MNR estimates were being held behind Mount Lake, Rawhide Lake and Kindiogami Lake dams during the week of April 22nd to April 28, 1979; (4) what work was done by MNR to lower those dams and the water levels behind them during the month of April, 1979. *Tabled May 8th, 1979.*
175. *Mr. Wildman*—Enquiry of the Ministry—Will the Minister inform the Legislature when in April, 1979, the Ministry of Natural Resources Sault Ste. Marie District officials first became aware of the danger of flooding for Searchmont and of how many hours warning the Ministry gave to residents of that community that water levels in the Goulais River were rising to alarming levels and that a flood might occur. *Tabled May 8th, 1979.*
176. *Mr. Isaacs*—Enquiry of the Ministry—What is the precise status of the request by the Wentworth County Board of Education for capital funds for the replacement of Mount Albion School in Stoney Creek; and what is the Ministry's estimate of the pupil capacity of the present main building and nine portables. *Tabled May 8th, 1979.*

113. *Mr. Reid (Rainy River)*—Enquiry of the Ministry—Would the Ministry provide the titles and subject matter of all public opinion polls for each Government Ministry, the cost of each poll, and the name of the company which conducted the poll from April 1st, 1978 until April 1st, 1979. Would the Ministry table copies of each such opinion poll. *Tabled April 5th, 1979. Interim Answer Tabled April 17th, 1979. Approximate date information available May 24th, 1979.*
114. *Mr. Bounsall*—Enquiry of the Ministry—As the provisions in the 1979 General Legislative Grants will generate a significantly reduced amount of provincial funding per classroom hour of instruction in Heritage Language Programs, is it the intention of the Ministry that local school boards pay their increased share of the costs by raising property taxes. If this was not the intent of the Ministry, outline other specific courses of action open to school boards. *Tabled April 5th, 1979. Interim Answer April 19th, 1979. 139. and 140. *Answered May 1st, 1979.*

141. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not know or does he not agree that general hospitals cannot provide the specific kind of care or services that psychiatric hospitals can and do. That they attend upon and to different and distinct groups of patients in terms of length of care and the seriousness of the emotional disability. *Tabled April 19th, 1979.†††*

142. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister seriously contend that the Queen Street facility can or will into the future meet the projected increasing demands for hospitalization for the mentally ill as is documented in the McKinsey Report and as set out in the OPSEU brief which points out a deficiency of beds almost before you begin. *Tabled April 19th, 1979.†††*

143. *Mr. Lawlor*—Enquiry of the Ministry—What about the Day Care and particularly the out-patients services at Lakeshore. Does the Ministry seriously pretend that the present needs, much more the future requirements, of these people will begin to be met. *Tabled April 19th, 1979.†††*

144. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister not recognize on the basis of your own statistics that a new hospital will be necessary, no matter what, within a foreseeable time; and at a very much greater capital cost (including the acquirement of land) than as recommended in the Role Study. *Tabled April 19th, 1979.†††*

145. *Mr. Lawlor*—Enquiry of the Ministry—How can the Ministry possibly close the Special Observation Unit which attends to patients under Lieutenant-Governor's warrants. *Tabled April 19th, 1979.†††*

---

†††Interim Answer May 3rd, 1979. Approximate date information available June 7th, 1979.

146. *Mr. Lawlor*—Enquiry of the Ministry—What is the Ministry thinking about in removing the Dialysis Unit to Whitby when the patients are located at the other end of the world. *Tabled April 19th, 1979.*†††
147. *Mr. Lawlor*—Enquiry of the Ministry—Since it was found impossible over a two-year or greater period to find a location for the Child and Adolescent Care Unit and that institution will remain on the grounds, what basis is there for a belief that the numerous other units can be accommodated elsewhere in the Lakeshore area. Where. And, in particular, the present valued and necessary Alcoholic program. *Tabled April 19th, 1979.*†††
148. *Mr. Lawlor*—Enquiry of the Ministry—What disposition does the Minister intend to make of that building which was financed and constructed by the volunteers, who have been such a valuable asset to this hospital. *Tabled April 19th, 1979.*†††
149. *Mr. Lawlor*—Enquiry of the Ministry—Cannot some use be found for the workshops and rehabilitation equipment and facilities fairly recently erected on the premises at considerable cost. *Tabled April 19th, 1979.*†††
150. *Mr. Lawlor*—Enquiry of the Ministry—In short, and as constantly new questions arise, does the Minister not realize or even acknowledge that he is in the process of making a gross and irreparable blunder which his Government will soon learn to regret, in his unplanned and ill-considered move to close this facility against the best advice of his own hired consultants (\$120,000 worth) and the numerous, most directly involved social agencies and individuals. *Tabled April 19th, 1979.*†††
151. *Mr. Lawlor*—Enquiry of the Ministry—Is the Minister not now prepared to reconsider the closing of Lakeshore Psychiatric Hospital on the basis of the numerous observations and comments made at public meetings, by way of correspondence, and by briefs submitted particularly by the Ontario Public Service Employees Union. *Tabled April 19th, 1979.*†††
152. *Mr. Lawlor*—Enquiry of the Ministry—Since I am often awakened at 3.00 a.m. in the morning by someone calling about a problem, and this has been known to happen to many other Members of the Ontario Legislature, does the Minister really feel that such a disturbance of his sleep constitutes adequate grounds for closing the institution, as he intimates by his repeated, soulful reference to this matter. And in particular, does a fire arising out of actions of a patient in the Special Observation Unit so constitute any or adequate grounds. *Tabled April 19th, 1979.*†††
153. *Mr. Lawlor*—Enquiry of the Ministry—Will the Minister not give good consideration to the perfectly reasonable suggestion made by the Member from Lakeshore that a planned, phased approach to this whole problem would be the best solution for all concerned. That is to say, that a new psychiatric hospital having, say, about 150 beds at its completion, be gradually constructed over a period of five to ten years and that at each stage of completion,

the more serious patients be moved from the older quarters into the new thereby retaining the full complement of present in- and out-patient services without disruption and located on such portion of these extensive grounds as would free the balance for such approved community purposes as would meet the needs of the area. *Tabled April 19th, 1979.*†††

167. and 168. *Answered May 10th, 1979.*

169. *Mr. Ziemba*—Enquiry of the Ministry—How many wiretaps were installed each and every year for the past five years. How many subjects of a wiretap were so advised, when the wiretap was removed, during this same period. *Tabled April 30th, 1979.*

170. *Mr. Blundy*—Enquiry of the Ministry—Would the Minister of Community and Social Services list the names and locations of provincially approved day care centers that are currently operating with conditional licences. Would the Minister give reasons in each case for withholding full licence approval. For each of the above, would the Minister also note the number of times the conditional licences have been renewed or extended and for what duration in the history of the center as a licenced facility of the Ministry. *Tabled May 1st, 1979.*

171. *Mr. Isaacs*—Enquiry of the Minister—Will the Ministry provide figures on the cost of programme administration for OHIP for 1975/76, 1976/77, 1977/78. *Tabled May 1st, 1979.*

172. *Mr. Foulds*—Enquiry of the Ministry—Will the Minister of Energy now, in view of the petition he has received signed by 1700 residents of the Atikokan area, insist on public hearings before test drilling by A.E.C.L. takes place in the Atikokan area for a possible nuclear waste disposal site. *Tabled May 3rd, 1979.*

Would the Minister state the total number of specialists practising in each county, and would the Minister indicate how many of these specialists are still in OHIP. Would the Minister further indicate how many anaesthetists, obstetricians and gynecologists, surgeons, psychiatrists, and paediatricians there are in total in each county, and how many are still practising within OHIP. Would the Minister also state the total number of general practitioners in each county and the number still within OHIP as of the same dates as noted above. *Tabled May 3rd, 1979.*
174. *Mr. Wildman*—Enquiry of the Ministry—Will the Minister inform the Legislature of: (1) how many dams are under the jurisdiction of the Ministry of Natural Resources in the Blind River MNR district, giving their locations and ages; (2) the total amounts of funds spent by MNR on maintenance and/or reconstruction of each of these dams in the past ten years; (3) how many feet of water MNR estimates were being held behind Mount Lake, Rawhide Lake and Kindiogami Lake dams during the week of April 22nd to April 28, 1979; (4) what work was done by MNR to lower those dams and the water levels behind them during the month of April, 1979. *Tabled May 8th, 1979.*
175. *Mr. Wildman*—Enquiry of the Ministry—Will the Minister inform the Legislature when in April, 1979, the Ministry of Natural Resources Sault Ste. Marie District officials first became aware of the danger of flooding for Searchmont and of how many hours warning the Ministry gave to residents of that community that water levels in the Goulais River were rising to alarming levels and that a flood might occur. *Tabled May 8th, 1979.*
176. *Mr. Isaacs*—Enquiry of the Ministry—What is the precise status of the request by the Wentworth County Board of Education for capital funds for the replacement of Mount Albion School in Stoney Creek; and what is the Ministry's estimate of the pupil capacity of the present main building and nine portables. *Tabled May 8th, 1979.*

114. *Mr. Bounsall*—Enquiry of the Ministry—As the provisions in the 1979 General Legislative Grants will generate a significantly reduced amount of provincial funding per classroom hour of instruction in Heritage Language Programs, is it the intention of the Ministry that local school boards pay their increased share of the costs by raising property taxes. If this was not the intent of the Ministry, outline other specific courses of action open to school boards. *Tabled April 5th, 1979. Interim Answer April 19th, 1979. 141. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not know or does he not agree that general hospitals cannot provide the specific kind of care or services that psychiatric hospitals can and do. That they attend upon and to different and distinct groups of patients in terms of length of care and the seriousness of the emotional disability. *Tabled April 19th, 1979.†††*
142. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister seriously contend that the Queen Street facility can or will into the future meet the projected increasing demands for hospitalization for the mentally ill as is documented in the McKinsey Report and as set out in the OPSEU brief which points out a deficiency of beds almost before you begin. *Tabled April 19th, 1979.†††*
143. *Mr. Lawlor*—Enquiry of the Ministry—What about the Day Care and particularly the out-patients services at Lakeshore. Does the Ministry seriously pretend that the present needs, much more the future requirements, of these people will begin to be met. *Tabled April 19th, 1979.†††*
144. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister not recognize on the basis of your own statistics that a new hospital will be necessary, no matter what, within a foreseeable time; and at a very much greater capital cost (including the acquirement of land) than as recommended in the Role Study. *Tabled April 19th, 1979.†††*
145. *Mr. Lawlor*—Enquiry of the Ministry—How can the Ministry possibly close the Special Observation Unit which attends to patients under Lieutenant-Governor's warrants. *Tabled April 19th, 1979.†††*

---

†††Interim Answer May 3rd, 1979. Approximate date information available June 7th, 1979.

146. *Mr. Lawlor*—Enquiry of the Ministry—What is the Ministry thinking about in removing the Dialysis Unit to Whitby when the patients are located at the other end of the world. *Tabled April 19th, 1979.*†††
147. *Mr. Lawlor*—Enquiry of the Ministry—Since it was found impossible over a two-year or greater period to find a location for the Child and Adolescent Care Unit and that institution will remain on the grounds, what basis is there for a belief that the numerous other units can be accommodated elsewhere in the Lakeshore area. Where. And, in particular, the present valued and necessary Alcoholic program. *Tabled April 19th, 1979.*†††
148. *Mr. Lawlor*—Enquiry of the Ministry—What disposition does the Minister intend to make of that building which was financed and constructed by the volunteers, who have been such a valuable asset to this hospital. *Tabled April 19th, 1979.*†††
149. *Mr. Lawlor*—Enquiry of the Ministry—Cannot some use be found for the workshops and rehabilitation equipment and facilities fairly recently erected on the premises at considerable cost. *Tabled April 19th, 1979.*†††
150. *Mr. Lawlor*—Enquiry of the Ministry—In short, and as constantly new questions arise, does the Minister not realize or even acknowledge that he is in the process of making a gross and irreparable blunder which his Government will soon learn to regret, in his unplanned and ill-considered move to close this facility against the best advice of his own hired consultants (\$120,000 worth) and the numerous, most directly involved social agencies and individuals. *Tabled April 19th, 1979.*†††
151. *Mr. Lawlor*—Enquiry of the Ministry—Is the Minister not now prepared to reconsider the closing of Lakeshore Psychiatric Hospital on the basis of the numerous observations and comments made at public meetings, by way of correspondence, and by briefs submitted particularly by the Ontario Public Service Employees Union. *Tabled April 19th, 1979.*†††
152. *Mr. Lawlor*—Enquiry of the Ministry—Since I am often awakened at 3.00 a.m. in the morning by someone calling about a problem, and this has been known to happen to many other Members of the Ontario Legislature, does the Minister really feel that such a disturbance of his sleep constitutes adequate grounds for closing the institution, as he intimates by his repeated, soulful reference to this matter. And in particular, does a fire arising out of actions of a patient in the Special Observation Unit so constitute any or adequate grounds. *Tabled April 19th, 1979.*†††
153. *Mr. Lawlor*—Enquiry of the Ministry—Will the Minister not give good consideration to the perfectly reasonable suggestion made by the Member from Lakeshore that a planned, phased approach to this whole problem would be the best solution for all concerned. That is to say, that a new psychiatric hospital having, say, about 150 beds at its completion, be gradually constructed over a period of five to ten years and that at each stage of completion,

172. *Mr. Foulds*—Enquiry of the Ministry—Will the Minister of Energy now, in view of the petition he has received signed by 1700 residents of the Atikokan area, insist on public hearings before test drilling by A.E.C.L. takes place in the Atikokan area for a possible nuclear waste disposal site. *Tabled May 3rd, 1979.*

173. *Mr. Cassidy*—Enquiry of the Ministry—Would the Minister of Health table information on the number of medical specialists by county across Ontario. 138. *Answered May 3rd, 1979.*
139. and 140. *Answered May 1st, 1979.*
141. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not know or does he not agree that general hospitals cannot provide the specific kind of care or services that psychiatric hospitals can and do. That they attend upon and to different and distinct groups of patients in terms of length of care and the seriousness of the emotional disability. *Tabled April 19th, 1979.†††*
142. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister seriously contend that the Queen Street facility can or will into the future meet the projected increasing demands for hospitalization for the mentally ill as is documented in the McKinsey Report and as set out in the OPSEU brief which points out a deficiency of beds almost before you begin. *Tabled April 19th, 1979.†††*
143. *Mr. Lawlor*—Enquiry of the Ministry—What about the Day Care and particularly the out-patients services at Lakeshore. Does the Ministry seriously pretend that the present needs, much more the future requirements, of these people will begin to be met. *Tabled April 19th, 1979.†††*
144. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister not recognize on the basis of your own statistics that a new hospital will be necessary, no matter what, within a foreseeable time; and at a very much greater capital cost (including the acquirement of land) than as recommended in the Role Study. *Tabled April 19th, 1979.†††*
145. *Mr. Lawlor*—Enquiry of the Ministry—How can the Ministry possibly close the Special Observation Unit which attends to patients under Lieutenant-Governor's warrants. *Tabled April 19th, 1979.†††*
146. *Mr. Lawlor*—Enquiry of the Ministry—What is the Ministry thinking about in removing the Dialysis Unit to Whitby when the patients are located at the other end of the world. *Tabled April 19th, 1979.†††*
147. *Mr. Lawlor*—Enquiry of the Ministry—Since it was found impossible over a two-year or greater period to find a location for the Child and Adolescent Care Unit and that institution will remain on the grounds, what basis is there

†††Interim Answer May 3rd, 1979. Approximate date information available June 7th, 1979.

for a belief that the numerous other units can be accommodated elsewhere in the Lakeshore area. Where. And, in particular, the present valued and necessary Alcoholic program. *Tabled April 19th, 1979.*†††

148. *Mr. Lawlor*—Enquiry of the Ministry—What disposition does the Minister intend to make of that building which was financed and constructed by the volunteers, who have been such a valuable asset to this hospital. *Tabled April 19th, 1979.*†††
149. *Mr. Lawlor*—Enquiry of the Ministry—Cannot some use be found for the workshops and rehabilitation equipment and facilities fairly recently erected on the premises at considerable cost. *Tabled April 19th, 1979.*†††
150. *Mr. Lawlor*—Enquiry of the Ministry—In short, and as constantly new questions arise, does the Minister not realize or even acknowledge that he is in the process of making a gross and irreparable blunder which his Government will soon learn to regret, in his unplanned and ill-considered move to close this facility against the best advice of his own hired consultants (\$120,000 worth) and the numerous, most directly involved social agencies and individuals. *Tabled April 19th, 1979.*†††
151. *Mr. Lawlor*—Enquiry of the Ministry—Is the Minister not now prepared to reconsider the closing of Lakeshore Psychiatric Hospital on the basis of the numerous observations and comments made at public meetings, by way of correspondence, and by briefs submitted particularly by the Ontario Public Service Employees Union. *Tabled April 19th, 1979.*†††
152. *Mr. Lawlor*—Enquiry of the Ministry—Since I am often awakened at 3.00 a.m. in the morning by someone calling about a problem, and this has been known to happen to many other Members of the Ontario Legislature, does the Minister really feel that such a disturbance of his sleep constitutes adequate grounds for closing the institution, as he intimates by his repeated, soulful reference to this matter. And in particular, does a fire arising out of actions of a patient in the Special Observation Unit so constitute any or adequate grounds. *Tabled April 19th, 1979.*†††
153. *Mr. Lawlor*—Enquiry of the Ministry—Will the Minister not give good consideration to the perfectly reasonable suggestion made by the Member from Lakeshore that a planned, phased approach to this whole problem would be the best solution for all concerned. That is to say, that a new psychiatric hospital having, say, about 150 beds at its completion, be gradually constructed over a period of five to ten years and that at each stage of completion, the more serious patients be moved from the older quarters into the new thereby retaining the full complement of present in- and out-patient services without disruption and located on such portion of these extensive grounds as would free the balance for such approved community purposes as would meet the needs of the area. *Tabled April 19th, 1979.*†††

154 to 163 inclusive. *Answered May 3rd, 1979.*

167. and 168. *Answered May 10th, 1979.*

169. and 170. *Answered May 14th, 1979.*

171. *Mr. Isaacs*—Enquiry of the Minister—Will the Ministry provide figures on the cost of programme administration for OHIP for 1975/76, 1976/77, 1977/78. *Tabled May 1st, 1979.*

172. *Mr. Foulds*—Enquiry of the Ministry—Will the Minister of Energy now, in view of the petition he has received signed by 1700 residents of the Atikokan area, insist on public hearings before test drilling by A.E.C.L. takes place in the Atikokan area for a possible nuclear waste disposal site. *Tabled May 3rd, 1979.*

173. *Mr. Cassidy*—Enquiry of the Ministry—Would the Minister of Health table information on the number of medical specialists by county across Ontario. Would the Minister state the total number of specialists practising in each county, and would the Minister indicate how many of these specialists are still in OHIP. Would the Minister further indicate how many anaesthetists, obstetricians and gynecologists, surgeons, psychiatrists, and paediatricians there are in total in each county, and how many are still practising within OHIP. Would the Minister provide this information as of March 31 1979, December 31 1978, September 30 1978, June 30 1978, March 31 1978. Would the Minister also state the total number of general practitioners in each county and the number still within OHIP as of the same dates as noted above. *Tabled May 3rd, 1979.*

174. *Mr. Wildman*—Enquiry of the Ministry—Will the Minister inform the Legislature of: (1) how many dams are under the jurisdiction of the Ministry of Natural Resources in the Blind River MNR district, giving their locations and ages; (2) the total amounts of funds spent by MNR on maintenance and/or reconstruction of each of these dams in the past ten years; (3) how many feet of water MNR estimates were being held behind Mount Lake, Rawhide Lake and Kindiogami Lake dams during the week of April 22nd to April 28, 1979; (4) what work was done by MNR to lower those dams and the water levels behind them during the month of April, 1979. *Tabled May 8th, 1979.*

175. *Mr. Wildman*—Enquiry of the Ministry—Will the Minister inform the Legislature when in April, 1979, the Ministry of Natural Resources Sault Ste. Marie

District officials first became aware of the danger of flooding for Searchmont and of how many hours warning the Ministry gave to residents of that community that water levels in the Goulais River were rising to alarming levels and that a flood might occur. *Tabled May 8th, 1979.*

176. *Mr. Isaacs*—Enquiry of the Ministry—What is the precise status of the request by the Wentworth County Board of Education for capital funds for the replacement of Mount Albion School in Stoney Creek; and what is the Ministry's estimate of the pupil capacity of the present main building and nine portables. *Tabled May 8th, 1979.*
177. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry table figures on the percent stocking levels by regeneration method and working group within Algonquin Park. *Tabled May 10th, 1979.*
178. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry table in the House figures on the number of acres of cutover and acres regenerated within Algonquin Park for the last 5 years. Will the Ministry detail the cutover and regeneration figures by the sub-categories contained in MNR annual reports. Will the Ministry also detail the above figures by working group. *Tabled May 10th, 1979.*
179. *Withdrawn.*
180. *Mr. Cassidy*—Enquiry of the Ministry—Would the Minister please table an opinion on the legality of allowing private insurance companies to cover the insured services of chronic care, including the current \$9.80 a day copayment fee. Would the Minister pay particular regard to Section 19 of the Health Insurance Act (1972) when obtaining this legal opinion. *Tabled May 11th, 1979.*
181. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry table for each School Board in Ontario for 1977, 1978, 1979, using interim and estimate figures where necessary: 1. the average daily enrollment; 2. per pupil grant ceiling; 3. per pupil expenditures; 4. total expenditure; 5. total local taxation; 6. total provincial assistance; 7. rate of grant on recognized ordinary expenditures; 8. provincial contribution as a percentage of the total local school board expenditures; 9. rate of grant for French language instruction; 10. decline or increase in number of students from previous year; 11. decline or increase in number of full time equivalent teachers from previous year; 12. number of self-contained special education classes; 13. number of full time equivalent teachers of special education classes; 14. number of heritage language classes; 15. number of students studying heritage languages; 16. number of pupils whose first language is neither English nor French; 17. number of self-contained classes for pupils whose first language is neither English nor French; 18. number of full-time equivalent teachers of classes for pupils whose first language is neither English nor French. *Tabled May 15th, 1979.*
182. *Mr. Stong*—Enquiry of the Ministry—Will the Minister act upon the request of the Community Association for Unionville Secondary Education (CAUSE) to provide a new high school in Unionville. Will the Minister review the development applications which provide for approximately 3,000 new homes in Unionville, 2,000 in Risebrough and 3,300 in Markham, the result of which

will not only overcrowd both Markham District High School and Thornlea High School, but would call for the immediate construction of a secondary school in the Unionville area. Will the Minister immediately undertake to satisfy the need of the secondary school students in Unionville to be educated in their own community. *Tabled May 16th, 1979.*

183. *Mr. Stong*—Enquiry of the Ministry—Will the Minister act upon the request of the Risebrough Community Association in the community of Markham, Ontario, to provide new and adequate school facilities to meet the growing educational needs in that area. Will the Minister inform herself of the situation which now exists, in that projected figures indicate that by September 1, 1979, 1000 units of the 1130 units being built will be occupied producing approximately 480 students seeking educational facilities. Will the Minister review the present policy which requires kindergarten children from this area to be bused to a school in Richmond Hill and which also sees children in grades one to five being bused to a small school where gymnastic and library facilities are non-existent. Will the Minister immediately review and provide adequate facilities in this community to meet the educational demands which will be in existence by September 1, 1979. *Tabled May 16th, 1979.*
184. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education cause an investigation to be made into the overcrowding conditions which exist at the German Mills Public School in Markham. Will the Minister explain the policy of the Ministry which appears to prefer the busing of pupils to distant empty classrooms in the Regional Municipality of York rather than construct new facilities or add on to existing facilities where circumstances warrant. Will the Minister review the policy of the Ministry which requires that prior to the building of a school, there exist sufficient number of children in the area to equal 80% of the projected capacity of the said school and apply that formula to the building of a school on the Flowerdale site in the Town of Markham, in order to accommodate the excess enrolment in the German Mills Public School which is equal to 123% of that school's designed capacity. Will the Minister review the immediate need for a new school on the Flowerdale site in the light of projected figures over the next five years which indicate that school-age children in the area will increase to approximately 900 and which figure does not take into account the fact that there is presently before the Ontario Municipal Board an application by a developer to build in the area an additional 190 townhouses. If this project is allowed to proceed the projected figures indicate that school enrolment will not decline until 1995. Will the Minister initiate a policy which would provide architecturally acceptable but movable school buildings to accommodate the shifting need of the school population. How does the Minister reconcile the Ministry's policy of fiscal restraint which includes busing and which dictates against the welfare of children, with the more important need of providing adequate facilities so that the educational and social needs of children may be properly met in their own community environment. Will the Minister therefore satisfy the needs of the children in the German Mills area of Markham and build a second school on the Flowerdale site. *Tabled May 16th, 1979.*

141. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not know or does he not agree that general hospitals cannot provide the specific kind of care or services that psychiatric hospitals can and do. That they attend upon and to different and distinct groups of patients in terms of length of care and the seriousness of the emotional disability. *Tabled April 19th, 1979.†††*
142. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister seriously contend that the Queen Street facility can or will into the future meet the projected increasing demands for hospitalization for the mentally ill as is documented in the McKinsey Report and as set out in the OPSEU brief which points out a deficiency of beds almost before you begin. *Tabled April 19th, 1979.†††*
143. *Mr. Lawlor*—Enquiry of the Ministry—What about the Day Care and particularly the out-patients services at Lakeshore. Does the Ministry seriously pretend that the present needs, much more the future requirements, of these people will begin to be met. *Tabled April 19th, 1979.†††*

---

†††Interim Answer May 3rd, 1979. Approximate date information available June 7th, 1979.

144. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister not recognize on the basis of your own statistics that a new hospital will be necessary, no matter what, within a foreseeable time; and at a very much greater capital cost (including the acquirement of land) than as recommended in the Role Study. *Tabled April 19th, 1979.*†††
145. *Mr. Lawlor*—Enquiry of the Ministry—How can the Ministry possibly close the Special Observation Unit which attends to patients under Lieutenant-Governor's warrants. *Tabled April 19th, 1979.*†††
146. *Mr. Lawlor*—Enquiry of the Ministry—What is the Ministry thinking about in removing the Dialysis Unit to Whitby when the patients are located at the other end of the world. *Tabled April 19th, 1979.*†††
147. *Mr. Lawlor*—Enquiry of the Ministry—Since it was found impossible over a two-year or greater period to find a location for the Child and Adolescent Care Unit and that institution will remain on the grounds, what basis is there for a belief that the numerous other units can be accommodated elsewhere in the Lakeshore area. Where. And, in particular, the present valued and necessary Alcoholic program. *Tabled April 19th, 1979.*†††
148. *Mr. Lawlor*—Enquiry of the Ministry—What disposition does the Minister intend to make of that building which was financed and constructed by the volunteers, who have been such a valuable asset to this hospital. *Tabled April 19th, 1979.*†††
149. *Mr. Lawlor*—Enquiry of the Ministry—Cannot some use be found for the workshops and rehabilitation equipment and facilities fairly recently erected on the premises at considerable cost. *Tabled April 19th, 1979.*†††
150. *Mr. Lawlor*—Enquiry of the Ministry—In short, and as constantly new questions arise, does the Minister not realize or even acknowledge that he is in the process of making a gross and irreparable blunder which his Government will soon learn to regret, in his unplanned and ill-considered move to close this facility against the best advice of his own hired consultants (\$120,000 worth) and the numerous, most directly involved social agencies and individuals. *Tabled April 19th, 1979.*†††
151. *Mr. Lawlor*—Enquiry of the Ministry—Is the Minister not now prepared to reconsider the closing of Lakeshore Psychiatric Hospital on the basis of the numerous observations and comments made at public meetings, by way of correspondence, and by briefs submitted particularly by the Ontario Public Service Employees Union. *Tabled April 19th, 1979.*†††
152. *Mr. Lawlor*—Enquiry of the Ministry—Since I am often awakened at 3.00 a.m. in the morning by someone calling about a problem, and this has been known to happen to many other Members of the Ontario Legislature, does the Minister really feel that such a disturbance of his sleep constitutes adequate grounds for closing the institution, as he intimates by his repeated, soulful reference to this

matter. And in particular, does a fire arising out of actions of a patient in the Special Observation Unit so constitute any or adequate grounds. *Tabled April 19th, 1979.*†††

153. *Mr. Lawlor*—Enquiry of the Ministry—Will the Minister not give good consideration to the perfectly reasonable suggestion made by the Member from Lakeshore that a planned, phased approach to this whole problem would be the best solution for all concerned. That is to say, that a new psychiatric hospital having, say, about 150 beds at its completion, be gradually constructed over a period of five to ten years and that at each stage of completion, the more serious patients be moved from the older quarters into the new thereby retaining the full complement of present in- and out-patient services without disruption and located on such portion of these extensive grounds as would free the balance for such approved community purposes as would meet the needs of the area. *Tabled April 19th, 1979.*†††

164. and 165. *Answered May 10th, 1979.*
166. *Mr. Van Horne*—Enquiry of the Ministry—Will the Minister please indicate which Cabinet ministers and parliamentary assistants travelled outside of Ontario on government business in 1978-79. Please indicate the name of the province or other country visited, the length of the visit, the purpose of the visit, the number of civil servants (if any) accompanying the Cabinet minister or parliamentary assistant, the accommodation cost and travel cost for the Cabinet minister or parliamentary assistant and the accommodation cost and travel cost for the civil servants (if any) who accompanied the Cabinet minister or parliamentary assistant. *Tabled April 26th, 1979. 173. *Mr. Cassidy*—Enquiry of the Ministry—Would the Minister of Health table information on the number of medical specialists by county across Ontario. Would the Minister state the total number of specialists practising in each county, and would the Minister indicate how many of these specialists are still in OHIP. Would the Minister further indicate how many anaesthetists, obstetricians and gynecologists, surgeons, psychiatrists, and paediatricians there are in total in each county, and how many are still practising within OHIP. Would the Minister provide this information as of March 31 1979, December 31 1978, September 30 1978, June 30 1978, March 31 1978. Would the Minister also state the total number of general practitioners in each county and the number still within OHIP as of the same dates as noted above. *Tabled May 3rd, 1979.*

174. *Mr. Wildman*—Enquiry of the Ministry—Will the Minister inform the Legislature of: (1) how many dams are under the jurisdiction of the Ministry of Natural Resources in the Blind River MNR district, giving their locations and ages; (2) the total amounts of funds spent by MNR on maintenance and/or reconstruction of each of these dams in the past ten years; (3) how many feet of water MNR estimates were being held behind Mount Lake, Rawhide Lake and Kindiogami Lake dams during the week of April 22nd to April 28, 1979; (4) what work was done by MNR to lower those dams and the water levels behind them during the month of April, 1979. *Tabled May 8th, 1979.*
175. *Mr. Wildman*—Enquiry of the Ministry—Will the Minister inform the Legislature when in April, 1979, the Ministry of Natural Resources Sault Ste. Marie District officials first became aware of the danger of flooding for Searchmont and of how many hours warning the Ministry gave to residents of that community that water levels in the Goulais River were rising to alarming levels and that a flood might occur. *Tabled May 8th, 1979.*
176. *Mr. Isaacs*—Enquiry of the Ministry—What is the precise status of the request by the Wentworth County Board of Education for capital funds for the replacement of Mount Albion School in Stoney Creek; and what is the Ministry's estimate of the pupil capacity of the present main building and nine portables. *Tabled May 8th, 1979.*
177. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry table figures on the percent stocking levels by regeneration method and working group within Algonquin Park. *Tabled May 10th, 1979.*
178. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry table in the House figures on the number of acres of cutover and acres regenerated within Algonquin Park for the last 5 years. Will the Ministry detail the cutover and regeneration figures by the sub-categories contained in MNR annual reports. Will the Ministry also detail the above figures by working group. *Tabled May 10th, 1979.*
179. *Withdrawn.*
180. *Mr. Cassidy*—Enquiry of the Ministry—Would the Minister please table an opinion on the legality of allowing private insurance companies to cover the insured services of chronic care, including the current \$9.80 a day copayment fee. Would the Minister pay particular regard to Section 19 of the Health Insurance Act (1972) when obtaining this legal opinion. *Tabled May 11th, 1979.*
181. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry table for each School Board in Ontario for 1977, 1978, 1979, using interim and estimate figures where necessary: 1. the average daily enrollment; 2. per pupil grant ceiling; 3. per pupil expenditures; 4. total expenditure; 5. total local taxation; 6. total provincial assistance; 7. rate of grant on recognized ordinary expenditures; 8. provincial contribution as a percentage of the total local school board expenditures; 9. rate of grant for French language instruction; 10. decline or increase in number of students from previous year; 11. decline or increase in number of full time equivalent teachers from previous year; 12. number of self-contained special education classes; 13. number of full time equivalent

teachers of special education classes; 14. number of heritage language classes; 15. number of students studying heritage languages; 16. number of pupils whose first language is neither English nor French; 17. number of self-contained classes for pupils whose first language is neither English nor French; 18. number of full-time equivalent teachers of classes for pupils whose first language is neither English nor French. *Tabled May 15th, 1979.*

182. *Mr. Stong*—Enquiry of the Ministry—Will the Minister act upon the request of the Community Association for Unionville Secondary Education (CAUSE) to provide a new high school in Unionville. Will the Minister review the development applications which provide for approximately 3,000 new homes in Unionville, 2,000 in Risebrough and 3,300 in Markham, the result of which will not only overcrowd both Markham District High School and Thornlea High School, but would call for the immediate construction of a secondary school in the Unionville area. Will the Minister immediately undertake to satisfy the need of the secondary school students in Unionville to be educated in their own community. *Tabled May 16th, 1979.*

183. *Mr. Stong*—Enquiry of the Ministry—Will the Minister act upon the request of the Risebrough Community Association in the community of Markham, Ontario, to provide new and adequate school facilities to meet the growing educational needs in that area. Will the Minister inform herself of the situation which now exists, in that projected figures indicate that by September 1, 1979, 1000 units of the 1130 units being built will be occupied producing approximately 480 students seeking educational facilities. Will the Minister review the present policy which requires kindergarten children from this area to be bused to a school in Richmond Hill and which also sees children in grades one to five being bused to a small school where gymnastic and library facilities are non-existent. Will the Minister immediately review and provide adequate facilities in this community to meet the educational demands which will be in existence by September 1, 1979. *Tabled May 16th, 1979.*

184. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education cause an investigation to be made into the overcrowding conditions which exist at the German Mills Public School in Markham. Will the Minister explain the policy of the Ministry which appears to prefer the busing of pupils to distant empty classrooms in the Regional Municipality of York rather than construct new facilities or add on to existing facilities where circumstances warrant. Will the Minister review the policy of the Ministry which requires that prior to the building of a school, there exist sufficient number of children in the area to equal 80% of the projected capacity of the said school and apply that formula to the building of a school on the Flowerdale site in the Town of Markham, in order to accommodate the excess enrolment in the German Mills Public School which is equal to 123% of that school's designed capacity. Will the Minister review the immediate need for a new school on the Flowerdale site in the light of projected figures over the next five years which indicate that school-age children in the area will increase to approximately 900 and which figure does not take into account the fact that there is presently before the Ontario Municipal Board an application by a developer to build in the area an additional 190 townhouses. If this project is allowed to proceed the projected figures indicate that school enrolment will not decline until 1995. Will the Minister initiate a policy which would provide architecturally acceptable but movable school buildings to accommodate the shifting need of the school

population. How does the Minister reconcile the Ministry's policy of fiscal restraint which includes busing and which dictates against the welfare of children, with the more important need of providing adequate facilities so that the educational and social needs of children may be properly met in their own community environment. Will the Minister therefore satisfy the needs of the children in the German Mills area of Markham and build a second school on the Flowerdale site. *Tabled May 16th, 1979.*

185. *Mr. Isaacs*—Enquiry of the Ministry—Would the Premier table in the House the advice which he received from the Environmental Assessment Steering Committee in early April concerning the proposal that the hearings in Glanbrook be reconvened under the 1975 Environmental Assessment Act, and would the Premier explain why the provisions of the 1975 Act are not being applied to major municipal government projects such as landfill sites. *Tabled May 17th, 1979.*
186. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry indicate how many new special education teachers it will require in order to implement the special education program it announced on December 15, 1978 and for which it did not provide special funding in the 1979 general legislative grants. Will the Ministry indicate what efforts it has made and will be making in order to increase the number of special education teachers available and finance the expansion of special education in Ontario. Will the Ministry also indicate its estimate of the number of children requiring special education, but not receiving it. *Tabled May 17th, 1979.*
187. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry calculate the cash value for each school board in Ontario of the language of instruction (ESL) weighting factor in 1975, 1978 and 1979 estimated. Will the Ministry also calculate the per language of instruction pupil value of this weighting factor for each school board. *Tabled May 17th, 1979.*
188. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry calculate the cash value for each school board in Ontario of the compensatory education weighting factor in 1975, 1978 and 1979 estimated. Will the Ministry also calculate the per compensatory education pupil value of this weighting factor for each school board. *Tabled May 17th, 1979.*
189. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry calculate the cash value for each school board in Ontario of the occupations weighting factor in 1975, 1978 and 1979 estimated. Will the Ministry also calculate the per occupations pupil value of this weighting factor for each school board. *Tabled May 17th, 1979.*
190. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry calculate the cash value for each school board in Ontario of the special education weighting factor in 1975, 1978 and 1979 estimated. Will the Ministry also calculate the per special education pupil value of this weighting factor for each school board. *Tabled May 17th, 1979.*
191. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry expand on its reply to written question No. 116, subsection 4 (d). Specifically, what percentage of

Grade IX students reach and complete Grade XIII in each Ontario School Board. What percentage of Grade 1 students reach and complete grade XIII in this province. In each case please provide a male/female breakdown. *Tabled May 17th, 1979.*

192. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry indicate what efforts beyond the funding of the Commission on Declining Enrollment it has undertaken to assist local school boards to deal with declining enrollment. Will the Ministry indicate the cash value to local school boards of these efforts. Secondly, in view of the recent reports that the Premier has stated that the Province has not lessened its commitment to education even though the proportion of the provincial budget allocated to education has declined from fiscal 1975/76 to fiscal 1979/80, would it be accurate to calculate the Province's savings from declining enrollment by calculating what the Province would have contributed had it maintained funding at the level existing in fiscal 1975/76 and subtracting the present level. If this is not the case, will the Ministry indicate how much money the Ministry has saved as a result of declining enrollment and what benefits accrue to local school boards as a result of declining enrollment. *Tabled May 17th, 1979.*

141. *Mr. Lawlor—Enquiry of the Ministry—Does the Minister of Health not know or does he not agree that general hospitals cannot provide the specific kind of care or services that psychiatric hospitals can and do. That they attend upon and to different and distinct groups of patients in terms of length of care and the seriousness of the emotional disability. Tabled April 19th, 1979.†††*
142. *Mr. Lawlor—Enquiry of the Ministry—Does the Minister seriously contend that the Queen Street facility can or will into the future meet the projected increasing demands for hospitalization for the mentally ill as is documented in the McKinsey Report and as set out in the OPSEU brief which points out a deficiency of beds almost before you begin. Tabled April 19th, 1979.†††*
143. *Mr. Lawlor—Enquiry of the Ministry—What about the Day Care and particularly the out-patients services at Lakeshore. Does the Ministry seriously pretend that the present needs, much more the future requirements, of these people will begin to be met. Tabled April 19th, 1979.†††*
144. *Mr. Lawlor—Enquiry of the Ministry—Does the Minister not recognize on the basis of your own statistics that a new hospital will be necessary, no matter what, within a foreseeable time; and at a very much greater capital cost (including the acquirement of land) than as recommended in the Role Study. Tabled April 19th, 1979.†††*
145. *Mr. Lawlor—Enquiry of the Ministry—How can the Ministry possibly close the Special Observation Unit which attends to patients under Lieutenant-Governor's warrants. Tabled April 19th, 1979.†††*

146. *Mr. Lawlor*—Enquiry of the Ministry—What is the Ministry thinking about in removing the Dialysis Unit to Whitby when the patients are located at the other end of the world. *Tabled April 19th, 1979.*†††
147. *Mr. Lawlor*—Enquiry of the Ministry—Since it was found impossible over a two-year or greater period to find a location for the Child and Adolescent Care Unit and that institution will remain on the grounds, what basis is there for a belief that the numerous other units can be accommodated elsewhere in the Lakeshore area. Where. And, in particular, the present valued and necessary Alcoholic program. *Tabled April 19th, 1979.*†††
148. *Mr. Lawlor*—Enquiry of the Ministry—What disposition does the Minister intend to make of that building which was financed and constructed by the volunteers, who have been such a valuable asset to this hospital. *Tabled April 19th, 1979.*†††
149. *Mr. Lawlor*—Enquiry of the Ministry—Cannot some use be found for the workshops and rehabilitation equipment and facilities fairly recently erected on the premises at considerable cost. *Tabled April 19th, 1979.*†††
150. *Mr. Lawlor*—Enquiry of the Ministry—In short, and as constantly new questions arise, does the Minister not realize or even acknowledge that he is in the process of making a gross and irreparable blunder which his Government will soon learn to regret, in his unplanned and ill-considered move to close this facility against the best advice of his own hired consultants (\$120,000 worth) and the numerous, most directly involved social agencies and individuals. *Tabled April 19th, 1979.*†††
151. *Mr. Lawlor*—Enquiry of the Ministry—Is the Minister not now prepared to reconsider the closing of Lakeshore Psychiatric Hospital on the basis of the numerous observations and comments made at public meetings, by way of correspondence, and by briefs submitted particularly by the Ontario Public Service Employees Union. *Tabled April 19th, 1979.*†††
152. *Mr. Lawlor*—Enquiry of the Ministry—Since I am often awakened at 3.00 a.m. in the morning by someone calling about a problem, and this has been known to happen to many other Members of the Ontario Legislature, does the Minister really feel that such a disturbance of his sleep constitutes adequate grounds for closing the institution, as he intimates by his repeated, soulful reference to this matter. And in particular, does a fire arising out of actions of a patient in the Special Observation Unit so constitute any or adequate grounds. *Tabled April 19th, 1979.*†††
153. *Mr. Lawlor*—Enquiry of the Ministry—Will the Minister not give good consideration to the perfectly reasonable suggestion made by the Member from Lakeshore that a planned, phased approach to this whole problem would be the best solution for all concerned. That is to say, that a new psychiatric hospital having, say, about 150 beds at its completion, be gradually constructed over a period of five to ten years and that at each stage of completion,

the more serious patients be moved from the older quarters into the new thereby retaining the full complement of present in- and out-patient services without disruption and located on such portion of these extensive grounds as would free the balance for such approved community purposes as would meet the needs of the area. *Tabled April 19th, 1979.†††*

173. *Mr. Cassidy*—Enquiry of the Ministry—Would the Minister of Health table information on the number of medical specialists by county across Ontario. Would the Minister state the total number of specialists practising in each county, and would the Minister indicate how many of these specialists are still in OHIP. Would the Minister further indicate how many anaesthetists, obstetricians and gynecologists, surgeons, psychiatrists, and paediatricians there are in total in each county, and how many are still practising within OHIP. Would the Minister provide this information as of March 31 1979, December 31 1978, September 30 1978, June 30 1978, March 31 1978. Would the Minister also state the total number of general practitioners in each county and the number still within OHIP as of the same dates as noted above. *Tabled May 3rd, 1979. 174. *Mr. Wildman*—Enquiry of the Ministry—Will the Minister inform the Legislature of: (1) how many dams are under the jurisdiction of the Ministry of Natural Resources in the Blind River MNR district, giving their locations and ages; (2) the total amounts of funds spent by MNR on maintenance and/or reconstruction of each of these dams in the past ten years; (3) how many feet of water MNR estimates were being held behind Mount Lake, Rawhide Lake and Kindiogami Lake dams during the week of April 22nd to April 28, 1979;

- (4) what work was done by MNR to lower those dams and the water levels behind them during the month of April, 1979. *Tabled May 8th, 1979.*
175. *Mr. Wildman*—Enquiry of the Ministry—Will the Minister inform the Legislature when in April, 1979, the Ministry of Natural Resources Sault Ste. Marie District officials first became aware of the danger of flooding for Searchmont and of how many hours warning the Ministry gave to residents of that community that water levels in the Goulais River were rising to alarming levels and that a flood might occur. *Tabled May 8th, 1979.*
176. *Mr. Isaacs*—Enquiry of the Ministry—What is the precise status of the request by the Wentworth County Board of Education for capital funds for the replacement of Mount Albion School in Stoney Creek; and what is the Ministry's estimate of the pupil capacity of the present main building and nine portables. *Tabled May 8th, 1979.*
177. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry table figures on the percent stocking levels by regeneration method and working group within Algonquin Park. *Tabled May 10th, 1979.*
178. *Mr. Foulds*—Enquiry of the Ministry—Will the Ministry table in the House figures on the number of acres of cutover and acres regenerated within Algonquin Park for the last 5 years. Will the Ministry detail the cutover and regeneration figures by the sub-categories contained in MNR annual reports. Will the Ministry also detail the above figures by working group. *Tabled May 10th, 1979.*
179. *Withdrawn.*
180. *Mr. Cassidy*—Enquiry of the Ministry—Would the Minister please table an opinion on the legality of allowing private insurance companies to cover the insured services of chronic care, including the current \$9.80 a day copayment fee. Would the Minister pay particular regard to Section 19 of the Health Insurance Act (1972) when obtaining this legal opinion. *Tabled May 11th, 1979.*
181. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry table for each School Board in Ontario for 1977, 1978, 1979, using interim and estimate figures where necessary: 1. the average daily enrollment; 2. per pupil grant ceiling; 3. per pupil expenditures; 4. total expenditure; 5. total local taxation; 6. total provincial assistance; 7. rate of grant on recognized ordinary expenditures; 8. provincial contribution as a percentage of the total local school board expenditures; 9. rate of grant for French language instruction; 10. decline or increase in number of students from previous year; 11. decline or increase in number of full time equivalent teachers from previous year; 12. number of self-contained special education classes; 13. number of full time equivalent teachers of special education classes; 14. number of heritage language classes; 15. number of students studying heritage languages; 16. number of pupils whose first language is neither English nor French; 17. number of self-contained classes for pupils whose first language is neither English nor French; 18. number of full-time equivalent teachers of classes for pupils whose first language is neither English nor French. *Tabled May 15th, 1979.*

182. *Mr. Stong*—Enquiry of the Ministry—Will the Minister act upon the request of the Community Association for Unionville Secondary Education (CAUSE) to provide a new high school in Unionville. Will the Minister review the development applications which provide for approximately 3,000 new homes in Unionville, 2,000 in Risebrough and 3,300 in Markham, the result of which will not only overcrowd both Markham District High School and Thornlea High School, but would call for the immediate construction of a secondary school in the Unionville area. Will the Minister immediately undertake to satisfy the need of the secondary school students in Unionville to be educated in their own community. *Tabled May 16th, 1979.*
183. *Mr. Stong*—Enquiry of the Ministry—Will the Minister act upon the request of the Risebrough Community Association in the community of Markham, Ontario, to provide new and adequate school facilities to meet the growing educational needs in that area. Will the Minister inform herself of the situation which now exists, in that projected figures indicate that by September 1, 1979, 1000 units of the 1130 units being built will be occupied producing approximately 480 students seeking educational facilities. Will the Minister review the present policy which requires kindergarten children from this area to be bused to a school in Richmond Hill and which also sees children in grades one to five being bused to a small school where gymnastic and library facilities are non-existent. Will the Minister immediately review and provide adequate facilities in this community to meet the educational demands which will be in existence by September 1, 1979. *Tabled May 16th, 1979.*
184. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education cause an investigation to be made into the overcrowding conditions which exist at the German Mills Public School in Markham. Will the Minister explain the policy of the Ministry which appears to prefer the busing of pupils to distant empty classrooms in the Regional Municipality of York rather than construct new facilities or add on to existing facilities where circumstances warrant. Will the Minister review the policy of the Ministry which requires that prior to the building of a school, there exist sufficient number of children in the area to equal 80% of the projected capacity of the said school and apply that formula to the building of a school on the Flowerdale site in the Town of Markham, in order to accommodate the excess enrolment in the German Mills Public School which is equal to 123% of that school's designed capacity. Will the Minister review the immediate need for a new school on the Flowerdale site in the light of projected figures over the next five years which indicate that school-age children in the area will increase to approximately 900 and which figure does not take into account the fact that there is presently before the Ontario Municipal Board an application by a developer to build in the area an additional 190 townhouses. If this project is allowed to proceed the projected figures indicate that school enrolment will not decline until 1995. Will the Minister initiate a policy which would provide architecturally acceptable but movable school buildings to accommodate the shifting need of the school population. How does the Minister reconcile the Ministry's policy of fiscal restraint which includes busing and which dictates against the welfare of children, with the more important need of providing adequate facilities so that the educational and social needs of children may be properly met in their own community environment. Will the Minister therefore satisfy the needs of the children in the German Mills area of Markham and build a second school on the Flowerdale site. *Tabled May 16th, 1979.*

185. *Mr. Isaacs*—Enquiry of the Ministry—Would the Premier table in the House the advice which he received from the Environmental Assessment Steering Committee in early April concerning the proposal that the hearings in Glanbrook be reconvened under the 1975 Environmental Assessment Act, and would the Premier explain why the provisions of the 1975 Act are not being applied to major municipal government projects such as landfill sites. *Tabled May 17th, 1979.*
186. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry indicate how many new special education teachers it will require in order to implement the special education program it announced on December 15, 1978 and for which it did not provide special funding in the 1979 general legislative grants. Will the Ministry indicate what efforts it has made and will be making in order to increase the number of special education teachers available and finance the expansion of special education in Ontario. Will the Ministry also indicate its estimate of the number of children requiring special education, but not receiving it. *Tabled May 17th, 1979.*
187. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry calculate the cash value for each school board in Ontario of the language of instruction (ESL) weighting factor in 1975, 1978 and 1979 estimated. Will the Ministry also calculate the per language of instruction pupil value of this weighting factor for each school board. *Tabled May 17th, 1979.*
188. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry calculate the cash value for each school board in Ontario of the compensatory education weighting factor in 1975, 1978 and 1979 estimated. Will the Ministry also calculate the per compensatory education pupil value of this weighting factor for each school board. *Tabled May 17th, 1979.*
189. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry calculate the cash value for each school board in Ontario of the occupations weighting factor in 1975, 1978 and 1979 estimated. Will the Ministry also calculate the per occupations pupil value of this weighting factor for each school board. *Tabled May 17th, 1979.*
190. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry calculate the cash value for each school board in Ontario of the special education weighting factor in 1975, 1978 and 1979 estimated. Will the Ministry also calculate the per special education pupil value of this weighting factor for each school board. *Tabled May 17th, 1979.*
191. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry expand on its reply to written question No. 116, subsection 4 (d). Specifically, what percentage of Grade IX students reach and complete Grade XIII in each Ontario School Board. What percentage of Grade 1 students reach and complete grade XIII in this province. In each case please provide a male/female breakdown. *Tabled May 17th, 1979.*
192. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry indicate what efforts beyond the funding of the Commission on Declining Enrollment it has undertaken to assist local school boards to deal with declining enrollment. Will the

Ministry indicate the cash value to local school boards of these efforts. Secondly, in view of the recent reports that the Premier has stated that the Province has not lessened its commitment to education even though the proportion of the provincial budget allocated to education has declined from fiscal 1975/76 to fiscal 1979/80, would it be accurate to calculate the Province's savings from declining enrollment by calculating what the Province would have contributed had it maintained funding at the level existing in fiscal 1975/76 and subtracting the present level. If this is not the case, will the Ministry indicate how much money the Ministry has saved as a result of declining enrollment and what benefits accrue to local school boards as a result of declining enrollment. *Tabled May 17th, 1979.*

193. *Mr. McClellan*—Enquiry of the Ministry—What were the reasons which led Family Court Judge Goulard to order, in December 1978 the return of the four surviving Paquette children to the custody of their parents. What, if any, was the role of the Official Guardian in that proceeding. What is the basis of the Official Guardian's stated opinion that the Paquette children should return to their parents' custody. Why has it taken 7 months to schedule the appeal by the Ottawa Children's Aid Society against the decision of Judge Goulard. *Tabled May 23rd, 1979.*
  194. *Mr. McClellan*—Enquiry of the Ministry—Why were the four surviving Paquette children removed from foster homes in September 1978 and placed in the Ottawa Children's Aid Society Assessment Home. Why have they been kept there from that time until the present. *Tabled May 23rd, 1979.*
  195. *Mr. McClellan*—Enquiry of the Ministry—What are the details of the proposals to provide employment incentives to recipients of Family Benefits Allowances which the Ministry submitted to the Federal Government for cost-sharing under The Canada Assistance Plan. *Tabled May 23rd, 1979.*

138. *Answered May 3rd, 1979.*

139. and 140. *Answered May 1st, 1979.*

141. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not know or does he not agree that general hospitals cannot provide the specific kind of care or services that psychiatric hospitals can and do. That they attend upon and to different and distinct groups of patients in terms of length of care and the seriousness of the emotional disability. *Tabled April 19th, 1979.†††*

142. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister seriously contend that the Queen Street facility can or will into the future meet the projected increasing demands for hospitalization for the mentally ill as is documented in the McKinsey Report and as set out in the OPSEU brief which points out a deficiency of beds almost before you begin. *Tabled April 19th, 1979.†††*

143. *Mr. Lawlor*—Enquiry of the Ministry—What about the Day Care and particularly the out-patients services at Lakeshore. Does the Ministry seriously pretend that the present needs, much more the future requirements, of these people will begin to be met. *Tabled April 19th, 1979.†††*

144. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister not recognize on the basis of your own statistics that a new hospital will be necessary, no matter what, within a foreseeable time; and at a very much greater capital cost (including the acquirement of land) than as recommended in the Role Study. *Tabled April 19th, 1979.†††*

145. *Mr. Lawlor*—Enquiry of the Ministry—How can the Ministry possibly close the Special Observation Unit which attends to patients under Lieutenant-Governor's warrants. *Tabled April 19th, 1979.†††*

---

†††Interim Answer May 3rd, 1979. Approximate date information available June 7th, 1979.

146. *Mr. Lawlor*—Enquiry of the Ministry—What is the Ministry thinking about in removing the Dialysis Unit to Whitby when the patients are located at the other end of the world. *Tabled April 19th, 1979.*†††
147. *Mr. Lawlor*—Enquiry of the Ministry—Since it was found impossible over a two-year or greater period to find a location for the Child and Adolescent Care Unit and that institution will remain on the grounds, what basis is there for a belief that the numerous other units can be accommodated elsewhere in the Lakeshore area. Where. And, in particular, the present valued and necessary Alcoholic program. *Tabled April 19th, 1979.*†††
148. *Mr. Lawlor*—Enquiry of the Ministry—What disposition does the Minister intend to make of that building which was financed and constructed by the volunteers, who have been such a valuable asset to this hospital. *Tabled April 19th, 1979.*†††
149. *Mr. Lawlor*—Enquiry of the Ministry—Cannot some use be found for the workshops and rehabilitation equipment and facilities fairly recently erected on the premises at considerable cost. *Tabled April 19th, 1979.*†††
150. *Mr. Lawlor*—Enquiry of the Ministry—In short, and as constantly new questions arise, does the Minister not realize or even acknowledge that he is in the process of making a gross and irreparable blunder which his Government will soon learn to regret, in his unplanned and ill-considered move to close this facility against the best advice of his own hired consultants (\$120,000 worth) and the numerous, most directly involved social agencies and individuals. *Tabled April 19th, 1979.*†††
151. *Mr. Lawlor*—Enquiry of the Ministry—Is the Minister not now prepared to reconsider the closing of Lakeshore Psychiatric Hospital on the basis of the numerous observations and comments made at public meetings, by way of correspondence, and by briefs submitted particularly by the Ontario Public Service Employees Union. *Tabled April 19th, 1979.*†††
152. *Mr. Lawlor*—Enquiry of the Ministry—Since I am often awakened at 3.00 a.m. in the morning by someone calling about a problem, and this has been known to happen to many other Members of the Ontario Legislature, does the Minister really feel that such a disturbance of his sleep constitutes adequate grounds for closing the institution, as he intimates by his repeated, soulful reference to this matter. And in particular, does a fire arising out of actions of a patient in the Special Observation Unit so constitute any or adequate grounds. *Tabled April 19th, 1979.*†††
153. *Mr. Lawlor*—Enquiry of the Ministry—Will the Minister not give good consideration to the perfectly reasonable suggestion made by the Member from Lakeshore that a planned, phased approach to this whole problem would be the best solution for all concerned. That is to say, that a new psychiatric hospital having, say, about 150 beds at its completion, be gradually constructed over a period of five to ten years and that at each stage of completion,

the more serious patients be moved from the older quarters into the new thereby retaining the full complement of present in- and out-patient services without disruption and located on such portion of these extensive grounds as would free the balance for such approved community purposes as would meet the needs of the area. *Tabled April 19th, 1979.†††*

154 to 163 inclusive. *Answered May 3rd, 1979.*

164. and 165. *Answered May 10th, 1979.*

166. *Mr. Van Horne*—Enquiry of the Ministry—Will the Minister please indicate which Cabinet ministers and parliamentary assistants travelled outside of Ontario on government business in 1978-79. Please indicate the name of the province or other country visited, the length of the visit, the purpose of the visit, the number of civil servants (if any) accompanying the Cabinet minister or parliamentary assistant, the accommodation cost and travel cost for the Cabinet minister or parliamentary assistant and the accommodation cost and travel cost for the civil servants (if any) who accompanied the Cabinet minister or parliamentary assistant. *Tabled April 26th, 1979. Interim Answer May 7th, 1979. Approximate date information available July 15th, 1979.*

167. and 168. *Answered May 10th, 1979.*

169. and 170. *Answered May 14th, 1979.*

171. and 172. *Answered May 17th, 1979.*

173. *Mr. Cassidy*—Enquiry of the Ministry—Would the Minister of Health table information on the number of medical specialists by county across Ontario. Would the Minister state the total number of specialists practising in each county, and would the Minister indicate how many of these specialists are still in OHIP. Would the Minister further indicate how many anaesthetists, obstetricians and gynecologists, surgeons, psychiatrists, and paediatricians there are in total in each county, and how many are still practising within OHIP. Would the Minister provide this information as of March 31 1979, December 31 1978, September 30 1978, June 30 1978, March 31 1978. Would the Minister also state the total number of general practitioners in each county and the number still within OHIP as of the same dates as noted above. *Tabled May 3rd, 1979. Interim Answer May 18th, 1979. Approximate date information available June 29th, 1979.*

174 to 178 inclusive. *Answered May 24th, 1979.*

179. *Withdrawn.*

180. *Mr. Cassidy*—Enquiry of the Ministry—Would the Minister please table an opinion on the legality of allowing private insurance companies to cover the

insured services of chronic care, including the current \$9.80 a day copayment fee. Would the Minister pay particular regard to Section 19 of the Health Insurance Act (1972) when obtaining this legal opinion. *Tabled May 11th, 1979.*

181. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry table for each School Board in Ontario for 1977, 1978, 1979, using interim and estimate figures where necessary: 1. the average daily enrollment; 2. per pupil grant ceiling; 3. per pupil expenditures; 4. total expenditure; 5. total local taxation; 6. total provincial assistance; 7. rate of grant on recognized ordinary expenditures; 8. provincial contribution as a percentage of the total local school board expenditures; 9. rate of grant for French language instruction; 10. decline or increase in number of students from previous year; 11. decline or increase in number of full time equivalent teachers from previous year; 12. number of self-contained special education classes; 13. number of full time equivalent teachers of special education classes; 14. number of heritage language classes; 15. number of students studying heritage languages; 16. number of pupils whose first language is neither English nor French; 17. number of self-contained classes for pupils whose first language is neither English nor French; 18. number of full-time equivalent teachers of classes for pupils whose first language is neither English nor French. *Tabled May 15th, 1979.*
182. *Mr. Stong*—Enquiry of the Ministry—Will the Minister act upon the request of the Community Association for Unionville Secondary Education (CAUSE) to provide a new high school in Unionville. Will the Minister review the development applications which provide for approximately 3,000 new homes in Unionville, 2,000 in Risebrough and 3,300 in Markham, the result of which will not only overcrowd both Markham District High School and Thornlea High School, but would call for the immediate construction of a secondary school in the Unionville area. Will the Minister immediately undertake to satisfy the need of the secondary school students in Unionville to be educated in their own community. *Tabled May 16th, 1979.*
183. *Mr. Stong*—Enquiry of the Ministry—Will the Minister act upon the request of the Risebrough Community Association in the community of Markham, Ontario, to provide new and adequate school facilities to meet the growing educational needs in that area. Will the Minister inform herself of the situation which now exists, in that projected figures indicate that by September 1, 1979, 1000 units of the 1130 units being built will be occupied producing approximately 480 students seeking educational facilities. Will the Minister review the present policy which requires kindergarten children from this area to be bused to a school in Richmond Hill and which also sees children in grades one to five being bused to a small school where gymnastic and library facilities are non-existent. Will the Minister immediately review and provide adequate facilities in this community to meet the educational demands which will be in existence by September 1, 1979. *Tabled May 16th, 1979.*
184. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education cause an investigation to be made into the overcrowding conditions which exist at the German Mills Public School in Markham. Will the Minister explain the policy of the Ministry which appears to prefer the busing of pupils to distant empty classrooms in the Regional Municipality of York rather than construct new

facilities or add on to existing facilities where circumstances warrant. Will the Minister review the policy of the Ministry which requires that prior to the building of a school, there exist sufficient number of children in the area to equal 80% of the projected capacity of the said school and apply that formula to the building of a school on the Flowerdale site in the Town of Markham, in order to accommodate the excess enrolment in the German Mills Public School which is equal to 123% of that school's designed capacity. Will the Minister review the immediate need for a new school on the Flowerdale site in the light of projected figures over the next five years which indicate that school-age children in the area will increase to approximately 900 and which figure does not take into account the fact that there is presently before the Ontario Municipal Board an application by a developer to build in the area an additional 190 townhouses. If this project is allowed to proceed the projected figures indicate that school enrolment will not decline until 1995. Will the Minister initiate a policy which would provide architecturally acceptable but movable school buildings to accommodate the shifting need of the school population. How does the Minister reconcile the Ministry's policy of fiscal restraint which includes busing and which dictates against the welfare of children, with the more important need of providing adequate facilities so that the educational and social needs of children may be properly met in their own community environment. Will the Minister therefore satisfy the needs of the children in the German Mills area of Markham and build a second school on the Flowerdale site. *Tabled May 16th, 1979.*

185. *Mr. Isaacs*—Enquiry of the Ministry—Would the Premier table in the House the advice which he received from the Environmental Assessment Steering Committee in early April concerning the proposal that the hearings in Glanbrook be reconvened under the 1975 Environmental Assessment Act, and would the Premier explain why the provisions of the 1975 Act are not being applied to major municipal government projects such as landfill sites. *Tabled May 17th, 1979.*
186. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry indicate how many new special education teachers it will require in order to implement the special education program it announced on December 15, 1978 and for which it did not provide special funding in the 1979 general legislative grants. Will the Ministry indicate what efforts it has made and will be making in order to increase the number of special education teachers available and finance the expansion of special education in Ontario. Will the Ministry also indicate its estimate of the number of children requiring special education, but not receiving it. *Tabled May 17th, 1979.*
187. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry calculate the cash value for each school board in Ontario of the language of instruction (ESL) weighting factor in 1975, 1978 and 1979 estimated. Will the Ministry also calculate the per language of instruction pupil value of this weighting factor for each school board. *Tabled May 17th, 1979.*
188. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry calculate the cash value for each school board in Ontario of the compensatory education weighting factor in 1975, 1978 and 1979 estimated. Will the Ministry also calculate

the per compensatory education pupil value of this weighting factor for each school board. *Tabled May 17th, 1979.*

189. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry calculate the cash value for each school board in Ontario of the occupations weighting factor in 1975, 1978 and 1979 estimated. Will the Ministry also calculate the per occupations pupil value of this weighting factor for each school board. *Tabled May 17th, 1979.*
190. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry calculate the cash value for each school board in Ontario of the special education weighting factor in 1975, 1978 and 1979 estimated. Will the Ministry also calculate the per special education pupil value of this weighting factor for each school board. *Tabled May 17th, 1979.*
191. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry expand on its reply to written question No. 116, subsection 4 (d). Specifically, what percentage of Grade IX students reach and complete Grade XIII in each Ontario School Board. What percentage of Grade 1 students reach and complete grade XIII in this province. In each case please provide a male/female breakdown. *Tabled May 17th, 1979.*
192. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry indicate what efforts beyond the funding of the Commission on Declining Enrollment it has undertaken to assist local school boards to deal with declining enrollment. Will the Ministry indicate the cash value to local school boards of these efforts. Secondly, in view of the recent reports that the Premier has stated that the Province has not lessened its commitment to education even though the proportion of the provincial budget allocated to education has declined from fiscal 1975/76 to fiscal 1979/80, would it be accurate to calculate the Province's savings from declining enrollment by calculating what the Province would have contributed had it maintained funding at the level existing in fiscal 1975/76 and subtracting the present level. If this is not the case, will the Ministry indicate how much money the Ministry has saved as a result of declining enrollment and what benefits accrue to local school boards as a result of declining enrollment. *Tabled May 17th, 1979.*
193. *Mr. McClellan*—Enquiry of the Ministry—What were the reasons which led Family Court Judge Goulard to order, in December 1978 the return of the four surviving Paquette children to the custody of their parents. What, if any, was the role of the Official Guardian in that proceeding. What is the basis of the Official Guardian's stated opinion that the Paquette children should return to their parents' custody. Why has it taken 7 months to schedule the appeal by the Ottawa Children's Aid Society against the decision of Judge Goulard. *Tabled May 23rd, 1979.*
194. *Mr. McClellan*—Enquiry of the Ministry—Why were the four surviving Paquette children removed from foster homes in September 1978 and placed in the Ottawa Children's Aid Society Assessment Home. Why have they been kept there from that time until the present. *Tabled May 23rd, 1979.*
195. *Mr. McClellan*—Enquiry of the Ministry—What are the details of the proposals to provide employment incentives to recipients of Family Benefits Allowances

which the Ministry submitted to the Federal Government for cost-sharing under The Canada Assistance Plan. *Tabled May 23rd, 1979.*

196. *Mr. Stong*—Enquiry of the Ministry—In line with the recent assurance of the Minister of the Environment in letters to the Towns of Richmond Hill and Markham, wherein the Minister guaranteed that all further hydro projects in those areas will receive “the full treatment” provided by the Environmental Assessment Act, would the Minister now cause to be conducted an environmental assessment hearing into that part of the 550 KV Nanticoke to Pickering transmission line which is planned for installation east of Highway #48: (a) in an area not yet approved by Cabinet; (b) in an area the land of which has not yet been completely surveyed for the new line, much less acquired; (c) in an area where no hearings have been held to allow input from the people and where the people were deprived by virtue of the decision in the Chadwill Coal case, from giving evidence to hearing officers who conducted an enquiry into the Parkway Belt West and thus in fact held sham hearings. *Tabled May 24th, 1979.*
  197. *Mr. Cassidy*—Enquiry of the Ministry—How many persons are employed as operators of X-ray equipment in Ontario. Of these, how many are Registered Radiological Technicians under the Radiological Technicians Act.
  198. *Mr. Cassidy*—Enquiry of the Ministry—How many persons are employed as operators of X-ray equipment in public hospitals in Ontario. Of these, how many are Registered Radiological Technicians under the Radiological Technicians Act.
  199. *Mr. Cassidy*—Enquiry of the Ministry—How many persons are employed as operators of X-ray equipment in chest clinics operated under the Ministry of Health. Of these, how many are Registered Radiological Technicians under the Radiological Technicians Act.

141. *Mr. Lawlor—Enquiry of the Ministry—Does the Minister of Health not know or does he not agree that general hospitals cannot provide the specific kind of care or services that psychiatric hospitals can and do. That they attend upon and to different and distinct groups of patients in terms of length of care and the seriousness of the emotional disability. Tabled April 19th, 1979.†††*
142. *Mr. Lawlor—Enquiry of the Ministry—Does the Minister of Health seriously contend that the Queen Street facility can or will into the future meet the projected increasing demands for hospitalization for the mentally ill as is documented in the McKinsey Report and as set out in the OPSEU brief which points out a deficiency of beds almost before you begin. Tabled April 19th, 1979.†††*
143. *Mr. Lawlor—Enquiry of the Ministry—What about the Day Care and particularly the out-patients services at Lakeshore. Does the Ministry of Health seriously pretend that the present needs, much more the future requirements, of these people will begin to be met. Tabled April 19th, 1979.†††*
144. *Mr. Lawlor—Enquiry of the Ministry—Does the Minister of Health not recognize on the basis of your own statistics that a new hospital will be necessary, no matter what, within a foreseeable time; and at a very much greater capital cost (including the acquirement of land) than as recommended in the Role Study. Tabled April 19th, 1979.†††*
145. *Mr. Lawlor—Enquiry of the Ministry—How can the Ministry of Health possibly close the Special Observation Unit which attends to patients under Lieutenant-Governor's warrants. Tabled April 19th, 1979.†††*

---

†††Interim Answer May 3rd, 1979. Approximate date information available June 7th, 1979.

146. *Mr. Lawlor*—Enquiry of the Ministry—What is the Ministry of Health thinking about in removing the Dialysis Unit to Whitby when the patients are located at the other end of the world. *Tabled April 19th, 1979.* †††
147. *Mr. Lawlor*—Enquiry of the Ministry—Since it was found impossible over a two-year or greater period to find a location for the Child and Adolescent Care Unit and that institution will remain on the grounds, what basis is there for a belief that the numerous other units can be accommodated elsewhere in the Lakeshore area. Where. And, in particular, the present valued and necessary Alcoholic program. *Tabled April 19th, 1979.* †††
148. *Mr. Lawlor*—Enquiry of the Ministry—What disposition does the Minister intend to make of that building which was financed and constructed by the volunteers, who have been such a valuable asset to this hospital. *Tabled April 19th, 1979.* †††
149. *Mr. Lawlor*—Enquiry of the Ministry—Cannot some use be found for the workshops and rehabilitation equipment and facilities fairly recently erected on the premises at considerable cost. *Tabled April 19th, 1979.* †††
150. *Mr. Lawlor*—Enquiry of the Ministry—In short, and as constantly new questions arise, does the Minister of Health not realize or even acknowledge that he is in the process of making a gross and irreparable blunder which his Government will soon learn to regret, in his unplanned and ill-considered move to close this facility against the best advice of his own hired consultants (\$120,000 worth) and the numerous, most directly involved social agencies and individuals. *Tabled April 19th, 1979.* †††
151. *Mr. Lawlor*—Enquiry of the Ministry—Is the Minister of Health not now prepared to reconsider the closing of Lakeshore Psychiatric Hospital on the basis of the numerous observations and comments made at public meetings, by way of correspondence, and by briefs submitted particularly by the Ontario Public Service Employees Union. *Tabled April 19th, 1979.* †††
152. *Mr. Lawlor*—Enquiry of the Ministry—Since I am often awakened at 3.00 a.m. in the morning by someone calling about a problem, and this has been known to happen to many other Members of the Ontario Legislature, does the Minister of Health really feel that such a disturbance of his sleep constitutes adequate grounds for closing the institution, as he intimates by his repeated, soulful reference to this matter. And in particular, does a fire arising out of actions of a patient in the Special Observation Unit so constitute any or adequate grounds. *Tabled April 19th, 1979.* †††
153. *Mr. Lawlor*—Enquiry of the Ministry—Will the Minister of Health not give good consideration to the perfectly reasonable suggestion made by the Member from Lakeshore that a planned, phased approach to this whole problem would be the best solution for all concerned. That is to say, that a new psychiatric hospital having, say, about 150 beds at its completion, be gradually constructed over a period of five to ten years and that at each stage of completion,

the more serious patients be moved from the older quarters into the new thereby retaining the full complement of present in- and out-patient services without disruption and located on such portion of these extensive grounds as would free the balance for such approved community purposes as would meet the needs of the area. *Tabled April 19th, 1979.*†††

154 to 163 inclusive. *Answered May 3rd, 1979.*

164. and 165. *Answered May 10th, 1979.*

166. *Mr. Van Horne*—Enquiry of the Ministry—Will the Minister please indicate which Cabinet ministers and parliamentary assistants travelled outside of Ontario on government business in 1978-79. Please indicate the name of the province or other country visited, the length of the visit, the purpose of the visit, the number of civil servants (if any) accompanying the Cabinet minister or parliamentary assistant, the accommodation cost and travel cost for the Cabinet minister or parliamentary assistant and the accommodation cost and travel cost for the civil servants (if any) who accompanied the Cabinet minister or parliamentary assistant. *Tabled April 26th, 1979. 169. and 170. *Answered May 14th, 1979.*

171. and 172. *Answered May 17th, 1979.*

173. *Mr. Cassidy*—Enquiry of the Ministry—Would the Minister of Health table information on the number of medical specialists by county across Ontario. Would the Minister state the total number of specialists practising in each county, and would the Minister indicate how many of these specialists are still in OHIP. Would the Minister further indicate how many anaesthetists, obstetricians and gynecologists, surgeons, psychiatrists, and paediatricians there are in total in each county, and how many are still practising within OHIP. Would the Minister provide this information as of March 31 1979, December 31 1978, September 30 1978, June 30 1978, March 31 1978. †††Interim Answer May 3rd, 1979. Approximate date information available June 7th, 1979.

181. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education table for each School Board in Ontario for 1977, 1978, 1979, using interim and estimate figures where necessary: 1. the average daily enrollment; 2. per pupil grant ceiling; 3. per pupil expenditures; 4. total expenditure; 5. total local taxation; 6. total provincial assistance; 7. rate of grant on recognized ordinary expenditures; 8. provincial contribution as a percentage of the total local school board expenditures; 9. rate of grant for French language instruction; 10. decline or increase in number of students from previous year; 11. decline or increase in number of full time equivalent teachers from previous year; 12. number of self-contained special education classes; 13. number of full time equivalent teachers of special education classes; 14. number of heritage language classes; 15. number of students studying heritage languages; 16. number of pupils whose first language is neither English nor French; 17. number of self-contained classes for pupils whose first language is neither English nor French; 18. number of full-time equivalent teachers of classes for pupils whose first language is neither English nor French. *Tabled May 15th, 1979.*
182. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education act upon the request of the Community Association for Unionville Secondary Education (CAUSE) to provide a new high school in Unionville. Will the Minister review the development applications which provide for approximately 3,000 new homes in Unionville, 2,000 in Risebrough and 3,300 in Markham, the result of which will not only overcrowd both Markham District High School and Thornlea High School, but would call for the immediate construction of a secondary school in the Unionville area. Will the Minister immediately undertake to satisfy the need of the secondary school students in Unionville to be educated in their own community. *Tabled May 16th, 1979.*
183. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education act upon the request of the Risebrough Community Association in the community of Markham, Ontario, to provide new and adequate school facilities to meet the growing educational needs in that area. Will the Minister inform herself of the situation which now exists, in that projected figures indicate that by September 1, 1979, 1000 units of the 1130 units being built will be occupied producing approximately 480 students seeking educational facilities. Will the Minister review the present policy which requires kindergarten children from this area to be bused to a school in Richmond Hill and which also sees children in grades one to five being bused to a small school where gymnastic and library facilities are non-existent. Will the Minister immediately review and provide adequate facilities in this community to meet the educational demands which will be in existence by September 1, 1979. *Tabled May 16th, 1979.*
184. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education cause an investigation to be made into the overcrowding conditions which exist at the German Mills Public School in Markham. Will the Minister explain the policy of the Ministry which appears to prefer the busing of pupils to distant empty classrooms in the Regional Municipality of York rather than construct new facilities or add on to existing facilities where circumstances warrant. Will the Minister review the policy of the Ministry which requires that prior to the building of a school, there exist sufficient number of children in the area to equal 80% of the projected capacity of the said school and apply that formula to the building of a school on the Flowerdale site in the Town of Markham, in order to accommodate the excess enrolment in the German Mills Public School

which is equal to 123% of that school's designed capacity. Will the Minister review the immediate need for a new school on the Flowerdale site in the light of projected figures over the next five years which indicate that school-age children in the area will increase to approximately 900 and which figure does not take into account the fact that there is presently before the Ontario Municipal Board an application by a developer to build in the area an additional 190 townhouses. If this project is allowed to proceed the projected figures indicate that school enrolment will not decline until 1995. Will the Minister initiate a policy which would provide architecturally acceptable but movable school buildings to accommodate the shifting need of the school population. How does the Minister reconcile the Ministry's policy of fiscal restraint which includes busing and which dictates against the welfare of children, with the more important need of providing adequate facilities so that the educational and social needs of children may be properly met in their own community environment. Will the Minister therefore satisfy the needs of the children in the German Mills area of Markham and build a second school on the Flowerdale site. *Tabled May 16th, 1979.*

185. *Mr. Isaacs*—Enquiry of the Ministry—Would the Premier table in the House the advice which he received from the Environmental Assessment Steering Committee in early April concerning the proposal that the hearings in Glanbrook be reconvened under the 1975 Environmental Assessment Act, and would the Premier explain why the provisions of the 1975 Act are not being applied to major municipal government projects such as landfill sites. *Tabled May 17th, 1979.*
186. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education indicate how many new special education teachers it will require in order to implement the special education program it announced on December 15, 1978 and for which it did not provide special funding in the 1979 general legislative grants. Will the Ministry indicate what efforts it has made and will be making in order to increase the number of special education teachers available and finance the expansion of special education in Ontario. Will the Ministry also indicate its estimate of the number of children requiring special education, but not receiving it. *Tabled May 17th, 1979.*
187. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education calculate the cash value for each school board in Ontario of the language of instruction (ESL) weighting factor in 1975, 1978 and 1979 estimated. Will the Ministry also calculate the per language of instruction pupil value of this weighting factor for each school board. *Tabled May 17th, 1979.*
188. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education calculate the cash value for each school board in Ontario of the compensatory education weighting factor in 1975, 1978 and 1979 estimated. Will the Ministry also calculate the per compensatory education pupil value of this weighting factor for each school board. *Tabled May 17th, 1979.*
189. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education calculate the cash value for each school board in Ontario of the occupations weighting factor in 1975, 1978 and 1979 estimated. Will the Ministry also calculate the per occupations pupil value of this weighting factor for each school board. *Tabled May 17th, 1979.*

190. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education calculate the cash value for each school board in Ontario of the special education weighting factor in 1975, 1978 and 1979 estimated. Will the Ministry also calculate the per special education pupil value of this weighting factor for each school board. *Tabled May 17th, 1979.*
191. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education expand on its reply to written question No. 116, subsection 4 (d). Specifically, what percentage of Grade IX students reach and complete Grade XIII in each Ontario School Board. What percentage of Grade 1 students reach and complete grade XIII in this province. In each case please provide a male/female breakdown. *Tabled May 17th, 1979.*
192. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education indicate what efforts beyond the funding of the Commission of Declining Enrollment it has undertaken to assist local school boards to deal with declining enrollment. Will the Ministry indicate the cash value to local school boards of these efforts. Secondly, in view of the recent reports that the Premier has stated that the Province has not lessened its commitment to education even though the proportion of the provincial budget allocated to education has declined from fiscal 1975/76 to fiscal 1979/80, would it be accurate to calculate the Province's savings from declining enrollment by calculating what the Province would have contributed had it maintained funding at the level existing in fiscal 1975/76 and subtracting the present level. If this is not the case, will the Ministry indicate how much money the Ministry has saved as a result of declining enrollment and what benefits accrue to local school boards as a result of declining enrollment. *Tabled May 17th, 1979.*
193. *Mr. McClellan*—Enquiry of the Ministry—What were the reasons which led Family Court Judge Goulard to order, in December 1978 the return of the four surviving Paquette children to the custody of their parents. What, if any, was the role of the Official Guardian in that proceeding. What is the basis of the Official Guardian's stated opinion that the Paquette children should return to their parents' custody. Why has it taken 7 months to schedule the appeal by the Ottawa Children's Aid Society against the decision of Judge Goulard. *Tabled May 23rd, 1979.*
194. *Mr. McClellan*—Enquiry of the Ministry—Why were the four surviving Paquette children removed from foster homes in September 1978 and placed in the Ottawa Children's Aid Society Assessment Home. Why have they been kept there from that time until the present. *Tabled May 23rd, 1979.*
195. *Mr. McClellan*—Enquiry of the Ministry—What are the details of the proposals to provide employment incentives to recipients of Family Benefits Allowances which the Ministry submitted to the Federal Government for cost-sharing under The Canada Assistance Plan. *Tabled May 23rd, 1979.*
196. *Mr. Stong*—Enquiry of the Ministry—In line with the recent assurance of the Minister of the Environment in letters to the Towns of Richmond Hill and Markham, wherein the Minister guaranteed that all further hydro projects in those areas will receive "the full treatment" provided by the Environmental Assessment Act, would the Minister now cause to be conducted an environmental assessment hearing into that part of the 550 KV Nanticoke to Pickering

transmission line which is planned for installation east of Highway #48: (a) in an area not yet approved by Cabinet; (b) in an area the land of which has not yet been completely surveyed for the new line, much less acquired; (c) in an area where no hearings have been held to allow input from the people and where the people were deprived by virtue of the decision in the Chadwill Coal case, from giving evidence to hearing officers who conducted an enquiry into the Parkway Belt West and thus in fact held sham hearings. *Tabled May 24th, 1979.*

197. *Mr. Cassidy*—Enquiry of the Ministry—How many persons are employed as operators of X-ray equipment in Ontario. Of these, how many are Registered Radiological Technicians under the Radiological Technicians Act. *Tabled May 24th, 1979.*
  198. *Mr. Cassidy*—Enquiry of the Ministry—How many persons are employed as operators of X-ray equipment in public hospitals in Ontario. Of these, how many are Registered Radiological Technicians under the Radiological Technicians Act. *Tabled May 24th, 1979.*
  199. *Mr. Cassidy*—Enquiry of the Ministry—How many persons are employed as operators of X-ray equipment in chest clinics operated under the Ministry of Health. Of these, how many are Registered Radiological Technicians under the Radiological Technicians Act. *Tabled May 24th, 1979.*
  200. *Mr. Mackenzie*—Enquiry of the Ministry—Will the Minister of Health inform the House as to:—(a) The number of children born with major health problems or physical defects considered to be the result of a lack of vaccination for German Measles over each of the last 5 years. (b) The number of citizens in Ontario who have not been adequately protected by vaccination for measles and rubella. (c) Whether there is any evidence of a more severe reaction to rubella or measles in any particular community or any immigrant group and whether there are more people not protected in any particular ethnic community. (d) Does the Ministry have any evidence which would indicate an increased rate of birth defects following an increased incidence of rubella. (e) What steps are being taken to increase the vaccination rate against rubella and measles. *Tabled May 25th, 1979.*
  201. *Mr. Mackenzie*—Enquiry of the Ministry—1. Will the Minister of Health inform the House of the number of Inspectors—Regular, Fire, Environmental and Dietary—responsible for Nursing Homes in Ontario at the present time. 2. The number of Inspectors employed as of January 1, 1979, June 1, 1978, January 1, 1978, January 1, 1977, January 1, 1976 and January 1, 1975. 3. The placement of the Inspectors by Regional offices during these periods and the areas covered by each Regional office. 4. 141. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not know or does he not agree that general hospitals cannot provide the specific kind of care or services that psychiatric hospitals can and do. That they attend upon and to different and distinct groups of patients in terms of length of care and the seriousness of the emotional disability. *Tabled April 19th, 1979.†††*
142. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health seriously contend that the Queen Street facility can or will into the future meet the projected increasing demands for hospitalization for the mentally ill as is documented in the McKinsey Report and as set out in the OPSEU brief which points out a deficiency of beds almost before you begin. *Tabled April 19th, 1979.†††*
143. *Mr. Lawlor*—Enquiry of the Ministry—What about the Day Care and particularly the out-patients services at Lakeshore. Does the Ministry of Health seriously pretend that the present needs, much more the future requirements, of these people will begin to be met. *Tabled April 19th, 1979.†††*
144. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not recognize on the basis of your own statistics that a new hospital will be necessary, no matter what, within a foreseeable time; and at a very much greater capital cost (including the acquirement of land) than as recommended in the Role Study. *Tabled April 19th, 1979.†††*

146. *Mr. Lawlor*—Enquiry of the Ministry—What is the Ministry of Health thinking about in removing the Dialysis Unit to Whitby when the patients are located at the other end of the world. *Tabled April 19th, 1979.*†††
147. *Mr. Lawlor*—Enquiry of the Ministry—Since it was found impossible over a two-year or greater period to find a location for the Child and Adolescent Care Unit and that institution will remain on the grounds, what basis is there for a belief that the numerous other units can be accommodated elsewhere in the Lakeshore area. Where. And, in particular, the present valued and necessary Alcoholic program. *Tabled April 19th, 1979.*†††
148. *Mr. Lawlor*—Enquiry of the Ministry—What disposition does the Minister of Health intend to make of that building which was financed and constructed by the volunteers, who have been such a valuable asset to this hospital. *Tabled April 19th, 1979.*†††
149. *Mr. Lawlor*—Enquiry of the Ministry—Cannot some use be found by the Ministry of Health for the workshops and rehabilitation equipment and facilities fairly recently erected on the premises at considerable cost. *Tabled April 19th, 1979.*†††
150. *Mr. Lawlor*—Enquiry of the Ministry—In short, and as constantly new questions arise, does the Minister of Health not realize or even acknowledge that he is in the process of making a gross and irreparable blunder which his Government will soon learn to regret, in his unplanned and ill-considered move to close this facility against the best advice of his own hired consultants (\$120,000 worth) and the numerous, most directly involved social agencies and individuals. *Tabled April 19th, 1979.*†††
151. *Mr. Lawlor*—Enquiry of the Ministry—Is the Minister of Health not now prepared to reconsider the closing of Lakeshore Psychiatric Hospital on the basis of the numerous observations and comments made at public meetings, by way of correspondence, and by briefs submitted particularly by the Ontario Public Service Employees Union. *Tabled April 19th, 1979.*†††
152. *Mr. Lawlor*—Enquiry of the Ministry—Since I am often awakened at 3.00 a.m. in the morning by someone calling about a problem, and this has been known to happen to many other Members of the Ontario Legislature, does the Minister of Health really feel that such a disturbance of his sleep constitutes adequate grounds for closing the institution, as he intimates by his repeated, soulful reference to this matter. And in particular, does a fire arising out of actions of a patient in the Special Observation Unit so constitute any or adequate grounds. *Tabled April 19th, 1979.*†††
153. *Mr. Lawlor*—Enquiry of the Ministry—Will the Minister of Health not give good consideration to the perfectly reasonable suggestion made by the Member from Lakeshore that a planned, phased approach to this whole problem would be the best solution for all concerned. That is to say, that a new psychiatric hospital having, say, about 150 beds at its completion, be gradually con-

Would the Minister further indicate how many anaesthetists, obstetricians and gynecologists, surgeons, psychiatrists, and paediatricians there are in total in each county, and how many are still practising within OHIP. 181. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education table for each School Board in Ontario for 1977, 1978, 1979, using interim and estimate figures where necessary: 1. the average daily enrollment; 2. per pupil grant ceiling; 3. per pupil expenditures; 4. total expenditure; 5. total local taxation; 6. total provincial assistance; 7. rate of grant on recognized ordinary expenditures; 8. provincial contribution as a percentage of the total local school board expenditures; 9. rate of grant for French language instruction; 10. decline or increase in number of students from previous year; 11. decline or increase in number of full time equivalent teachers from previous year; 12. number of self-contained special education classes; 13. number of full time equivalent teachers of special education classes; 14. number of heritage language classes; 15. number of students studying heritage languages; 16. number of pupils whose first language is neither English nor French; 17. number of self-contained classes for pupils whose first language is neither English nor French; 18. number of full-time equivalent teachers of classes for pupils whose first language is neither English nor French. *Tabled May 15th, 1979. Interim Answer May 28th, 1979. Approximate date information available June 7th, 1979.*
182. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education act upon the request of the Community Association for Unionville Secondary Education (CAUSE) to provide a new high school in Unionville. Will the Minister review the development applications which provide for approximately 3,000 new homes in Unionville, 2,000 in Risebrough and 3,300 in Markham, the result of which will not only overcrowd both Markham District High School and Thornlea High School, but would call for the immediate construction of a secondary school in the Unionville area. Will the Minister immediately undertake to satisfy the need of the secondary school students in Unionville to be educated in their own community. *Tabled May 16th, 1979.*
183. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education act upon the request of the Risebrough Community Association in the community of Markham, Ontario, to provide new and adequate school facilities to meet the growing educational needs in that area. Will the Minister inform herself of the situation which now exists, in that projected figures indicate that by September 1, 1979, 1000 units of the 1130 units being built will be occupied producing approximately 480 students seeking educational facilities. Will the Minister review the present policy which requires kindergarten children from this area to be bused to a school in Richmond Hill and which also sees children in grades one to five being bused to a small school where gymnastic and library facilities are non-existent. Will the Minister immediately review and provide adequate facilities in this community to meet the educational demands which will be in existence by September 1, 1979. *Tabled May 16th, 1979.*
184. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education cause an investigation to be made into the overcrowding conditions which exist at the German Mills Public School in Markham. Will the Minister explain the policy of the Ministry which appears to prefer the busing of pupils to distant empty classrooms in the Regional Municipality of York rather than construct new facilities or add on to existing facilities where circumstances warrant. Will the Minister review the policy of the Ministry which requires that prior to the building of a school, there exist sufficient number of children in the area to equal 80% of the projected capacity of the said school and apply that formula

to the building of a school on the Flowerdale site in the Town of Markham, in order to accommodate the excess enrolment in the German Mills Public School which is equal to 123% of that school's designed capacity. Will the Minister review the immediate need for a new school on the Flowerdale site in the light of projected figures over the next five years which indicate that school-age children in the area will increase to approximately 900 and which figure does not take into account the fact that there is presently before the Ontario Municipal Board an application by a developer to build in the area an additional 190 townhouses. If this project is allowed to proceed the projected figures indicate that school enrolment will not decline until 1995. Will the Minister initiate a policy which would provide architecturally acceptable but movable school buildings to accommodate the shifting need of the school population. How does the Minister reconcile the Ministry's policy of fiscal restraint which includes busing and which dictates against the welfare of children, with the more important need of providing adequate facilities so that the educational and social needs of children may be properly met in their own community environment. Will the Minister therefore satisfy the needs of the children in the German Mills area of Markham and build a second school on the Flowerdale site. *Tabled May 16th, 1979.*

185. *Mr. Isaacs*—Enquiry of the Ministry—Would the Premier table in the House the advice which he received from the Environmental Assessment Steering Committee in early April concerning the proposal that the hearings in Glanbrook be reconvened under the 1975 Environmental Assessment Act, and would the Premier explain why the provisions of the 1975 Act are not being applied to major municipal government projects such as landfill sites. *Tabled May 17th, 1979.*
186. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education indicate how many new special education teachers it will require in order to implement the special education program it announced on December 15, 1978 and for which it did not provide special funding in the 1979 general legislative grants. Will the Ministry indicate what efforts it has made and will be making in order to increase the number of special education teachers available and finance the expansion of special education in Ontario. Will the Ministry also indicate its estimate of the number of children requiring special education, but not receiving it. *Tabled May 17th, 1979.*
187. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education calculate the cash value for each school board in Ontario of the language of instruction (ESL) weighting factor in 1975, 1978 and 1979 estimated. Will the Ministry also calculate the per language of instruction pupil value of this weighting factor for each school board. *Tabled May 17th, 1979.*
188. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education calculate the cash value for each school board in Ontario of the compensatory education weighting factor in 1975, 1978 and 1979 estimated. Will the Ministry also calculate the per compensatory education pupil value of this weighting factor for each school board. *Tabled May 17th, 1979.*
189. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education calculate the cash value for each school board in Ontario of the occupations weighting factor in 1975, 1978 and 1979 estimated. Will the Ministry also

calculate the per occupations pupil value of this weighting factor for each school board. *Tabled May 17th, 1979.*

190. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education calculate the cash value for each school board in Ontario of the special education weighting factor in 1975, 1978 and 1979 estimated. Will the Ministry also calculate the per special education pupil value of this weighting factor for each school board. *Tabled May 17th, 1979.*
191. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education expand on its reply to written question No. 116, subsection 4 (d). Specifically, what percentage of Grade IX students reach and complete Grade XIII in each Ontario School Board. What percentage of Grade 1 students reach and complete grade XIII in this province. In each case please provide a male/female breakdown. *Tabled May 17th, 1979.*
192. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education indicate what efforts beyond the funding of the Commission of Declining Enrollment it has undertaken to assist local school boards to deal with declining enrollment. Will the Ministry indicate the cash value to local school boards of these efforts. Secondly, in view of the recent reports that the Premier has stated that the Province has not lessened its commitment to education even though the proportion of the provincial budget allocated to education has declined from fiscal 1975/76 to fiscal 1979/80, would it be accurate to calculate the Province's savings from declining enrollment by calculating what the Province would have contributed had it maintained funding at the level existing in fiscal 1975/76 and subtracting the present level. If this is not the case, will the Ministry indicate how much money the Ministry has saved as a result of declining enrollment and what benefits accrue to local school boards as a result of declining enrollment. *Tabled May 17th, 1979.*
193. *Mr. McClellan*—Enquiry of the Ministry—What were the reasons which led Family Court Judge Goulard to order, in December 1978 the return of the four surviving Paquette children to the custody of their parents. What, if any, was the role of the Official Guardian in that proceeding. What is the basis of the Official Guardian's stated opinion that the Paquette children should return to their parents' custody. Why has it taken 7 months to schedule the appeal by the Ottawa Children's Aid Society against the decision of Judge Goulard. *Tabled May 23rd, 1979.*
194. *Mr. McClellan*—Enquiry of the Ministry—Why were the four surviving Paquette children removed from foster homes in September 1978 and placed in the Ottawa Children's Aid Society Assessment Home. Why have they been kept there from that time until the present. *Tabled May 23rd, 1979.*
195. *Mr. McClellan*—Enquiry of the Ministry—What are the details of the proposals to provide employment incentives to recipients of Family Benefits Allowances which the Ministry submitted to the Federal Government for cost-sharing under The Canada Assistance Plan. *Tabled May 23rd, 1979.*
196. *Mr. Stong*—Enquiry of the Ministry—In line with the recent assurance of the Minister of the Environment in letters to the Towns of Richmond Hill and Markham, wherein the Minister guaranteed that all further hydro projects in

those areas will receive "the full treatment" provided by the Environmental Assessment Act, would the Minister now cause to be conducted an environmental assessment hearing into that part of the 550 KV Nanticoke to Pickering transmission line which is planned for installation east of Highway #48: (a) in an area not yet approved by Cabinet; (b) in an area the land of which has not yet been completely surveyed for the new line, much less acquired; (c) in an area where no hearings have been held to allow input from the people and where the people were deprived by virtue of the decision in the Chadwill Coal case, from giving evidence to hearing officers who conducted an enquiry into the Parkway Belt West and thus in fact held sham hearings. *Tabled May 24th, 1979.*

197. *Mr. Cassidy*—Enquiry of the Ministry—Would the Ministry of Health advise how many persons are employed as operators of X-ray equipment in Ontario. Of these, how many are Registered Radiological Technicians under the Radiological Technicians Act. *Tabled May 24th, 1979.*
198. *Mr. Cassidy*—Enquiry of the Ministry—Would the Ministry of Health advise how many persons are employed as operators of X-ray equipment in public hospitals in Ontario. Of these, how many are Registered Radiological Technicians under the Radiological Technicians Act. *Tabled May 24th, 1979.*
199. *Mr. Cassidy*—Enquiry of the Ministry—How many persons are employed as operators of X-ray equipment in chest clinics operated under the Ministry of Health. Of these, how many are Registered Radiological Technicians under the Radiological Technicians Act. *Tabled May 24th, 1979.*
200. *Mr. Mackenzie*—Enquiry of the Ministry—Will the Minister of Health inform the House as to:—(a) The number of children born with major health problems or physical defects considered to be the result of a lack of vaccination for German Measles over each of the last 5 years. (b) The number of citizens in Ontario who have not been adequately protected by vaccination for measles and rubella. (c) Whether there is any evidence of a more severe reaction to rubella or measles in any particular community or any immigrant group and whether there are more people not protected in any particular ethnic community. (d) Does the Ministry have any evidence which would indicate an increased rate of birth defects following an increased incidence of rubella. (e) What steps are being taken to increase the vaccination rate against rubella and measles. *Tabled May 25th, 1979.*
201. *Mr. Mackenzie*—Enquiry of the Ministry—1. Will the Minister of Health inform the House of the number of Inspectors—Regular, Fire, Environmental and Dietary—responsible for Nursing Homes in Ontario at the present time. 2. The number of Inspectors employed as of January 1, 1979, June 1, 1978, January 1, 1978, January 1, 1977, January 1, 1976 and January 1, 1975. 3. The placement of the Inspectors by Regional offices during these periods and the areas covered by each Regional office. 4. Have there been any instances when an Inspector has called ahead of time before conducting an inspection of a Nursing Home. *Tabled May 25th, 1979.*

202. *Mr. Cooke*—Enquiry of the Ministry—Would the Minister of Correctional Services please table the following: (i) the number of inmates that remained in Windsor, London, Hamilton, Ottawa and Toronto East detention centres for more than 2 weeks since January 1977; (ii) the length of time each of the inmates did remain in the above-mentioned centres, exceeding 2 weeks. *Tabled May 28th, 1979.*
203. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education clarify its position on access of members of the legislature to the reports submitted to the Ministry by elected local school boards. Can members of the legislature and their staffs have *immediate* access to these reports, particularly the annual June and September board reports, required by the Ministry. If for any reason the Ministry imposes restrictions on access to these documents, will the Ministry explain (a) the reason for the restrictions, (b) the procedure for having these restrictions waived. *Tabled May 28th, 1979.*
204. *Mr. Conway*—Enquiry of the Ministry—Will the Minister of Transportation and Communications provide a list of all PCV Class 'R' licences granted in Region 4 since September 1, 1978 to the present date. *Tabled May 28th, 1979.*

16. *Mr. Makarchuk*—Resolution—That in the opinion of this House legislation should be introduced by the Government of Ontario to provide financial recompense to Canadian businesses when the provincial government or institutions which receive more than 50% of their funding from the public do not purchase, goods, food, or services which are available from Canadian sources and which are no more than 10% more expensive than similar goods, foods or services available from non-Canadian sources.
  
17. *Mr. Hall*—Resolution—That, in the opinion of this House, the Government should follow a policy of minimum tax and markup on Ontario wines made from Ontario-grown grapes, to encourage a stable economy for the grape-

growing industry, in order to preserve unique agricultural lands. *To be debated May 31st, 1979.*

18. *Mr. Kerr*—Resolution—That, in the opinion of this House, the Government of Ontario should consider taking immediate steps to reduce the amount of waste being disposed of in sanitary landfill dump sites, and furthermore, the Government of Ontario should increase its assistance to municipalities and local government authorities in order to encourage the development and institution of alternative methods of waste disposal maximizing the opportunities for reclamation, recycling, and development of energy from waste. *To be debated June 7th, 1979.*
  19. *Mr. Handleman*—Resolution—That, in the opinion of this House, the Government of Ontario should consider the introduction of legislation requiring each governing body of a health discipline to which *The Health Disciplines Act, 1974* applies and the Ontario Hospitals Association to develop and adopt a patients' bill or rights codifying the rights of every patient who receives services from a practitioner of that health discipline or from a hospital that is a member of the Association. *To be debated June 7th, 1979.*

141. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not know or does he not agree that general hospitals cannot provide the specific kind of care or services that psychiatric hospitals can and do. That they attend upon and to different and distinct groups of patients in terms of length of care and the seriousness of the emotional disability. *Tabled April 19th, 1979. †††*
142. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health seriously contend that the Queen Street facility can or will into the future meet the projected increasing demands for hospitalization for the mentally ill as is documented in the McKinsey Report and as set out in the OPSEU brief which points out a deficiency of beds almost before you begin. *Tabled April 19th, 1979. †††*
143. *Mr. Lawlor*—Enquiry of the Ministry—What about the Day Care and particularly the out-patients services at Lakeshore. Does the Ministry of Health seriously pretend that the present needs, much more the future requirements, of these people will begin to be met. *Tabled April 19th, 1979. †††*
144. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not recognize on the basis of your own statistics that a new hospital will be necessary, no matter what, within a foreseeable time; and at a very much greater capital cost (including the acquirement of land) than as recommended in the Role Study. *Tabled April 19th, 1979. †††*
145. *Mr. Lawlor*—Enquiry of the Ministry—How can the Ministry of Health possibly close the Special Observation Unit which attends to patients under Lieutenant-Governor's warrants. *Tabled April 19th, 1979. †††*

146. *Mr. Lawlor*—Enquiry of the Ministry—What is the Ministry of Health thinking about in removing the Dialysis Unit to Whitby when the patients are located at the other end of the world. *Tabled April 19th, 1979.*†††
147. *Mr. Lawlor*—Enquiry of the Ministry—Since it was found impossible over a two-year or greater period to find a location for the Child and Adolescent Care Unit and that institution will remain on the grounds, what basis is there for a belief that the numerous other units can be accommodated elsewhere in the Lakeshore area. Where. And, in particular, the present valued and necessary Alcoholic program. *Tabled April 19th, 1979.*†††
148. *Mr. Lawlor*—Enquiry of the Ministry—What disposition does the Minister of Health intend to make of that building which was financed and constructed by the volunteers, who have been such a valuable asset to this hospital. *Tabled April 19th, 1979.*†††
149. *Mr. Lawlor*—Enquiry of the Ministry—Cannot some use be found by the Ministry of Health for the workshops and rehabilitation equipment and facilities fairly recently erected on the premises at considerable cost. *Tabled April 19th, 1979.*†††
150. *Mr. Lawlor*—Enquiry of the Ministry—In short, and as constantly new questions arise, does the Minister of Health not realize or even acknowledge that he is in the process of making a gross and irreparable blunder which his Government will soon learn to regret, in his unplanned and ill-considered move to close this facility against the best advice of his own hired consultants (\$120,000 worth) and the numerous, most directly involved social agencies and individuals. *Tabled April 19th, 1979.*†††
151. *Mr. Lawlor*—Enquiry of the Ministry—Is the Minister of Health not now prepared to reconsider the closing of Lakeshore Psychiatric Hospital on the basis of the numerous observations and comments made at public meetings, by way of correspondence, and by briefs submitted particularly by the Ontario Public Service Employees Union. *Tabled April 19th, 1979.*†††
152. *Mr. Lawlor*—Enquiry of the Ministry—Since I am often awakened at 3.00 a.m. in the morning by someone calling about a problem, and this has been known to happen to many other Members of the Ontario Legislature, does the Minister of Health really feel that such a disturbance of his sleep constitutes adequate grounds for closing the institution, as he intimates by his repeated, soulful reference to this matter. And in particular, does a fire arising out of actions of a patient in the Special Observation Unit so constitute any or adequate grounds. *Tabled April 19th, 1979.*†††
153. *Mr. Lawlor*—Enquiry of the Ministry—Will the Minister of Health not give good consideration to the perfectly reasonable suggestion made by the Member from Lakeshore that a planned, phased approach to this whole problem would be the best solution for all concerned. That is to say, that a new psychiatric hospital having, say, about 150 beds at its completion, be gradually con-

structed over a period of five to ten years and that at each stage of completion, the more serious patients be moved from the older quarters into the new thereby retaining the full complement of present in- and out-patient services without disruption and located on such portion of these extensive grounds as would free the balance for such approved community purposes as would meet the needs of the area. *Tabled April 19th, 1979.†††*

181. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education table for each School Board in Ontario for 1977, 1978, 1979, using interim and estimate figures where necessary: 1. the average daily enrollment; 2. per pupil grant ceiling; 3. per pupil expenditures; 4. total expenditure; 5. total local taxation; 6. total provincial assistance; 7. rate of grant on recognized ordinary expenditures; 8. provincial contribution as a percentage of the total local school board expenditures; 9. rate of grant for French language instruction; 10. decline or increase in number of students from previous year; 11. decline or increase in number of full time equivalent teachers from previous year; 12. number of self-contained special education classes; 13. number of full time equivalent teachers of special education classes; 14. number of heritage language classes; 15. number of students studying heritage languages; 16. number of pupils whose first language is neither English nor French; 17. number of self-contained classes for pupils whose first language is neither English nor French; 18. number of full-time equivalent teachers of classes for pupils whose first language is neither English nor French. *Tabled May 15th, 1979. Interim Answer May 28th, 1979. Approximate date information available June 7th, 1979.*
182. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education act upon the request of the Community Association for Unionville Secondary Education (CAUSE) to provide a new high school in Unionville. Will the Minister review the development applications which provide for approximately 3,000 new homes in Unionville, 2,000 in Risebrough and 3,300 in Markham, the result of which will not only overcrowd both Markham District High School and Thornlea High School, but would call for the immediate construction of a secondary school in the Unionville area. Will the Minister immediately undertake to satisfy the need of the secondary school students in Unionville to be educated in their own community. *Tabled May 16th, 1979. Interim Answer May 29th, 1979. Approximate date information available June 8th, 1979.*
183. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education act upon the request of the Risebrough Community Association in the community of Markham, Ontario, to provide new and adequate school facilities to meet the growing educational needs in that area. Will the Minister inform herself of the situation which now exists, in that projected figures indicate that by September 1, 1979, 1000 units of the 1130 units being built will be occupied producing approximately 480 students seeking educational facilities. Will the Minister review the present policy which requires kindergarten children from this area to be bused to a school in Richmond Hill and which also sees children in grades one to five being bused to a small school where gymnastic and library facilities are non-existent. Will the Minister immediately review and provide adequate facilities in this community to meet the educational demands which will be in existence by September 1, 1979. *Tabled May 16th, 1979. Interim Answer May 29th, 1979. Approximate date information available June 8th, 1979.*
184. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education cause an investigation to be made into the overcrowding conditions which exist at the German Mills Public School in Markham. Will the Minister explain the policy of the Ministry which appears to prefer the busing of pupils to distant empty

classrooms in the Regional Municipality of York rather than construct new facilities or add on to existing facilities where circumstances warrant. Will the Minister review the policy of the Ministry which requires that prior to the building of a school, there exist sufficient number of children in the area to equal 80% of the projected capacity of the said school and apply that formula to the building of a school on the Flowerdale site in the Town of Markham, in order to accommodate the excess enrolment in the German Mills Public School which is equal to 123% of that school's designed capacity. Will the Minister review the immediate need for a new school on the Flowerdale site in the light of projected figures over the next five years which indicate that school-age children in the area will increase to approximately 900 and which figure does not take into account the fact that there is presently before the Ontario Municipal Board an application by a developer to build in the area an additional 190 townhouses. If this project is allowed to proceed the projected figures indicate that school enrolment will not decline until 1995. Will the Minister initiate a policy which would provide architecturally acceptable but movable school buildings to accommodate the shifting need of the school population. How does the Minister reconcile the Ministry's policy of fiscal restraint which includes busing and which dictates against the welfare of children, with the more important need of providing adequate facilities so that the educational and social needs of children may be properly met in their own community environment. Will the Minister therefore satisfy the needs of the children in the German Mills area of Markham and build a second school on the Flowerdale site. *Tabled May 16th, 1979. Interim Answer May 29th, 1979. Approximate date information available June 8th, 1979.*

185. *Answered May 29th, 1979.*

186. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education indicate how many new special education teachers it will require in order to implement the special education program it announced on December 15, 1978 and for which it did not provide special funding in the 1979 general legislative grants. Will the Ministry indicate what efforts it has made and will be making in order to increase the number of special education teachers available and finance the expansion of special education in Ontario. Will the Ministry also indicate its estimate of the number of children requiring special education, but not receiving it. *Tabled May 17th, 1979.*

187. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education calculate the cash value for each school board in Ontario of the language of instruction (ESL) weighting factor in 1975, 1978 and 1979 estimated. Will the Ministry also calculate the per language of instruction pupil value of this weighting factor for each school board. *Tabled May 17th, 1979.*

188. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education calculate the cash value for each school board in Ontario of the compensatory education weighting factor in 1975; 1978 and 1979 estimated. Will the Ministry also calculate the per compensatory education pupil value of this weighting factor for each school board. *Tabled May 17th, 1979.*

189. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education calculate the cash value for each school board in Ontario of the occupations weighting factor in 1975, 1978 and 1979 estimated. Will the Ministry also

calculate the per occupations pupil value of this weighting factor for each school board. *Tabled May 17th, 1979.*

190. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education calculate the cash value for each school board in Ontario of the special education weighting factor in 1975, 1978 and 1979 estimated. Will the Ministry also calculate the per special education pupil value of this weighting factor for each school board. *Tabled May 17th, 1979.*
191. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education expand on its reply to written question No. 116, subsection 4 (d). Specifically, what percentage of Grade IX students reach and complete Grade XIII in each Ontario School Board. What percentage of Grade 1 students reach and complete grade XIII in this province. In each case please provide a male/female breakdown. *Tabled May 17th, 1979.*
192. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education indicate what efforts beyond the funding of the Commission of Declining Enrollment it has undertaken to assist local school boards to deal with declining enrollment. Will the Ministry indicate the cash value to local school boards of these efforts. Secondly, in view of the recent reports that the Premier has stated that the Province has not lessened its commitment to education even though the proportion of the provincial budget allocated to education has declined from fiscal 1975/76 to fiscal 1979/80, would it be accurate to calculate the Province's savings from declining enrollment by calculating what the Province would have contributed had it maintained funding at the level existing in fiscal 1975/76 and subtracting the present level. If this is not the case, will the Ministry indicate how much money the Ministry has saved as a result of declining enrollment and what benefits accrue to local school boards as a result of declining enrollment. *Tabled May 17th, 1979.*
193. *Mr. McClellan*—Enquiry of the Ministry—What were the reasons which led Family Court Judge Goulard to order, in December 1978 the return of the four surviving Paquette children to the custody of their parents. What, if any, was the role of the Official Guardian in that proceeding. What is the basis of the Official Guardian's stated opinion that the Paquette children should return to their parents' custody. Why has it taken 7 months to schedule the appeal by the Ottawa Children's Aid Society against the decision of Judge Goulard. *Tabled May 23rd, 1979.*
194. *Mr. McClellan*—Enquiry of the Ministry—Why were the four surviving Paquette children removed from foster homes in September 1978 and placed in the Ottawa Children's Aid Society Assessment Home. Why have they been kept there from that time until the present. *Tabled May 23rd, 1979.*
195. *Mr. McClellan*—Enquiry of the Ministry—What are the details of the proposals to provide employment incentives to recipients of Family Benefits Allowances which the Ministry submitted to the Federal Government for cost-sharing under The Canada Assistance Plan. *Tabled May 23rd, 1979.*
196. *Mr. Stong*—Enquiry of the Ministry—In line with the recent assurance of the Minister of the Environment in letters to the Towns of Richmond Hill and Markham, wherein the Minister guaranteed that all further hydro projects in

those areas will receive "the full treatment" provided by the Environmental Assessment Act, would the Minister now cause to be conducted an environmental assessment hearing into that part of the 550 KV Nanticoke to Pickering transmission line which is planned for installation east of Highway #48: (a) in an area not yet approved by Cabinet; (b) in an area the land of which has not yet been completely surveyed for the new line, much less acquired; (c) in an area where no hearings have been held to allow input from the people and where the people were deprived by virtue of the decision in the Chadwill Coal case, from giving evidence to hearing officers who conducted an enquiry into the Parkway Belt West and thus in fact held sham hearings. *Tabled May 24th, 1979.*

197. *Mr. Cassidy*—Enquiry of the Ministry—Would the Ministry of Health advise how many persons are employed as operators of X-ray equipment in Ontario. Of these, how many are Registered Radiological Technicians under the Radiological Technicians Act. *Tabled May 24th, 1979.*
198. *Mr. Cassidy*—Enquiry of the Ministry—Would the Ministry of Health advise how many persons are employed as operators of X-ray equipment in public hospitals in Ontario. Of these, how many are Registered Radiological Technicians under the Radiological Technicians Act. *Tabled May 24th, 1979.*
199. *Mr. Cassidy*—Enquiry of the Ministry—How many persons are employed as operators of X-ray equipment in chest clinics operated under the Ministry of Health. Of these, how many are Registered Radiological Technicians under the Radiological Technicians Act. *Tabled May 24th, 1979.*
200. *Mr. Mackenzie*—Enquiry of the Ministry—Will the Minister of Health inform the House as to:—(a) The number of children born with major health problems or physical defects considered to be the result of a lack of vaccination for German Measles over each of the last 5 years. (b) The number of citizens in Ontario who have not been adequately protected by vaccination for measles and rubella. (c) Whether there is any evidence of a more severe reaction to rubella or measles in any particular community or any immigrant group and whether there are more people not protected in any particular ethnic community. (d) Does the Ministry have any evidence which would indicate an increased rate of birth defects following an increased incidence of rubella. (e) What steps are being taken to increase the vaccination rate against rubella and measles. *Tabled May 25th, 1979.*
201. *Mr. Mackenzie*—Enquiry of the Ministry—1. Will the Minister of Health inform the House of the number of Inspectors—Regular, Fire, Environmental and Dietary—responsible for Nursing Homes in Ontario at the present time. 2. The number of Inspectors employed as of January 1, 1979, June 1, 1978, January 1, 1978, January 1, 1977, January 1, 1976 and January 1, 1975. 3. The placement of the Inspectors by Regional offices during these periods and the areas covered by each Regional office. 4. Have there been any instances when an Inspector has called ahead of time before conducting an inspection of a Nursing Home. *Tabled May 25th, 1979.*

202. *Mr. Cooke*—Enquiry of the Ministry—Would the Minister of Correctional Services please table the following: (i) the number of inmates that remained in Windsor, London, Hamilton, Ottawa and Toronto East detention centres for more than 2 weeks since January 1977; (ii) the length of time each of the inmates did remain in the above-mentioned centres, exceeding 2 weeks. *Tabled May 28th, 1979.*
203. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education clarify its position on access of members of the legislature to the reports submitted to the Ministry by elected local school boards. Can members of the legislature and their staffs have *immediate* access to these reports, particularly the annual June and September board reports, required by the Ministry. If for any reason the Ministry imposes restrictions on access to these documents, will the Ministry explain (a) the reason for the restrictions, (b) the procedure for having these restrictions waived. *Tabled May 28th, 1979.*
204. *Mr. Conway*—Enquiry of the Ministry—Will the Minister of Transportation and Communications provide a list of all PCV Class 'R' licences granted in Region 4 since September 1, 1978 to the present date. *Tabled May 28th, 1979.*

138. *Answered May 3rd, 1979.*
139. and 140. *Answered May 1st, 1979.*
141. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not know or does he not agree that general hospitals cannot provide the specific kind of care or services that psychiatric hospitals can and do. That they attend upon and to different and distinct groups of patients in terms of length of care and the seriousness of the emotional disability. *Tabled April 19th, 1979.†††*
142. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health seriously contend that the Queen Street facility can or will into the future meet the projected increasing demands for hospitalization for the mentally ill as is documented in the McKinsey Report and as set out in the OPSEU brief which points out a deficiency of beds almost before you begin. *Tabled April 19th, 1979.†††*
143. *Mr. Lawlor*—Enquiry of the Ministry—What about the Day Care and particularly the out-patients services at Lakeshore. Does the Ministry of Health seriously pretend that the present needs, much more the future requirements, of these people will begin to be met. *Tabled April 19th, 1979.†††*
144. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not recognize on the basis of your own statistics that a new hospital will be necessary, no matter what, within a foreseeable time; and at a very much greater capital cost (including the acquirement of land) than as recommended in the Role Study. *Tabled April 19th, 1979.†††*
145. *Mr. Lawlor*—Enquiry of the Ministry—How can the Ministry of Health possibly close the Special Observation Unit which attends to patients under Lieutenant-Governor's warrants. *Tabled April 19th, 1979.†††*

---

†††Interim Answer May 3rd, 1979. Approximate date information available June 7th, 1979.

146. *Mr. Lawlor*—Enquiry of the Ministry—What is the Ministry of Health thinking about in removing the Dialysis Unit to Whitby when the patients are located at the other end of the world. *Tabled April 19th, 1979.*\*\*\*
147. *Mr. Lawlor*—Enquiry of the Ministry—Since it was found impossible over a two-year or greater period to find a location for the Child and Adolescent Care Unit and that institution will remain on the grounds, what basis is there for a belief that the numerous other units can be accommodated elsewhere in the Lakeshore area. Where. And, in particular, the present valued and necessary Alcoholic program. *Tabled April 19th, 1979.*†††
148. *Mr. Lawlor*—Enquiry of the Ministry—What disposition does the Minister of Health intend to make of that building which was financed and constructed by the volunteers, who have been such a valuable asset to this hospital. *Tabled April 19th, 1979.*
149. *Mr. Lawlor*—Enquiry of the Ministry—Cannot some use be found by the Ministry of Health for the workshops and rehabilitation equipment and facilities fairly recently erected on the premises at considerable cost. *Tabled April 19th, 1979.*
150. *Mr. Lawlor*—Enquiry of the Ministry—In short, and as constantly new questions arise, does the Minister of Health not realize or even acknowledge that he is in the process of making a gross and irreparable blunder which his Government will soon learn to regret, in his unplanned and ill-considered move to close this facility against the best advice of his own hired consultants (\$120,000 worth) and the numerous, most directly involved social agencies and individuals. *Tabled April 19th, 1979.*\*\*\*
151. *Mr. Lawlor*—Enquiry of the Ministry—Is the Minister of Health not now prepared to reconsider the closing of Lakeshore Psychiatric Hospital on the basis of the numerous observations and comments made at public meetings, by way of correspondence, and by briefs submitted particularly by the Ontario Public Service Employees Union. *Tabled April 19th, 1979.*\*\*\*
152. *Mr. Lawlor*—Enquiry of the Ministry—Since I am often awakened at 3.00 a.m. in the morning by someone calling about a problem, and this has been known to happen to many other Members of the Ontario Legislature, does the Minister of Health really feel that such a disturbance of his sleep constitutes adequate grounds for closing the institution, as he intimates by his repeated, soulful reference to this matter. And in particular, does a fire arising out of actions of a patient in the Special Observation Unit so constitute any or adequate grounds. *Tabled April 19th, 1979.*\*\*\*
153. *Mr. Lawlor*—Enquiry of the Ministry—Will the Minister of Health not give good consideration to the perfectly reasonable suggestion made by the Member from Lakeshore that a planned, phased approach to this whole problem would be the best solution for all concerned. That is to say, that a new psychiatric hospital having, say, about 150 beds at its completion, be gradually con-

structed over a period of five to ten years and that at each stage of completion, the more serious patients be moved from the older quarters into the new thereby retaining the full complement of present in- and out-patient services without disruption and located on such portion of these extensive grounds as would free the balance for such approved community purposes as would meet the needs of the area. *Tabled April 19th, 1979. †††*

164. and 165. *Answered May 10th, 1979.*

166. *Mr. Van Horne*—Enquiry of the Ministry—Will the Ministry please indicate which Cabinet ministers and parliamentary assistants travelled outside of Ontario on government business in 1978-79. Please indicate the name of the province or other country visited, the length of the visit, the purpose of the visit, the number of civil servants (if any) accompanying the Cabinet minister or parliamentary assistant, the accommodation cost and travel cost for the Cabinet minister or parliamentary assistant and the accommodation cost and travel cost for the civil servants (if any) who accompanied the Cabinet minister or parliamentary assistant. *Tabled April 26th, 1979. Interim Answer May 7th, 1979. Approximate date information available July 15th, 1979.*

167. and 168. *Answered May 10th, 1979.*

169. and 170. *Answered May 14th, 1979.*

171. and 172. *Answered May 17th, 1979.*

173. *Mr. Cassidy*—Enquiry of the Ministry—Would the Minister of Health table information on the number of medical specialists by county across Ontario. Would the Minister state the total number of specialists practising in each county, and would the Minister indicate how many of these specialists are still in OHIP. Would the Minister further indicate how many anaesthetists, obstetricians and gynecologists, surgeons, psychiatrists, and paediatricians there are in total in each county, and how many are still practising within OHIP. †††Interim Answer May 3rd, 1979. Approximate date information available June 7th, 1979.

181. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education table for each School Board in Ontario for 1977, 1978, 1979, using interim and estimate figures where necessary: 1. the average daily enrollment; 2. per pupil grant ceiling; 3. per pupil expenditures; 4. total expenditure; 5. total local taxation; 6. total provincial assistance; 7. rate of grant on recognized ordinary expenditures; 8. provincial contribution as a percentage of the total local school board expenditures; 9. rate of grant for French language instruction; 10. decline or increase in number of students from previous year; 11. decline or increase in number of full time equivalent teachers from previous year; 12. number of self-contained special education classes; 13. number of full time equivalent teachers of special education classes; 14. number of heritage language classes; 15. number of students studying heritage languages; 16. number of pupils whose first language is neither English nor French; 17. number of self-contained classes for pupils whose first language is neither English nor French; 18. number of full-time equivalent teachers of classes for pupils whose first language is neither English nor French. *Tabled May 15th, 1979. Interim Answer May 28th, 1979. Approximate date information available June 7th, 1979.*
182. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education act upon the request of the Community Association for Unionville Secondary Education (CAUSE) to provide a new high school in Unionville. Will the Minister review the development applications which provide for approximately 3,000 new homes in Unionville, 2,000 in Risebrough and 3,300 in Markham, the result of which will not only overcrowd both Markham District High School and Thornlea High School, but would call for the immediate construction of a secondary school in the Unionville area. Will the Minister immediately undertake to satisfy the need of the secondary school students in Unionville to be educated in their own community. *Tabled May 16th, 1979. Interim Answer May 29th, 1979. Approximate date information available June 8th, 1979.*
183. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education act upon the request of the Risebrough Community Association in the community of Markham, Ontario, to provide new and adequate school facilities to meet the growing educational needs in that area. Will the Minister inform herself of the situation which now exists, in that projected figures indicate that by September 1, 1979, 1000 units of the 1130 units being built will be occupied producing approximately 480 students seeking educational facilities. Will the Minister review the present policy which requires kindergarten children from this area to be bused to a school in Richmond Hill and which also sees children in grades one to five being bused to a small school where gymnastic and library facilities are non-existent. Will the Minister immediately review and provide adequate facilities in this community to meet the educational demands which will be in existence by September 1, 1979. *Tabled May 16th, 1979. Interim Answer May 29th, 1979. Approximate date information available June 8th, 1979.*
184. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education cause an investigation to be made into the overcrowding conditions which exist at the German Mills Public School in Markham. Will the Minister explain the policy of the Ministry which appears to prefer the busing of pupils to distant empty

classrooms in the Regional Municipality of York rather than construct new facilities or add on to existing facilities where circumstances warrant. Will the Minister review the policy of the Ministry which requires that prior to the building of a school, there exist sufficient number of children in the area to equal 80% of the projected capacity of the said school and apply that formula to the building of a school on the Flowerdale site in the Town of Markham, in order to accommodate the excess enrolment in the German Mills Public School which is equal to 123% of that school's designed capacity. Will the Minister review the immediate need for a new school on the Flowerdale site in the light of projected figures over the next five years which indicate that school-age children in the area will increase to approximately 900 and which figure does not take into account the fact that there is presently before the Ontario Municipal Board an application by a developer to build in the area an additional 190 townhouses. If this project is allowed to proceed the projected figures indicate that school enrolment will not decline until 1995. Will the Minister initiate a policy which would provide architecturally acceptable but movable school buildings to accommodate the shifting need of the school population. How does the Minister reconcile the Ministry's policy of fiscal restraint which includes busing and which dictates against the welfare of children, with the more important need of providing adequate facilities so that the educational and social needs of children may be properly met in their own community environment. Will the Minister therefore satisfy the needs of the children in the German Mills area of Markham and build a second school on the Flowerdale site. *Tabled May 16th, 1979. Interim Answer May 29th, 1979. Approximate date information available June 8th, 1979.*

186 to 191 inclusive. *Answered May 31st, 1979.*

192. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education indicate what efforts beyond the funding of the Commission of Declining Enrollment it has undertaken to assist local school boards to deal with declining enrollment. Will the Ministry indicate the cash value to local school boards of these efforts. Secondly, in view of the recent reports that the Premier has stated that the Province has not lessened its commitment to education even though the proportion of the provincial budget allocated to education has declined from fiscal 1975/76 to fiscal 1979/80, would it be accurate to calculate the Province's savings from declining enrollment by calculating what the Province would have contributed had it maintained funding at the level existing in fiscal 1975/76 and subtracting the present level. If this is not the case, will the Ministry indicate how much money the Ministry has saved as a result of declining enrollment and what benefits accrue to local school boards as a result of declining enrollment. *Tabled May 17th, 1979. Interim Answer May 31st, 1979. Approximate date information available June 8th, 1979.*

193. *Mr. McClellan*—Enquiry of the Ministry—What were the reasons which led Family Court Judge Goulard to order, in December 1978 the return of the four surviving Paquette children to the custody of their parents. What, if any, was the role of the Official Guardian in that proceeding. What is the basis of the Official Guardian's stated opinion that the Paquette children should return to their parents' custody. Why has it taken 7 months to schedule the appeal by the

Ottawa Children's Aid Society against the decision of Judge Goulard. *Tabled May 23rd, 1979.*

194. *Mr. McClellan*—Enquiry of the Ministry—Why were the four surviving Paquette children removed from foster homes in September 1978 and placed in the Ottawa Children's Aid Society Assessment Home. Why have they been kept there from that time until the present. *Tabled May 23rd, 1979.*
195. *Mr. McClellan*—Enquiry of the Ministry—What are the details of the proposals to provide employment incentives to recipients of Family Benefits Allowances which the Ministry submitted to the Federal Government for cost-sharing under The Canada Assistance Plan. *Tabled May 23rd, 1979.*
196. *Mr. Stong*—Enquiry of the Ministry—In line with the recent assurance of the Minister of the Environment in letters to the Towns of Richmond Hill and Markham, wherein the Minister guaranteed that all further hydro projects in those areas will receive "the full treatment" provided by the Environmental Assessment Act, would the Minister now cause to be conducted an environmental assessment hearing into that part of the 550 KV Nanticoke to Pickering transmission line which is planned for installation east of Highway #48: (a) in an area not yet approved by Cabinet; (b) in an area the land of which has not yet been completely surveyed for the new line, much less acquired; (c) in an area where no hearings have been held to allow input from the people and where the people were deprived by virtue of the decision in the Chadwill Coal case, from giving evidence to hearing officers who conducted an enquiry into the Parkway Belt West and thus in fact held sham hearings. *Tabled May 24th, 1979.*
197. *Mr. Cassidy*—Enquiry of the Ministry—Would the Ministry of Health advise how many persons are employed as operators of X-ray equipment in Ontario. Of these, how many are Registered Radiological Technicians under the Radiological Technicians Act. *Tabled May 24th, 1979.*
198. *Mr. Cassidy*—Enquiry of the Ministry—Would the Ministry of Health advise how many persons are employed as operators of X-ray equipment in public hospitals in Ontario. Of these, how many are Registered Radiological Technicians under the Radiological Technicians Act. *Tabled May 24th, 1979.*
199. *Mr. Cassidy*—Enquiry of the Ministry—How many persons are employed as operators of X-ray equipment in chest clinics operated under the Ministry of Health. Of these, how many are Registered Radiological Technicians under the Radiological Technicians Act. *Tabled May 24th, 1979.*
200. *Mr. Mackenzie*—Enquiry of the Ministry—Will the Minister of Health inform the House as to:—(a) The number of children born with major health problems or physical defects considered to be the result of a lack of vaccination for German Measles over each of the last 5 years. (b) The number of citizens in Ontario who have not been adequately protected by vaccination for measles and rubella. (c) Whether there is any evidence of a more severe reaction to rubella or measles in any particular community or any immigrant group and whether there are more people not protected in any particular ethnic com-

munity. (d) Does the Ministry have any evidence which would indicate an increased rate of birth defects following an increased incidence of rubella. (e) What steps are being taken to increase the vaccination rate against rubella and measles. *Tabled May 25th, 1979.*

201. *Mr. Mackenzie*—Enquiry of the Ministry—1. Will the Minister of Health inform the House of the number of Inspectors—Regular, Fire, Environmental and Dietary—responsible for Nursing Homes in Ontario at the present time. 2. 202. *Mr. Cooke*—Enquiry of the Ministry—Would the Minister of Correctional Services please table the following: (i) the number of inmates that remained in Windsor, London, Hamilton, Ottawa and Toronto East detention centres for more than 2 weeks since January 1977; (ii) the length of time each of the inmates did remain in the above-mentioned centres, exceeding 2 weeks. *Tabled May 28th, 1979.*
203. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education clarify its position on access of members of the legislature to the reports submitted to the Ministry by elected local school boards. Can members of the legislature and their staffs have *immediate* access to these reports, particularly the annual June and September board reports, required by the Ministry. If for any reason the Ministry imposes restrictions on access to these documents, will the Ministry explain (a) the reason for the restrictions, (b) the procedure for having these restrictions waived. *Tabled May 28th, 1979.*
204. *Mr. Conway*—Enquiry of the Ministry—Will the Minister of Transportation and Communications provide a list of all PCV Class 'R' licences granted in Region 4 since September 1, 1978 to the present date. *Tabled May 28th, 1979.*
205. *Mr. Breaugh*—Enquiry of the Ministry—Further to my question on the Order Paper, #45, would the Minister of Health state the actual number of patients who received a total of 825 electroshock treatments in 1978. Would the Minister state the number of women and men who received these treatments, and what was the average number of treatments received by sex and in total. *Tabled May 29th, 1979.*
206. *Mr. Conway*—Enquiry of the Ministry—Will the Minister of Health advise the House as to which sections of Bill 19, An Act to amend the Mental Health Act, are not proclaimed; in each instance, will he give: 1. a detailed explanation as to why each unproclaimed section has not been proclaimed, and 2. the approximate date he expects each unproclaimed section to be proclaimed. *Tabled May 29th, 1979.*

208. *Mr. Duksza*—Enquiry of the Ministry—Would the Minister of Housing indicate whether there are any plans or whether there has been any discussion of such within the Ontario Housing Corporation to change the \$75 rent assessment for OHC tenants whose children are working. Are there any plans to assess such tenants for 25% of their children's earnings. Is any other percentage or scheme being considered. *Tabled May 31st, 1979.*
209. *Mr. Duksza*—Enquiry of the Ministry—What plans does the Minister of Housing have under consideration to alter or terminate the role of the Ministry of Housing in the development and operation of publicly assisted housing in Ontario. What studies does the Minister have available to him or in preparation by his Ministry to identify the continuing need for publicly assisted housing in Ontario. *Tabled May 31st, 1979.*

How many were funded and what was the total value paid by municipality. How many requests were not funded and what was the total value. What studies has the Ministry made of the need and demand for such OHRP grants and will the Minister table any such studies which he has. What studies have been made of the adequacy of \$20,000,000 being allotted for this program, and will the Minister table any such studies. *Tabled May 31st, 1979.*
212. *Mr. Duksza*—Enquiry of the Ministry—Will the Minister of Transportation and Communication table the detailed traffic study of the impact of widening Weston Road and its implications for traffic south of St. Clair Avenue, a study promised in the technical report describing various alternative alignments in 1977. (P. B-9, Northwest Metro Arterial Street—Eglinton Avenue to St. Clair Avenue: Stage II—Route alternatives—Technical Summary—Ministry of Transportation and Communications—March 1977). If such a study has not yet been completed, will the Minister indicate why his Ministry is considering building a new road connecting Weston Road and St. Clair Avenue by extending Maybank Avenue and the Lambton Spriar Bridge without such a traffic impact study. Will the Minister indicate if it is the policy of the Ministry to extend major highways such as the 400 into residential neighbourhoods without doing a traffic study to assess traffic impact and costs on effected areas. *Tabled May 31st, 1979.*
213. *Mr. Lawlor*—Enquiry of the Ministry—Would the Minister of Health table all reports which he has received from Dr. Lynes' Out-Patient Transfer Committee regarding the closing of Lakeshore Psychiatric Hospital. *Tabled May 31st, 1979.*

141. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not know or does he not agree that general hospitals cannot provide the specific kind of care or services that psychiatric hospitals can and do. That they attend upon and to different and distinct groups of patients in terms of length of care and the seriousness of the emotional disability. *Tabled April 19th, 1979.*†††

142. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health seriously contend that the Queen Street facility can or will into the future meet the projected increasing demands for hospitalization for the mentally ill as is documented in the McKinsey Report and as set out in the OPSEU brief which points out a deficiency of beds almost before you begin. *Tabled April 19th, 1979.*†††

143. *Mr. Lawlor*—Enquiry of the Ministry—What about the Day Care and particularly the out-patients services at Lakeshore. Does the Ministry of Health seriously pretend that the present needs, much more the future requirements, of these people will begin to be met. *Tabled April 19th, 1979.*†††

144. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not recognize on the basis of your own statistics that a new hospital will be necessary, no matter what, within a foreseeable time; and at a very much greater capital cost (including the acquirement of land) than as recommended in the Role Study. *Tabled April 19th, 1979.*†††

145. *Mr. Lawlor*—Enquiry of the Ministry—How can the Ministry of Health possibly close the Special Observation Unit which attends to patients under Lieutenant-Governor's warrants. *Tabled April 19th, 1979.*†††

146. *Mr. Lawlor*—Enquiry of the Ministry—What is the Ministry of Health thinking about in removing the Dialysis Unit to Whitby when the patients are located at the other end of the world. *Tabled April 19th, 1979.*†††
147. *Mr. Lawlor*—Enquiry of the Ministry—Since it was found impossible over a two-year or greater period to find a location for the Child and Adolescent Care Unit and that institution will remain on the grounds, what basis is there for a belief that the numerous other units can be accommodated elsewhere in the Lakeshore area. Where. And, in particular, the present valued and necessary Alcoholic program. *Tabled April 19th, 1979.*†††
148. *Mr. Lawlor*—Enquiry of the Ministry—What disposition does the Minister of Health intend to make of that building which was financed and constructed by the volunteers, who have been such a valuable asset to this hospital. *Tabled April 19th, 1979.*
149. *Mr. Lawlor*—Enquiry of the Ministry—Cannot some use be found by the Ministry of Health for the workshops and rehabilitation equipment and facilities fairly recently erected on the premises at considerable cost. *Tabled April 19th, 1979.*
150. *Mr. Lawlor*—Enquiry of the Ministry—In short, and as constantly new questions arise, does the Minister of Health not realize or even acknowledge that he is in the process of making a gross and irreparable blunder which his Government will soon learn to regret, in his unplanned and ill-considered move to close this facility against the best advice of his own hired consultants (\$120,000 worth) and the numerous, most directly involved social agencies and individuals. *Tabled April 19th, 1979.*†††
151. *Mr. Lawlor*—Enquiry of the Ministry—Is the Minister of Health not now prepared to reconsider the closing of Lakeshore Psychiatric Hospital on the basis of the numerous observations and comments made at public meetings, by way of correspondence, and by briefs submitted particularly by the Ontario Public Service Employees Union. *Tabled April 19th, 1979.*†††
152. *Mr. Lawlor*—Enquiry of the Ministry—Since I am often awakened at 3.00 a.m. in the morning by someone calling about a problem, and this has been known to happen to many other Members of the Ontario Legislature, does the Minister of Health really feel that such a disturbance of his sleep constitutes adequate grounds for closing the institution, as he intimates by his repeated, soulful reference to this matter. And in particular, does a fire arising out of actions of a patient in the Special Observation Unit so constitute any or adequate grounds. *Tabled April 19th, 1979.*†††
153. *Mr. Lawlor*—Enquiry of the Ministry—Will the Minister of Health not give good consideration to the perfectly reasonable suggestion made by the Member from Lakeshore that a planned, phased approach to this whole problem would be the best solution for all concerned. That is to say, that a new psychiatric hospital having, say, about 150 beds at its completion, be gradually con-

structed over a period of five to ten years and that at each stage of completion, the more serious patients be moved from the older quarters into the new thereby retaining the full complement of present in- and out-patient services without disruption and located on such portion of these extensive grounds as would free the balance for such approved community purposes as would meet the needs of the area. *Tabled April 19th, 1979.*†††

173. *Mr. Cassidy*—Enquiry of the Ministry—Would the Minister of Health table information on the number of medical specialists by county across Ontario. Would the Minister state the total number of specialists practising in each county, and would the Minister indicate how many of these specialists are still in OHIP. Would the Minister further indicate how many anaesthetists, obstetricians and gynecologists, surgeons, psychiatrists, and paediatricians there are in total in each county, and how many are still practising within OHIP. Would the Minister provide this information as of March 31 1979, December 31 1978, September 30 1978, June 30 1978, March 31 1978. 181. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education table for each School Board in Ontario for 1977, 1978, 1979, using interim and estimate figures where necessary: 1. the average daily enrollment; 2. per pupil grant ceiling; 3. per pupil expenditures; 4. total expenditure; 5. total local taxation; 6. total provincial assistance; 7. rate of grant on recognized ordinary expenditures; 8. provincial contribution as a percentage of the total local school board expenditures; 9. rate of grant for French language instruction; 10. decline or increase in number of students from previous year; 11. decline or increase in number of full time equivalent teachers from previous year; 12. number of self-contained special education classes; 13. number of full time equivalent teachers of special education classes; 14. number of heritage language classes; 15. number of students studying heritage languages; 16. number of pupils whose first language is neither English nor French; 17. number of self-contained classes for pupils whose first language is neither English nor French; 18. number of full-time equivalent teachers of classes for pupils whose first language is neither English nor French. *Tabled May 15th, 1979. Interim Answer May 28th, 1979. Approximate date information available June 7th, 1979.*
182. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education act upon the request of the Community Association for Unionville Secondary Education (CAUSE) to provide a new high school in Unionville. Will the Minister review the development applications which provide for approximately 3,000 new homes in Unionville, 2,000 in Risebrough and 3,300 in Markham, the result of which will not only overcrowd both Markham District High School and Thornlea High School, but would call for the immediate construction of a secondary school in the Unionville area. Will the Minister immediately undertake to satisfy the need of the secondary school students in Unionville to be educated in their own community. *Tabled May 16th, 1979. Interim Answer May 29th, 1979. Approximate date information available June 8th, 1979.*
183. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education act upon the request of the Risebrough Community Association in the community of Markham, Ontario, to provide new and adequate school facilities to meet the growing educational needs in that area. Will the Minister inform herself of the situation which now exists, in that projected figures indicate that by September 1, 1979, 1000 units of the 1130 units being built will be occupied producing approximately 480 students seeking educational facilities. Will the Minister review the present policy which requires kindergarten children from this area to be bused to a school in Richmond Hill and which also sees children in grades one to five being bused to a small school where gymnastic and library facilities are non-existent. Will the Minister immediately review and provide adequate facilities in this community to meet the educational demands which will be in existence by September 1, 1979. *Tabled May 16th, 1979. Interim Answer May 29th, 1979. Approximate date information available June 8th, 1979.*
184. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education cause an investigation to be made into the overcrowding conditions which exist at the German Mills Public School in Markham. Will the Minister explain the policy of the Ministry which appears to prefer the busing of pupils to distant empty

classrooms in the Regional Municipality of York rather than construct new facilities or add on to existing facilities where circumstances warrant. Will the Minister review the policy of the Ministry which requires that prior to the building of a school, there exist sufficient number of children in the area to equal 80% of the projected capacity of the said school and apply that formula to the building of a school on the Flowerdale site in the Town of Markham, in order to accommodate the excess enrolment in the German Mills Public School which is equal to 123% of that school's designed capacity. Will the Minister review the immediate need for a new school on the Flowerdale site in the light of projected figures over the next five years which indicate that school-age children in the area will increase to approximately 900 and which figure does not take into account the fact that there is presently before the Ontario Municipal Board an application by a developer to build in the area an additional 190 townhouses. If this project is allowed to proceed the projected figures indicate that school enrolment will not decline until 1995. Will the Minister initiate a policy which would provide architecturally acceptable but movable school buildings to accommodate the shifting need of the school population. How does the Minister reconcile the Ministry's policy of fiscal restraint which includes busing and which dictates against the welfare of children, with the more important need of providing adequate facilities so that the educational and social needs of children may be properly met in their own community environment. Will the Minister therefore satisfy the needs of the children in the German Mills area of Markham and build a second school on the Flowerdale site. *Tabled May 16th, 1979. Interim Answer May 29th, 1979. Approximate date information available June 8th, 1979.*

192. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education indicate what efforts beyond the funding of the Commission of Declining Enrollment it has undertaken to assist local school boards to deal with declining enrollment. Will the Ministry indicate the cash value to local school boards of these efforts. Secondly, in view of the recent reports that the Premier has stated that the Province has not lessened its commitment to education even though the proportion of the provincial budget allocated to education has declined from fiscal 1975/76 to fiscal 1979/80, would it be accurate to calculate the Province's savings from declining enrollment by calculating what the Province would have contributed had it maintained funding at the level existing in fiscal 1975/76 and subtracting the present level. If this is not the case, will the Ministry indicate how much money the Ministry has saved as a result of declining enrollment and what benefits accrue to local school boards as a result of declining enrollment. *Tabled May 17th, 1979. Interim Answer May 31st, 1979. Approximate date information available June 8th, 1979.*

193. *Mr. McClellan*—Enquiry of the Ministry—What were the reasons which led Family Court Judge Goulard to order, in December 1978 the return of the four surviving Paquette children to the custody of their parents. What, if any, was the role of the Official Guardian in that proceeding. What is the basis of the Official Guardian's stated opinion that the Paquette children should return to their parents' custody. Why has it taken 7 months to schedule the appeal by the

Ottawa Children's Aid Society against the decision of Judge Goulard.  
*Tabled May 23rd, 1979.*

194. *Mr. McClellan*—Enquiry of the Ministry—Why were the four surviving Paquette children removed from foster homes in September 1978 and placed in the Ottawa Children's Aid Society Assessment Home. Why have they been kept there from that time until the present. *Tabled May 23rd, 1979.*
195. *Mr. McClellan*—Enquiry of the Ministry—What are the details of the proposals to provide employment incentives to recipients of Family Benefits Allowances which the Ministry submitted to the Federal Government for cost-sharing under The Canada Assistance Plan. *Tabled May 23rd, 1979.*
196. *Mr. Stong*—Enquiry of the Ministry—In line with the recent assurance of the Minister of the Environment in letters to the Towns of Richmond Hill and Markham, wherein the Minister guaranteed that all further hydro projects in those areas will receive "the full treatment" provided by the Environmental Assessment Act, would the Minister now cause to be conducted an environmental assessment hearing into that part of the 550 KV Nanticoke to Pickering transmission line which is planned for installation east of Highway #48: (a) in an area not yet approved by Cabinet; (b) in an area the land of which has not yet been completely surveyed for the new line, much less acquired; (c) in an area where no hearings have been held to allow input from the people and where the people were deprived by virtue of the decision in the Chadwill Coal case, from giving evidence to hearing officers who conducted an enquiry into the Parkway Belt West and thus in fact held sham hearings. *Tabled May 24th, 1979.*
197. *Mr. Cassidy*—Enquiry of the Ministry—Would the Ministry of Health advise how many persons are employed as operators of X-ray equipment in Ontario. Of these, how many are Registered Radiological Technicians under the Radiological Technicians Act. *Tabled May 24th, 1979.*
198. *Mr. Cassidy*—Enquiry of the Ministry—Would the Ministry of Health advise how many persons are employed as operators of X-ray equipment in public hospitals in Ontario. Of these, how many are Registered Radiological Technicians under the Radiological Technicians Act. *Tabled May 24th, 1979.*
199. *Mr. Cassidy*—Enquiry of the Ministry—How many persons are employed as operators of X-ray equipment in chest clinics operated under the Ministry of Health. Of these, how many are Registered Radiological Technicians under the Radiological Technicians Act. *Tabled May 24th, 1979.*
200. *Mr. Mackenzie*—Enquiry of the Ministry—Will the Minister of Health inform the House as to:—(a) The number of children born with major health problems or physical defects considered to be the result of a lack of vaccination for German Measles over each of the last 5 years. (b) The number of citizens in Ontario who have not been adequately protected by vaccination for measles and rubella. (c) Whether there is any evidence of a more severe reaction to rubella or measles in any particular community or any immigrant group and whether there are more people not protected in any particular ethnic com-

munity. (d) Does the Ministry have any evidence which would indicate an increased rate of birth defects following an increased incidence of rubella. (e) What steps are being taken to increase the vaccination rate against rubella and measles. *Tabled May 25th, 1979.*

201. *Mr. Mackenzie*—Enquiry of the Ministry—1. Will the Minister of Health inform the House of the number of Inspectors—Regular, Fire, Environmental and Dietary—responsible for Nursing Homes in Ontario at the present time. 2. The number of Inspectors employed as of January 1, 1979, June 1, 1978, January 1, 1978, January 1, 1977, January 1, 1976 and January 1, 1975. 3. The placement of the Inspectors by Regional offices during these periods and the areas covered by each Regional office. 4. Have there been any instances when an Inspector has called ahead of time before conducting an inspection of a Nursing Home. *Tabled May 25th, 1979.*
202. *Mr. Cooke*—Enquiry of the Ministry—Would the Minister of Correctional Services please table the following: (i) the number of inmates that remained in Windsor, London, Hamilton, Ottawa and Toronto East detention centres for more than 2 weeks since January 1977; (ii) the length of time each of the inmates did remain in the above-mentioned centres, exceeding 2 weeks. *Tabled May 28th, 1979.*
203. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education clarify its position on access of members of the legislature to the reports submitted to the Ministry by elected local school boards. Can members of the legislature and their staffs have *immediate* access to these reports, particularly the annual June and September board reports, required by the Ministry. If for any reason the Ministry imposes restrictions on access to these documents, will the Ministry explain (a) the reason for the restrictions, (b) the procedure for having these restrictions waived. *Tabled May 28th, 1979.*
204. *Mr. Conway*—Enquiry of the Ministry—Will the Minister of Transportation and Communications provide a list of all PCV Class 'R' licences granted in Region 4 since September 1, 1978 to the present date. *Tabled May 28th, 1979.*
205. *Mr. Breagh*—Enquiry of the Ministry—Further to my question on the Order Paper, #45, would the Minister of Health state the actual number of patients who received a total of 825 electroshock treatments in 1978. Would the Minister state the number of women and men who received these treatments, and what was the average number of treatments received by sex and in total. *Tabled May 29th, 1979.*
206. *Mr. Conway*—Enquiry of the Ministry—Will the Minister of Health advise the House as to which sections of Bill 19, An Act to amend the Mental Health Act, are not proclaimed; in each instance, will he give: 1. a detailed explanation as to why each unproclaimed section has not been proclaimed, and 2. the approximate date he expects each unproclaimed section to be proclaimed. *Tabled May 29th, 1979.*

141. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not know or does he not agree that general hospitals cannot provide the specific kind of care or services that psychiatric hospitals can and do. That they attend upon and to different and distinct groups of patients in terms of length of care and the seriousness of the emotional disability. *Tabled April 19th, 1979.†††*
142. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health seriously contend that the Queen Street facility can or will into the future meet the projected increasing demands for hospitalization for the mentally ill as is documented in the McKinsey Report and as set out in the OPSEU brief which points out a deficiency of beds almost before you begin. *Tabled April 19th, 1979.†††*
143. *Mr. Lawlor*—Enquiry of the Ministry—What about the Day Care and particularly the out-patients services at Lakeshore. Does the Ministry of Health seriously pretend that the present needs, much more the future requirements, of these people will begin to be met. *Tabled April 19th, 1979.†††*
144. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not recognize on the basis of your own statistics that a new hospital will be necessary, no matter what, within a foreseeable time; and at a very much greater capital cost (including the acquirement of land) than as recommended in the Role Study. *Tabled April 19th, 1979.†††*

146. *Mr. Lawlor*—Enquiry of the Ministry—What is the Ministry of Health thinking about in removing the Dialysis Unit to Whitby when the patients are located at the other end of the world. *Tabled April 19th, 1979.*†††
147. *Mr. Lawlor*—Enquiry of the Ministry—Since it was found impossible over a two-year or greater period to find a location for the Child and Adolescent Care Unit and that institution will remain on the grounds, what basis is there for a belief that the numerous other units can be accommodated elsewhere in the Lakeshore area. Where. And, in particular, the present valued and necessary Alcoholic program. *Tabled April 19th, 1979.*†††
148. *Mr. Lawlor*—Enquiry of the Ministry—What disposition does the Minister of Health intend to make of that building which was financed and constructed by the volunteers, who have been such a valuable asset to this hospital. *Tabled April 19th, 1979.*
149. *Mr. Lawlor*—Enquiry of the Ministry—Cannot some use be found by the Ministry of Health for the workshops and rehabilitation equipment and facilities fairly recently erected on the premises at considerable cost. *Tabled April 19th, 1979.*
150. *Mr. Lawlor*—Enquiry of the Ministry—In short, and as constantly new questions arise, does the Minister of Health not realize or even acknowledge that he is in the process of making a gross and irreparable blunder which his Government will soon learn to regret, in his unplanned and ill-considered move to close this facility against the best advice of his own hired consultants (\$120,000 worth) and the numerous, most directly involved social agencies and individuals. *Tabled April 19th, 1979.*†††
151. *Mr. Lawlor*—Enquiry of the Ministry—Is the Minister of Health not now prepared to reconsider the closing of Lakeshore Psychiatric Hospital on the basis of the numerous observations and comments made at public meetings, by way of correspondence, and by briefs submitted particularly by the Ontario Public Service Employees Union. *Tabled April 19th, 1979.*†††
152. *Mr. Lawlor*—Enquiry of the Ministry—Since I am often awakened at 3.00 a.m. in the morning by someone calling about a problem, and this has been known to happen to many other Members of the Ontario Legislature, does the Minister of Health really feel that such a disturbance of his sleep constitutes adequate grounds for closing the institution, as he intimates by his repeated, soulful reference to this matter. And in particular, does a fire arising out of actions of a patient in the Special Observation Unit so constitute any or adequate grounds. *Tabled April 19th, 1979.*†††
153. *Mr. Lawlor*—Enquiry of the Ministry—Will the Minister of Health not give good consideration to the perfectly reasonable suggestion made by the Member from Lakeshore that a planned, phased approach to this whole problem would be the best solution for all concerned. That is to say, that a new psychiatric hospital having, say, about 150 beds at its completion, be gradually con-

Would the Minister further indicate how many anaesthetists, obstetricians and gynecologists, surgeons, psychiatrists, and paediatricians there are in total in each county, and how many are still practising within OHIP. 181. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education table for each School Board in Ontario for 1977, 1978, 1979, using interim and estimate figures where necessary: 1. the average daily enrollment; 2. per pupil grant ceiling; 3. per pupil expenditures; 4. total expenditure; 5. total local taxation; 6. total provincial assistance; 7. rate of grant on recognized ordinary expenditures; 8. provincial contribution as a percentage of the total local school board expenditures; 9. rate of grant for French language instruction; 10. decline or increase in number of students from previous year; 11. decline or increase in number of full time equivalent teachers from previous year; 12. number of self-contained special education classes; 13. number of full time equivalent teachers of special education classes; 14. number of heritage language classes; 15. number of students studying heritage languages; 16. number of pupils whose first language is neither English nor French; 17. number of self-contained classes for pupils whose first language is neither English nor French; 18. number of full-time equivalent teachers of classes for pupils whose first language is neither English nor French. *Tabled May 15th, 1979. 182. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education act upon the request of the Community Association for Unionville Secondary Education (CAUSE) to provide a new high school in Unionville. Will the Minister review the development applications which provide for approximately 3,000 new homes in Unionville, 2,000 in Risebrough and 3,300 in Markham, the result of which will not only overcrowd both Markham District High School and Thornlea High School, but would call for the immediate construction of a secondary school in the Unionville area. Will the Minister immediately undertake to satisfy the need of the secondary school students in Unionville to be educated in their own community. *Tabled May 16th, 1979. Interim Answer May 29th, 1979. Approximate date information available June 8th, 1979.*
183. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education act upon the request of the Risebrough Community Association in the community of Markham, Ontario, to provide new and adequate school facilities to meet the growing educational needs in that area. Will the Minister inform herself of the situation which now exists, in that projected figures indicate that by September 1, 1979, 1000 units of the 1130 units being built will be occupied producing approximately 480 students seeking educational facilities. Will the Minister review the present policy which requires kindergarten children from this area to be bused to a school in Richmond Hill and which also sees children in grades one to five being bused to a small school where gymnastic and library facilities are non-existent. Will the Minister immediately review and provide adequate facilities in this community to meet the educational demands which will be in existence by September 1, 1979. *Tabled May 16th, 1979. Interim Answer May 29th, 1979. Approximate date information available June 8th, 1979.*
184. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education cause an investigation to be made into the overcrowding conditions which exist at the German Mills Public School in Markham. Will the Minister explain the policy of the Ministry which appears to prefer the busing of pupils to distant empty

classrooms in the Regional Municipality of York rather than construct new facilities or add on to existing facilities where circumstances warrant. Will the Minister review the policy of the Ministry which requires that prior to the building of a school, there exist sufficient number of children in the area to equal 80% of the projected capacity of the said school and apply that formula to the building of a school on the Flowerdale site in the Town of Markham, in order to accommodate the excess enrolment in the German Mills Public School which is equal to 123% of that school's designed capacity. Will the Minister review the immediate need for a new school on the Flowerdale site in the light of projected figures over the next five years which indicate that school-age children in the area will increase to approximately 900 and which figure does not take into account the fact that there is presently before the Ontario Municipal Board an application by a developer to build in the area an additional 190 townhouses. If this project is allowed to proceed the projected figures indicate that school enrolment will not decline until 1995. Will the Minister initiate a policy which would provide architecturally acceptable but movable school buildings to accommodate the shifting need of the school population. How does the Minister reconcile the Ministry's policy of fiscal restraint which includes busing and which dictates against the welfare of children, with the more important need of providing adequate facilities so that the educational and social needs of children may be properly met in their own community environment. Will the Minister therefore satisfy the needs of the children in the German Mills area of Markham and build a second school on the Flowerdale site. *Tabled May 16th, 1979. Will the Ministry indicate the cash value to local school boards of these efforts. Secondly, in view of the recent reports that the Premier has stated that the Province has not lessened its commitment to education even though the proportion of the provincial budget allocated to education has declined from fiscal 1975/76 to fiscal 1979/80, would it be accurate to calculate the Province's savings from declining enrollment by calculating what the Province would have contributed had it maintained funding at the level existing in fiscal 1975/76 and subtracting the present level. If this is not the case, will the Ministry indicate how much money the Ministry has saved as a result of declining enrollment and what benefits accrue to local school boards as a result of declining enrollment. *Tabled May 17th, 1979. 193. *Mr. McClellan*—Enquiry of the Ministry—What were the reasons which led Family Court Judge Goulard to order, in December 1978 the return of the four surviving Paquette children to the custody of their parents. What, if any, was the role of the Official Guardian in that proceeding. What is the basis of the Official Guardian's stated opinion that the Paquette children should return to their parents' custody. Why has it taken 7 months to schedule the appeal by the

Ottawa Children's Aid Society against the decision of Judge Goulard.

(b) The number of citizens in Ontario who have not been adequately protected by vaccination for measles and rubella. (c) Whether there is any evidence of a more severe reaction to rubella or measles in any particular community or any immigrant group and whether there are more people not protected in any particular ethnic community. (d) Does the Ministry have any evidence which would indicate an increased rate of birth defects following an increased incidence of rubella. (e) What steps are being taken to increase the vaccination rate against rubella and measles. *Tabled May 25th, 1979.*

(P. B-9, Northwest Metro Arterial Street—Eglinton Avenue to St. Clair Avenue: Stage II—Route alternatives—Technical Summary—Ministry of Transportation and Communications—March 1977). If such a study has not yet been completed, will the Minister indicate why his Ministry is considering building a new road connecting Weston Road and St. Clair Avenue by extending Maybank Avenue and the Lambton Spriar Bridge without such a traffic impact study. 227. *Mr. Stong*—Enquiry of the Ministry—(a) Will the Minister of Health review Ontario Regulation 599/75 under the Ambulance Act, and more particularly Sections 9 and 10 thereof, with a view to extending the deadline of the 1st day of August 1979 which deadline would cause the discontinuance of full-time employment as a driver attendant for anyone who has not by that date taken and obtained a pass standing in an emergency medical care examination set by the director pursuant to that regulation. (b) Will the Minister review the compulsory ambulance and emergency care courses offered by the College of Applied Arts and Technology, which are not available on a part-time basis, which require approximately 320 hours of study and the average annual tuition for which costs the student \$325.00, excluding examinations, so that those courses may be more accessible in terms of time and cost. (c) Will the Minister review the competency of the ambulance and emergency care courses offered in light of the failure rate in both the practical and theoretical aspects of the examinations set by the director pursuant to this regulation. (d) Will the Minister consider revising the regulation and allow for retraining as opposed to discontinuance of full-time employment by any candidate who is not successful in completing an ambulance and emergency care course or obtaining a pass standing in an emergency medical care examination. (e) Will the Minister consider establishing an association of ambulance driver attendants which, when set up, could operate on the same basis as the pilot project provided by the College of Physicians and Surgeons for its members and which pilot project calls for periodic re-examination of doctors with a view to requiring doctors to improve in the areas where they are deficient rather than cause dismissal or suspension from the College of Physicians and Surgeons. (f) Will the Minister act immediately to extend the August 1, 1979 deadline to allow those driver attendants who have not yet qualified pursuant to the regulation to do so, so that the already considerable investment in training and experience in these staff members will not be lost. *Tabled June 4th, 1979.*
